## Nescafé Azera Barista Style Instant Coffee 100g

# Nescafé Azera Barista Style Instant Coffee 100g User Manual

Model: Azera Barista Style Instant Coffee 100g

## PRODUCT OVERVIEW

---

The Nescafé Azera Barista Style Instant Coffee offers a rich and aromatic coffee experience. This product consists of 100g of instant coffee per jar, typically sold as a pack of two.

## SETUP AND PREPARATION

---

Follow these steps to prepare your Nescafé Azera Barista Style Instant Coffee:

- Boil Water:** Heat fresh, cold water to just below boiling point (approximately 90-95°C or 195-205°F). Do not use aggressively boiling water directly as it can scald the coffee.
- Add Coffee:** For a standard cup (approximately 200ml), add one to two teaspoons (2-4g) of Nescafé Azera Barista Style Instant Coffee to your mug. Adjust quantity to taste.
- Pour Water:** Carefully pour the hot water over the instant coffee granules.
- Stir:** Stir gently until the coffee is fully dissolved.
- Optional Additions:** Add milk, sugar, or other preferred sweeteners as desired.

*Tip:* For a creamier texture, add a small amount of cold milk before stirring in the hot water.

## OPERATING (USAGE GUIDELINES)

This product is designed for convenient and quick coffee preparation. It is suitable for daily consumption.

- Consume within recommended daily caffeine intake limits.
- Ensure the lid is securely closed after each use to maintain freshness.
- Do not consume directly from the jar.

## MAINTENANCE AND STORAGE

Proper storage ensures the longevity and quality of your instant coffee.

- **Storage Conditions:** Store in a cool, dry place. Avoid direct sunlight and high humidity.
- **Container:** Keep the coffee in its original airtight container.
- **Shelf Life:** Refer to the "Best Before" date printed on the packaging for optimal quality.

## TROUBLESHOOTING (COMMON ISSUES)

If you encounter any issues with your instant coffee, consider the following:

- **Coffee Not Dissolving:** Ensure water is hot enough (just below boiling). Stir thoroughly for at least 10-15 seconds.
- **Weak Flavor:** Increase the amount of coffee granules used per cup. Check the "Best Before" date to ensure freshness.
- **Bitter Taste:** Water might be too hot, scalding the coffee. Allow boiled water to cool for 30-60 seconds before pouring. Reduce coffee quantity if necessary.
- **Clumping in Jar:** This indicates moisture ingress. Ensure the lid is always tightly sealed and stored in a dry environment.

## SPECIFICATIONS

Attribute	Detail
Brand Name	Nescafé
Product Name	Azera Barista Style Instant Coffee
Item Form	Instant
Flavor	Azera
Caffeine Content	Caffeinated
Coffee Roast Level	Medium Roast
Container Type	Bag ( <i>Note: Product image shows a jar, but specification lists 'Bag'. Refer to actual packaging.</i> )
