## Waterpik WP-100W

# Waterpik Ultra Dental Water Jets

MODEL: WP-100W

## PRODUCT OVERVIEW

---

The Waterpik Ultra Dental Water Jet (Model WP-100W) is designed to enhance oral hygiene by effectively removing debris and bacteria from between teeth and along the gumline. It utilizes high-pressure water jets to provide a thorough cleaning experience, offering significant oral health benefits, especially for individuals with braces or implants.

Key features include:

- Waterpik Ultra Water Flosser technology.
- Removes debris and bacteria lodged deep between teeth and below the gum-line.
- Provides significant oral health benefits for people who wear braces.
- Adjustable pressure settings for customized cleaning.

## **SAFETY INFORMATION**

---

For your safety, always ensure the device is unplugged when not in use and before cleaning to avoid electrical hazards. Do not immerse the main unit in water.

## SETUP

---

### Initial Preparation

1. Unpack all components from the packaging.
2. Place the Waterpik unit on a flat, stable surface near a power outlet and a sink.
3. Ensure the reservoir is properly seated on the base.
4. Select the desired tip and firmly insert it into the handle until it clicks into place.

## OPERATING INSTRUCTIONS

---

Follow these steps for effective use of your Waterpik Ultra Dental Water Jet:

1. Fill the reservoir with lukewarm water or your preferred mouthwash.
2. Select your desired pressure setting using the dial on the unit. Start with a low setting and gradually increase as you become accustomed to the water jet.
3. Place the tip in your mouth, leaning over the sink, and point it towards your gumline.
4. Press the 'On' button on the unit to start water flow.
5. Move the tip along your gumline and between teeth, allowing the water to remove debris and bacteria.
6. Use the 'On/Off' switch on the handle for easy control during use, pausing the water flow as needed.
7. Continue until all areas have been cleaned or the reservoir is empty.

## MAINTENANCE

---

### Cleaning the Reservoir and Tips

To ensure optimal performance and hygiene, regular cleaning is essential:

- Rinse the reservoir thoroughly with clean water after each usage to prevent calcification, especially if using mouthwash or other solutions.
- Clean the tips as needed by rinsing them under warm water. For a deeper clean, tips can be soaked in a solution of 2 parts water to 1 part white vinegar for 5-7 minutes, then rinsed thoroughly.
- Wipe down the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners.

## TROUBLESHOOTING

---

While the Waterpik Ultra Dental Water Jet is designed for reliable operation, should you encounter any issues, consider the following general advice:

- **No Water Flow:** Ensure the reservoir is filled, the tip is securely inserted, and the unit is properly plugged into a working electrical outlet. Check for any kinks in the hose.
- **Weak Water Pressure:** Verify the pressure setting dial is adjusted to your desired level. Mineral deposits can sometimes affect pressure; perform a thorough cleaning of the reservoir and internal components as described in the Maintenance section.
- **Excessive Noise:** Some operational noise is normal. If the noise is unusually loud or accompanied by other issues, ensure the unit is on a stable surface and all parts are correctly assembled.

For persistent problems or issues not listed here, please refer to the official Waterpik support resources or contact customer service.

## SPECIFICATIONS

---

Feature	Detail
Model Number	WP-100W
Product Dimensions	5.5 x 8.5 x 6.5 inches
Item Weight	1.9 Pounds
Power Source	Corded Electric
Manufacturer	Church & Dwight
UPC	073950278195

## WARRANTY AND SUPPORT

---

Please note that this product is subject to a 'No returns' policy as per the legal disclaimer. For detailed warranty information, product registration, or further support, please visit the official Waterpik website

or contact their customer service directly. Contact information can typically be found on the product packaging or the manufacturer's official website.
