

CyberPower EC850LCD

CyberPower Ecologic UPS Instruction Manual

Model: EC850LCD

Brand: CyberPower

1. INTRODUCTION

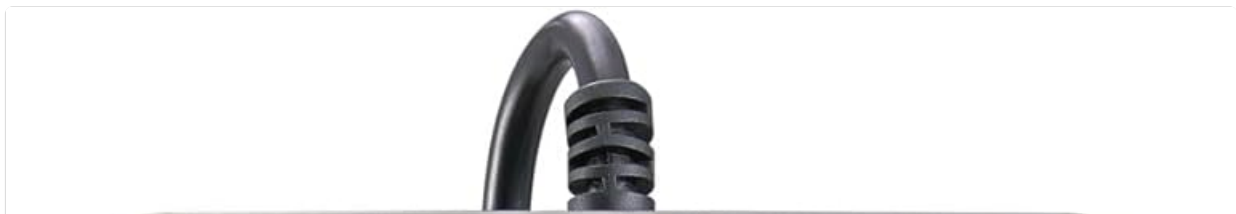

The CyberPower Ecologic EC850LCD Uninterruptible Power Supply (UPS) system is designed to provide reliable battery backup and surge protection for desktop computers, workstations, networking devices, and home entertainment systems. This compact unit utilizes simulated sine wave output to safeguard your valuable electronics during power interruptions. The EC850LCD also features an ECO Mode to reduce power consumption and energy costs when connected peripherals are not in use.

2. KEY FEATURES

- **850VA/510W Capacity:** Provides sufficient power for typical home and office setups.
- **12 NEMA 5-15R Outlets:** Includes six battery backup & surge protected outlets and six surge protected outlets (three of which are ECO controlled).
- **Multifunction LCD Panel:** Displays real-time information on battery status, power conditions, and operational modes.
- **ECO Mode:** Automatically turns off power to connected peripherals when the main computer is off or in sleep mode, optimizing energy efficiency.
- **Compact Design:** Space-saving form factor suitable for various environments.
- **UL Certified:** Ensures safety and compliance with industry standards.

3. PRODUCT OVERVIEW

Familiarize yourself with the components of your CyberPower EC850LCD UPS.

SURGE PROTECTED OUTLETS

850VA

Figure 1: Front view of the CyberPower EC850LCD UPS, highlighting the LCD display and control buttons.

Figure 2: Angled view of the CyberPower EC850LCD UPS, illustrating the layout of the front panel and side outlets.

Figure 3: Rear view of the CyberPower EC850LCD UPS, detailing the power cord, USB communication port, and keyhole mounting slots.

- 12 NEMA 5-15R Surge Protected Outlets
- Energy-Saving ECO Mode
- Multifunction LCD
- USB Communication Port

Figure 4: Dimensions of the CyberPower EC850LCD UPS, indicating its compact size for placement.

4. SETUP INSTRUCTIONS

1. **Unpack the UPS:** Carefully remove the UPS from its packaging. Inspect for any shipping damage.
2. **Initial Battery Charge:** For optimal performance, charge the UPS battery for at least 8 hours before initial use. Plug the UPS into a standard wall outlet.
3. **Connect Equipment:**
 - Connect critical equipment (e.g., computer, monitor, modem) to the **Battery Supported and Surge Protected Outlets**. These outlets provide power during outages.
 - Connect non-critical equipment (e.g., printer, scanner) to the **Surge Protected Outlets**. These outlets only provide surge protection.
 - For ECO Mode functionality, connect your computer to one of the ECO controlled outlets (if applicable and

USB connection is established).

4. **USB Connection (Optional):** Connect the included USB cable from the UPS to your computer's USB port. This enables communication for power management software (PowerPanel Personal Edition).
5. **Power On:** Press the Power button on the front panel to turn on the UPS. The LCD display will illuminate.

Figure 5: The CyberPower EC850LCD UPS integrated into a typical desktop computer setup, demonstrating its use.

Figure 6: The CyberPower EC850LCD UPS shown mounted horizontally, illustrating flexible placement options for home entertainment systems.

Figure 7: Close-up rear view of the CyberPower EC850LCD UPS, highlighting the USB communication port for connecting to a computer.

5. OPERATING INSTRUCTIONS

5.1. Powering On/Off

- **To Power On:** Press and hold the **POWER** button for approximately 2 seconds until you hear a beep. The LCD will illuminate.
- **To Power Off:** Press and hold the **POWER** button for approximately 2 seconds until you hear a beep. The LCD will turn off.

5.2. LCD Display Functions

The multifunction LCD panel provides real-time status updates. Press the **MODE** button to cycle through various display screens:

- **Input Voltage:** Displays the current utility power voltage.
- **Output Voltage:** Shows the voltage supplied by the UPS to connected equipment.
- **Battery Capacity:** Indicates the remaining battery charge level.
- **Load Capacity:** Displays the percentage of the UPS's maximum load being used by connected equipment.
- **Estimated Runtime:** Provides an estimate of how long the UPS can power connected equipment during an outage.

5.3. ECO Mode Operation

The ECO Mode feature helps conserve energy. When the UPS detects that the computer connected to the USB port is off or in sleep mode, it will automatically cut power to peripherals plugged into the ECO controlled outlets. This reduces phantom load and saves energy.

- Ensure your computer is connected to the UPS via the USB cable for ECO Mode to function.
- Plug peripherals you wish to be controlled by ECO Mode into the designated "ECO Controlled" outlets.

6. MAINTENANCE

6.1. Battery Replacement

The battery in your UPS is designed for a lifespan of 3-5 years under normal operating conditions. If the battery needs replacement, the UPS will typically indicate this via an alarm or a specific LCD message. Refer to the detailed battery replacement instructions in the full user manual (link provided in the Warranty & Support section) or contact CyberPower support.

6.2. Cleaning

To clean the exterior of the UPS, use a soft, dry cloth. Do not use liquid or aerosol cleaners. Ensure the unit is powered off and unplugged from the wall outlet before cleaning.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your UPS. For more complex problems, consult the full user manual or contact technical support.

Problem	Possible Cause	Solution
UPS does not turn on.	Battery is low or depleted; UPS is not plugged into a live outlet.	Charge the battery for at least 8 hours. Ensure the UPS is securely plugged into a functioning wall outlet.
UPS beeps continuously during normal operation.	Overload condition; Battery mode activated due to power outage.	Reduce the load by unplugging non-essential equipment. If on battery, save work and shut down equipment.
Short runtime on battery.	Battery is old or not fully charged; Overload.	Allow the battery to charge fully. Reduce the connected load. Consider battery replacement if the battery is old.

8. SPECIFICATIONS

Attribute	Value
Model Number	EC850LCD
Capacity (VA/Watts)	850VA / 510W
Input Voltage	120 Volts
Outlets	12 NEMA 5-15R (6 Battery Backup & Surge, 6 Surge Only)
Product Dimensions (D x W x H)	7 x 12.2 x 3.1 inches

Attribute	Value
Item Weight	7.7 pounds
Battery Type	Sealed Lead Acid (1 x 12V included)
Manufacturer	CyberPower Systems
Country of Origin	Vietnam

9. WARRANTY AND SUPPORT

The CyberPower EC850LCD comes with a **three-year warranty**, which includes coverage for the batteries. Additionally, it includes a **\$100,000 Connected Equipment Guarantee**, providing peace of mind for your connected devices.

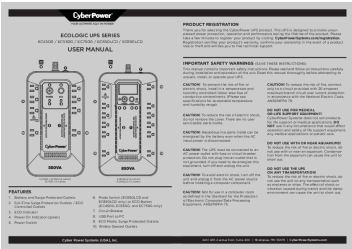

For advanced power management and monitoring, **FREE PowerPanel Personal Edition Management Software** is available for download. This software allows you to control UPS settings, monitor power conditions, and perform graceful shutdowns of your computer during extended power outages.

For detailed information, technical support, or to download the PowerPanel software, please visit the official CyberPower website or refer to the full user guide:

CyberPower

EC85UL ECOLOGICO

Ofrece ahorro de energía avanzado
Batería de respaldo y protección
contra sobretensiones e interrupciones.

El UPS ECOLOGICO de CyberPower funciona gracias a una batería de electrolitos de sodio, que genera una gran eficiencia energética y una menor emisión de calor, y ofrece un ahorro de energía. Su circuito integrado de conversión de energía garantiza una máxima eficiencia energética. El UPS ECOLOGICO es el punto de alta eficiencia CyberPower "ECO", que reduce el consumo de energía y es un bálsamo de resaca para cualquier configuración "ECO".

La CyberPower ECOLOGICO tiene tres formas ECO: generadora, batería y silenciosa. Cuando el modo ECO está activado y la batería de reserva de energía se consume, el UPS ECOLOGICO se convierte en la forma ECO de respaldo. En el momento de la emergencia, el UPS ECOLOGICO reduce el consumo de energía y proporciona máxima eficiencia de energía.

Una garantía de tres años garantiza que este UPS es una excelente opción ecológica de calidad al reducir, montar, mantener o reemplazar el equipo.

APLICACIONES TIPO

- Computadores de escritorio
- Equipos de oficina
- Servidores de red
- Routers domésticos
- Productos de consumo

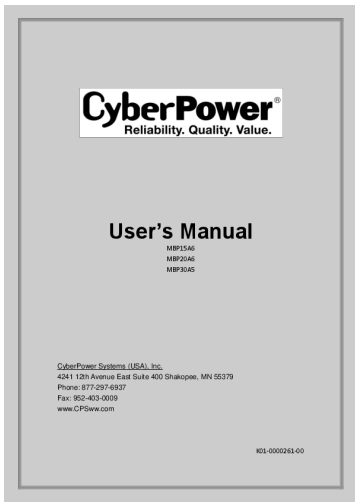

FEATURES

- Onda pura / Sine
- Temperatura 100-150°F
- Tecnología de baterías de sodio
- Tecnología de ahorro de energía
- Protección contra sobretensiones
- Protección contra incendios de batería
- Factor de potencia completo
- Garantía: 3 años / 3 años de protección DFI
- 3 años de garantía
- 3 años de garantía

ESPECIFICACIONES

CyberPower
EC850LCD
ECOLOGIC UPS

Offering advanced energy-saving battery backup and surge protection against power surges and interruptions.

The CyberPower Ecologic EC850LCD UPS safeguards PCs and other electronics from blackouts, brownouts, surges, sags, and other power abnormalities. Its composite integrated circuitry offers reliable surge protection and battery backup during power interruptions. This UPS utilizes intelligent UPS high efficiency design to reduce power consumption.

The CyberPower EC850LCD has three surge protected ECO outlets. When ECO mode is on and the battery backup detects that your computer is still in Sleep mode, computer peripherals connected to the ECO outlets will be turned off (USB connection required). This reduces unwanted power usage and provides greater energy savings.

A Three-Year Warranty ensures that this UPS has passed our highest quality standards in design, materials, reliability, performance and further protection is offered by a \$500,000 Component Damage Guarantee.

TYPICAL APPLICATIONS

- Desktop Computers
- Peripherals
- Personal Electronics
- Home Networking/Hub

FEATURES

- ECO/SLG 50% Power Savings
- Intelligent ECO Technology
- Advanced SPD Technology
- Full-line Surge Protection and Battery Backup
- Compact 2U Size
- 0 Outlets / USB Port / EMI Protection
- Overvoltage Protection
- 3 Year Warranty

SPECIFICATIONS

GENERAL		INPUT
