

Vipack PIHSGB10

Vipack PINO Compact Bed with Slide (Model PIHSGB10) User Manual

1. INTRODUCTION

Thank you for choosing the Vipack PINO Compact Bed with Slide. This manual provides essential information for the safe assembly, use, and maintenance of your new bed. Please read these instructions carefully before assembly and retain them for future reference.

2. SAFETY INFORMATION

Your child's safety is paramount. Please adhere to the following guidelines:

- **Maximum Weight Capacity:** The bed is designed to support a maximum weight of 75 kilograms (165 lbs). Do not exceed this limit.
- **Age Recommendation:** Loft beds and beds with slides are generally recommended for children aged 6 years and older. Younger children may be at risk of injury from falls.
- **Fall Prevention:** Ensure guardrails are always securely in place. Do not allow children to jump on the bed.
- **Slide Safety:** Only one child should use the slide at a time. Always slide feet first. Ensure the area around the slide exit is clear of obstructions.
- **Ladder Safety:** Always use the ladder to access and exit the bed. Ensure the ladder is securely attached.
- **Assembly:** This product requires adult assembly. Ensure all parts are correctly assembled and all fasteners are tightened before use. Regularly check and tighten all bolts and screws.
- **Choking Hazard:** Keep small parts and hardware out of reach of children during assembly.
- **Placement:** Position the bed away from windows, cords, and other potential hazards.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact your retailer.

- Bed frame components (posts, side rails, end panels)

- Bed slats
- Ladder components
- Slide components
- Hardware pack (screws, bolts, nuts, washers, Allen key)
- Assembly instructions (this manual)

4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults. Clear a spacious area for assembly and lay out all components. Refer to the dimensional drawing for component identification and orientation.

Figure 1: Overall view of the Vipack PINO Compact Bed with Slide, showcasing the natural pine finish, integrated ladder, and slide.

Figure 2: The Vipack PINO Compact Bed with Slide integrated into a child's room, demonstrating its functional and aesthetic appeal.

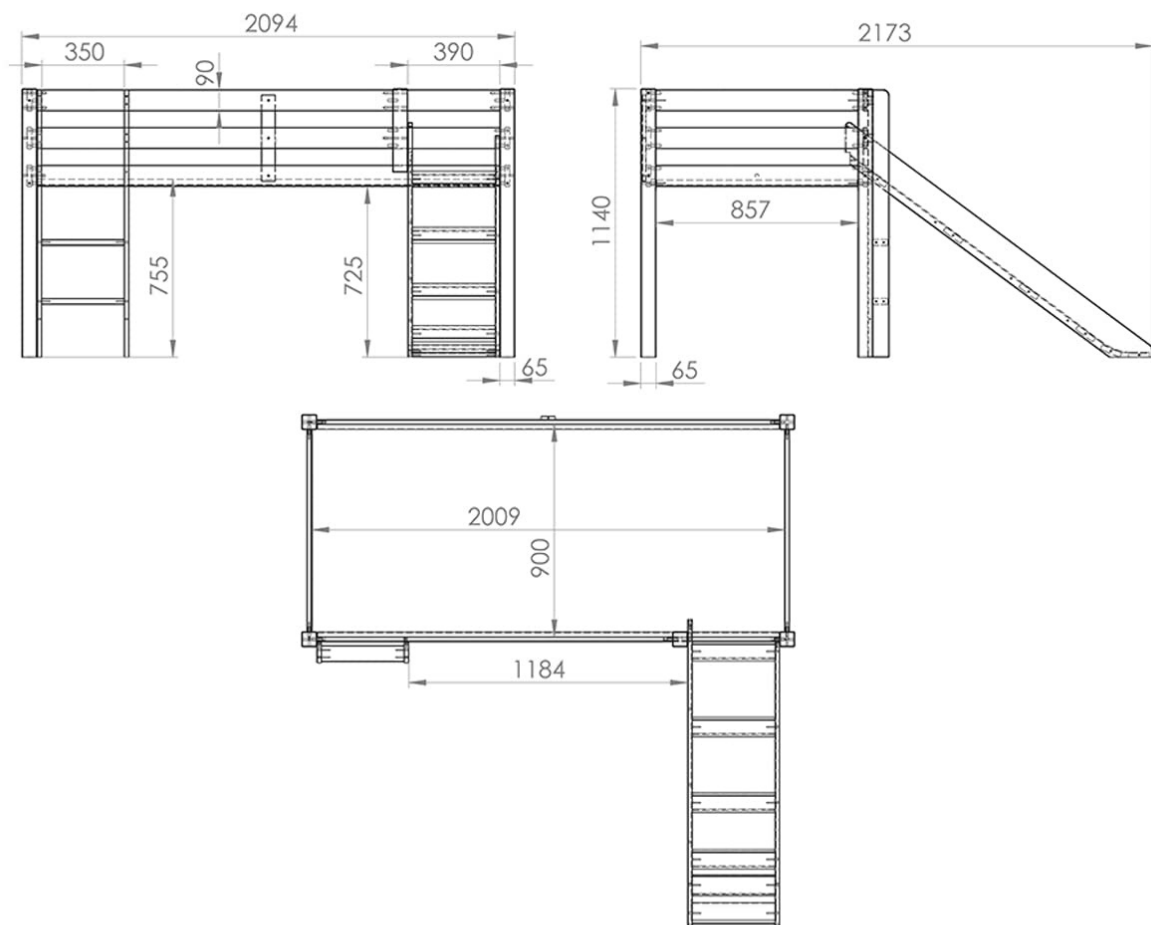

Figure 3: Detailed dimensional drawing of the Vipack PINO Compact Bed with Slide, showing all key measurements for assembly and space planning.

1. **Step 1: Assemble the Bed Frame.** Connect the bed posts to the side rails and end panels using the provided hardware. Ensure all connections are snug but do not overtighten until the frame is fully assembled.
2. **Step 2: Attach the Ladder.** Securely attach the ladder to the designated side of the bed frame using the specified bolts. Verify it is stable and does not wobble.
3. **Step 3: Attach the Slide.** Mount the slide to the opposite side of the bed frame, following the instructions for secure attachment. Ensure all fasteners are tight and the slide is stable.
4. **Step 4: Install Bed Slats.** Place the bed slats across the bed frame. Secure them if required by the design (e.g., with screws or plastic caps).
5. **Step 5: Final Tightening.** Once the entire bed is assembled, go back and firmly tighten all bolts and screws. Do not overtighten to avoid stripping threads or damaging wood.
6. **Step 6: Mattress Placement.** Place a suitable mattress on the bed slats. Ensure the mattress height does not compromise the effectiveness of the guardrails.

5. OPERATING AND USAGE INSTRUCTIONS

To ensure safe and enjoyable use of the Vipack PINO Compact Bed with Slide:

- Always use the ladder for climbing up and down from the bed.
- The slide is for single-person use only. Always slide down feet first.
- Do not allow children to play underneath the bed without supervision, especially if the space is enclosed.
- Regularly inspect the bed for any loose parts or signs of wear.

6. MAINTENANCE

Proper maintenance will extend the life of your Vipack PINO bed:

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the lacquered pine finish.
- **Hardware Check:** Periodically (e.g., monthly) check all bolts, screws, and fasteners to ensure they are tight. Retighten as necessary.
- **Wood Care:** Protect the wood from extreme temperature changes and direct sunlight to prevent warping or fading.

7. TROUBLESHOOTING

If you encounter any issues with your bed, consider the following:

- **Bed feels wobbly:** Re-check all assembly steps. Ensure all bolts and screws are fully tightened.
- **Squeaking noises:** Identify the source of the squeak. Often, it's a loose connection. Tighten the relevant hardware.
- **Parts don't fit:** Double-check the part numbers against the assembly diagram. Ensure parts are oriented correctly. Do not force parts together.

8. SPECIFICATIONS

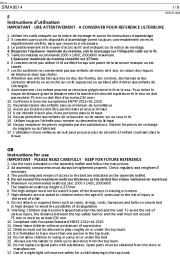

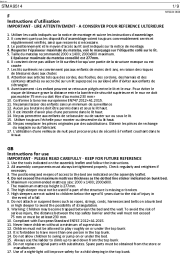

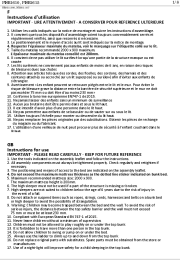

Brand	Vipack
Model Number	PIHSGB10
Product Dimensions (L x W x H)	209.4 x 217.3 x 114 cm (82.4 x 85.5 x 44.9 inches)
Maximum Weight Capacity	75 Kilograms (165 lbs)
Item Weight	25 Kilograms (55 lbs)
Frame Material	Pine
Finish Type	Lacquered
Style	Scandinavian
Components Included	See description (Bed frame, slats, ladder, slide, hardware)
Discontinued by Manufacturer	No

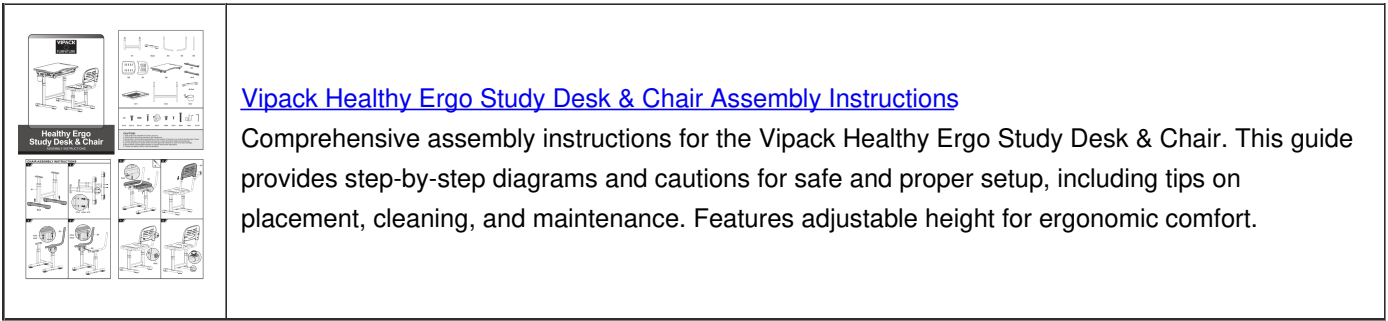

9. WARRANTY AND SUPPORT

Specific warranty information is not provided in the product data. For details regarding warranty coverage, spare parts availability, or customer support, please contact your retailer or the manufacturer, Vipack, directly. Keep your proof of purchase for any warranty claims.

Instructions d'utilisation IMPORTANT - LIRE ATTENTIVEMENT - A CONSERVER POUR REFERENCE ULTERIEURE	
1. Utiliser les outils indiqués sur la notice de montage et suivre les instructions d'assemblage. 2. Il convient que tous les dispositifs d'assemblage soient toujours convenablement serrés et réguliers avant et après, ainsi que recenser à l'installation. 3. Le positionnement et le moyen d'accès au lit sont indiqués sur la notice de montage. 4. Respecter l'équilibre maximum du matériel, voir le marquage sur l'étiquette collée sur le lit. 5. Table du matériel recommandé 2000 x 200 maximum. 6. Il convient de ne pas utiliser le lit surélevé lorsqu'une partie de la structure manque ou est cassée. 7. Les lits surélevés ne conviennent pas aux enfants de moins de 6 ans, en raison des risques de blessure et des chutes. 8. Attention aux articles tels que des cordes, des ficelles, des cordons, des harmaïs et des courroies attachés ou accrochés sur un lit surélevé ou surélevé afin d'éviter aux enfants de s'étrangler. 9. Avertissement : Les enfants peuvent se retrouver piégés entre le lit et le mur. Pour éviter le risque de blessure grave la distance entre la barrière de sécurité supérieure et le mur ne doit pas excéder 75 mm ou doit être d'au moins 230 mm. 10. Conformité à la norme européenne EN14747-1 de 2012. 11. Ne jamais laisser des enfants sans supervision de surveillance. 12. Aucun jeu brutal ne doit être permis dans et sous le lit haut. 13. Il est interdit d'avoir plus d'un enfant dans le lit haut. 14. Ne pas permettre aux enfants de se balancer ou de sauter sur ou sous le lit. 15. Utiliser toujours l'échelle pour monter ou descendre du lit haut. 16. Ne pas remplacer les pièces originales par des substitutions. Obtenir les pièces de rechange du magasin ou du fabricant. 17. L'utilisation d'une veilleuse de nuit peut procurer plus de sécurité à l'enfant couchant dans le lit haut.	
GB Instructions for use IMPORTANT - PLEASE READ CAREFULLY - KEEP FOR FUTURE REFERENCE	
1. Use the tools indicated on the assembly leaflet and follow the instructions. 2. All assembly components must always be tightened properly. Check regularly and re tighten if necessary. 3. The positioning and means of access to the bed are indicated on the assembly leaflet. 4. Do not exceed the maximum mattress thickness as the dotted line sticker indicated on bunk bed. 5. Maximum recommended mattress size: 2000 x 200. 6. The high sleeper must not be used if a part of the structure is missing or broken. 7. High sleeper must not be used for children the age of 6 years due to the risk of injury in the event of a fall. 8. Do not attach or suspend items such as ropes, strings, cords, harnesses and belts on a bunk bed or high sleeper to avoid the possibility of strangulation. 9. Warning: Children may become trapped between the bed and the wall. To avoid the risk of serious injury, the distance between the top safety barrier and the wall must not exceed 75 mm or must be at least 230 mm. 10. Compliant with European Standard EN14747-1 of 2012. 11. Never leave a child without supervision of an adult. 12. Children must not be allowed to play roughly on or under the top bunk. 13. It is forbidden to have more than one person in the top bunk. 14. Do not allow children to swing or jump on or under the bed. 15. Always use the ladder to climb up to and down from the top bunk. 16. Do not replace original parts with substitutes. Spare parts must be obtained from the store or manufacturer. 17. Use of a night light will improve safety for a child sleeping in the top bunk.
