DreamLine SHEN-2134340-01

DreamLine Prism Frameless Neo-Angle Pivot Shower Enclosure SHEN-2134340-01 Instruction Manual

Model: SHEN-2134340-01 | Brand: DreamLine

PRODUCT OVERVIEW

The DreamLine Prism neo-angle shower enclosure is designed to maximize space and provide an open appearance with its frameless glass design. This enclosure features durable construction and a protective glass coating for ease of maintenance.

Image: The DreamLine Prism Neo-Angle Shower Enclosure installed in a modern bathroom with blue tiled walls and a white shower base.

Key features include:

- Model Size: 34 1/8 in. W x 34 1/8 in. D x 72 in. H
- Walk-In Opening: 22 3/16 in.
- Hardware Finish: Chrome
- Premium 3/8 in. (10 mm) thick certified tempered glass
- Adjustment: up to 3/8 in. per side for width or out-of-plumb (uneven walls)
- DreamLine exclusive ClearMax water and stain resistant glass coating
- Stainless steel pivot bars for durability and stability
- Full length magnetic door latch for water-tight closure
- Reversible for left-hand or right-hand door operation

SETUP AND INSTALLATION

This section provides general guidance for the installation of the DreamLine Prism shower enclosure. Professional installation is recommended to ensure proper fit and function.

Pre-Installation Considerations:

- **Wall Preparation:** Shower bases are designed for direct-to-stud installation, suitable when studs are visible or in a rough opening.
- **Finished Walls:** If backer board and tile are used on walls, this will decrease the shower space opening. Shower doors are designed for a finished opening installation when walls are completely tiled.
- **Base Sizing:** The shower base will always be approximately 2 inches larger than the corresponding shower door. Consider this when ordering the base and enclosure separately.
- **Wall Adjustment:** Anodized aluminum wall profiles allow for up to 3/8 inch adjustment per side for width or out-of-plumb (uneven walls).

Protective Glass Coating

With ClearMax

Without ClearMax

▪ Factory Applied Proprietary Coating

▪ Protects from Limescale Buildup

▪ Water Resistant Surface

Image: Diagram illustrating the reversible installation feature of the shower enclosure, allowing for either left or right-hand door operation.

Installation Steps (General):

1. Ensure the shower base is correctly installed and level.
2. Position the wall profiles and secure them to the studs or finished walls, accounting for any out-of-plumb adjustments.
3. Install the fixed glass panels into the wall profiles and secure them.
4. Attach the pivot bars and install the pivot door, ensuring smooth operation and proper alignment with the magnetic strip.
5. Apply silicone sealant as required to ensure a watertight seal. Allow adequate drying time before use.

OPERATING INSTRUCTIONS

The DreamLine Prism shower enclosure is designed for simple and reliable operation.

- **Door Operation:** The pivot door opens smoothly. Ensure the door is fully closed after use to engage the full-length magnetic door latch, which creates a water-tight seal.
- **Reversible Door:** The door can be installed for either left-hand or right-hand opening, depending on your bathroom layout and preference.

CARE AND MAINTENANCE

Proper care and maintenance will preserve the appearance and functionality of your DreamLine Prism shower enclosure.

ClearMax Protective Glass Coating:

The glass is treated with DreamLine's exclusive ClearMax water and stain resistant coating. This proprietary factory-applied coating causes water to bead and roll off, making upkeep easier.

General Cleaning Guidelines:

- **Regular Cleaning:** Keep your ClearMax coated glass looking new by using a soft, non-abrasive cloth or squeegee to wipe away excess water after each use.
- **Ventilation:** Keep the shower area well-ventilated to help reduce the chance of mildew.
- **Avoid Abrasives:** Do not use abrasive cleaners, scouring powders, or pads on your glass.
- **Chemical Avoidance:** Do not use highly acidic or alkaline cleaning products to avoid damage to the glass surface.
- **Protect Surfaces:** Keep brushes, razors, or any other sharp objects away from the glass to help avoid scratches or other damage.

TROUBLESHOOTING

This section addresses common issues that may arise with your shower enclosure. For complex problems, contact DreamLine customer support.

- **Water Leakage:**

- Ensure all silicone seals are intact and properly applied. Reapply sealant if necessary.
- Verify the magnetic door strip is fully engaging when the door is closed.
- Check that the shower base is level and properly sloped towards the drain.

- **Door Not Closing Properly:**

- Inspect the pivot hinges for any obstructions or misalignment.
- Check the wall profiles for any shifting that might affect door alignment. Adjust if possible using the out-of-plumb adjustment feature.

- **Glass Stains/Spots:**

- Refer to the "Care and Maintenance" section for cleaning instructions, especially for ClearMax coated glass.
- Use a squeegee after every shower to minimize water spot buildup.

SPECIFICATIONS

Feature	Detail
Brand	DreamLine
Model Number	SHEN-2134340-01
Installation Type	2-Wall Corner
Shape	Neo-Angle
Product Dimensions	34.13"D x 34.13"W x 72"H (34 1/8 in. W x 34 1/8 in. D x 72 in. H)
