# **IFB RFFT 485EDWDLS 485 L Frost-Free Double Door Refrigerator User Manual**

Model: RFFT 485EDWDLS | Brand: IFB

## **INTRODUCTION**

This manual provides detailed instructions for the safe and efficient operation, installation, and maintenance of your IFB RFFT 485EDWDLS 485 L Frost-Free Double Door Refrigerator. Please read this manual thoroughly before using the appliance and retain it for future reference.

*Image: Front view of the IFB RFFT 485EDWDLS refrigerator, showcasing its double-door design, external LCD display, and water dispenser. The finish is Linox Steel and LX Gray.*

## SETUP AND INSTALLATION

- **Placement:** Ensure the refrigerator is placed on a level surface. The appliance features roller feet (4 Nos) for easy positioning.
- **Ventilation:** Allow adequate space around the refrigerator for proper air circulation to ensure efficient cooling and energy consumption.
- **Reversible Doors:** The doors can be hinged from either side, allowing flexibility in placement and access. Consult a qualified technician for door reversal if needed.
- **Power Connection:** Connect the refrigerator to a grounded power outlet. Verify that the voltage matches the appliance's requirements.

## OPERATING INSTRUCTIONS

### Temperature Control and Display

- **LCD Touch Control:** Adjust and monitor the refrigerator's temperature settings using the external LCD display with full touch controls. This allows temperature management without opening the doors.
- **Independent Controls:** Dual sensors enable separate temperature control for the freezer and the bottom fresh food compartment. This flexibility allows optimal storage conditions for different food types.

### Cooling Programs and Modes

The refrigerator offers 5 distinct cooling modes:

- **Eco Mode:** Designed to optimize energy consumption.
- **Holiday Mode:** Maintains contents during extended absences, preserving food with reduced energy use.
- **Super Cooling Mode:** Rapidly cools the fresh food compartment.
- **Super Freeze Mode (Ice Fast Forward):** Activates ultra-low temperatures (nearing -30°C) for rapid freezing and ice production within minutes.
- **Drink Cool Mode:** Features a preset timer for chilling beverages.

### Specialized Storage Features

- **Water Dispenser:** Provides chilled, fresh, and odor-free water without opening the refrigerator door, minimizing energy loss. An odor filter maintains water freshness.
- **Twin Vegetable Trays:** Two separate trays for organized storage of vegetables, allowing separation of fleshy and leafy items.
- **Convertible Box:** A dedicated compartment with independent temperature control, ideal for storing sensitive items like chocolates, pies, or ice cream without affecting other contents.
- **Fresh Lock Box:** Designed to contain odors from pungent foods like cut onions or lemons, preserving overall refrigerator freshness.
- **Bread Box:** Helps maintain the moisture and freshness of bread and confectionery for longer periods.
- **Bottle Rack:** Stores bottled beverages at an angle to retain their original flavor and taste.
- **Quick Freezer Zone:** A designated area for rapidly freezing food items.
- **Multi-Air Flow System:** Ensures uniform cooling throughout the refrigerator, maintaining food freshness in all sections.
- **Ultra Chilling System (UCS):** Achieves temperatures nearing -30°C for optimal food preservation.

## MAINTENANCE

- **Anti-Fungal Gasket:** The door gaskets are treated with anti-fungal properties to prevent mold and fungi growth. Regularly clean the gaskets with a mild detergent and water.
- **Internal Cleaning:** Periodically clean the interior of the refrigerator with a soft cloth and mild, non-abrasive cleaner. Ensure the appliance is unplugged before cleaning.
- **LED Internal Lighting:** The refrigerator is equipped with powerful yet mellow LED lighting. These are energy-efficient and typically do not require replacement during the product's lifespan.
- **Freeze Packs:** In the event of a power cut, the included freeze packs help maintain the freezer's temperature for 6-8 hours, preventing food spoilage. Ensure freeze packs are properly placed in the freezer.
- **Odour Filter for Water Dispenser:** The water dispenser includes an odor filter to keep water fresh. Refer to the full product manual for instructions on filter replacement frequency and procedure.

## TROUBLESHOOTING

For common issues, please refer to the following:

- **Appliance Not Cooling:** Check if the power cord is securely plugged in. Ensure the temperature settings are appropriate. Verify that the doors are closing completely and the gaskets are sealing.
- **Excessive Noise:** Ensure the refrigerator is level. Check for any objects vibrating against the appliance.
- **Water Leakage:** Inspect the water dispenser connections and ensure the drain pan is correctly positioned.
- **Door Alarm:** If the door alarm sounds, ensure both doors are fully closed.
- **Child Lock:** If controls are unresponsive, check if the child lock feature is activated on the LCD display.

If problems persist, contact IFB customer support for assistance.

## SPECIFICATIONS

Feature	Detail
Brand	IFB
Model	RFFT 485EDWDLS
Energy Efficiency	2 Star Rating
Energy Consumption	498 Kilowatt Hours (Annual)
Total Capacity	485 litres (Gross), 461 litres (Net)
Refrigerator Fresh Food Capacity	356 litres (Gross)
Freezer Capacity	129 litres (Gross)
Noise Level	42 Decibels
Installation Type	Freestanding

Feature	Detail
Form Factor	Standard Double Door (Freezer-on-Top)
Special Features	Automatic Defrost, Water Dispenser, LCD Touch Control, Multi-Air Flow, Super Freeze Mode, Reversible Door, Anti Fungal Gasket, Child Lock, Door Alarm
Colour	Linox Steel and LX Gray
Defrost System	Frost Free
Door Orientation	Double-door
Door Material	Steel
Shelf Type	Plastic (Spill proof glass shelves: 3 Nos)
Number of Shelves	3
Included Components	Refrigerator
Item Weight	85 kg
Dimensions (LxWxH)	75 x 76 x 184 Centimeters (Without Handle)
Cooling Refrigerant	R 600a
