nanoblock NBH-052

nanoblock - NBH-052 Sydney Opera House Construction Set Instruction Manual

Model: NBH-052 | Brand: nanoblock

1. PRODUCT OVERVIEW

The nanoblock Sydney Opera House, part of the scene collection series, allows you to build a miniature replica of the world-famous concert hall, recognized as one of the top 20 buildings by the UK Times. This set brings a sense of world travel to your desk when assembled. Assembly is guided by the included manual. Product dimensions: H52 x W80 x D120mm. Recommended age: 12 years and older.

- Japanese micro construction set, approximately 430 pieces, 5 mm in height.
- Minimum age: 12 years.

blocks.

2. SAFETY INFORMATION

Please read all safety warnings before beginning assembly. Keep this manual for future reference.

- **WARNING: CHOKING HAZARD** - Small parts. Not for children under 3 years.
- Recommended for ages 12 and up. Younger children should be supervised by an adult due to the small size of the blocks.
- Do not put blocks in mouth or nose.
- Keep blocks away from pets.

3. PACKAGE CONTENTS

Verify that all components are present before starting assembly.

- nanoblock Sydney Opera House construction blocks (approx. 430 pieces)
- Instruction Manual

Image: The nanoblock Sydney Opera House product box, showing the assembled model on the front and indicating "micro-sized building block" with dimensions 4x4mm.

4. SETUP

Before you begin assembling your nanoblock model, follow these preparatory steps:

1. **Clear Workspace:** Choose a clean, well-lit, and flat surface to work on. This will help prevent losing small pieces.
2. **Organize Blocks:** Open the block bags carefully. While not strictly necessary, some builders find it helpful to sort blocks by color or size before starting.
3. **Review Instructions:** Familiarize yourself with the instruction manual provided in the box. Pay attention to the symbols and step-by-step diagrams.

5. ASSEMBLY INSTRUCTIONS

The nanoblock Sydney Opera House model is assembled by connecting miniature blocks according to the detailed diagrams in the included instruction manual. Due to the small size of the blocks, precision and patience are key.

General Assembly Guidance:

- **Follow the Manual:** The primary guide for assembly is the physical instruction manual included in your product box. Each step is illustrated with clear diagrams showing block placement.
- **Layer by Layer:** nanoblock models are typically built layer by layer from the base upwards. Ensure each layer is firmly connected before proceeding to the next.
- **Smallest Blocks First:** Often, the smallest 1x1 blocks are used for intricate details. Place them carefully.
- **Check Connections:** Ensure all blocks are securely snapped together. Loose connections can lead to instability in the model.
- **Patience is Key:** Building nanoblock models requires patience. If you encounter difficulty, take a break and return to it with fresh eyes.
- **Use Tweezers (Optional):** For very small or hard-to-reach areas, some builders find fine-tipped tweezers helpful for block placement.

6. MAINTENANCE

To keep your nanoblock model in excellent condition:

- **Cleaning:** Gently dust the model with a soft brush or a can of compressed air. For deeper cleaning, carefully wipe with a slightly damp cloth, avoiding excessive moisture. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the assembled model in a stable location away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or warping of the plastic.
- **Disassembly:** If disassembling, do so carefully to avoid damaging the blocks. Store blocks in a sealed container to prevent loss.

7. TROUBLESHOOTING

Common issues and their solutions:

- **Missing Pieces:** Double-check your workspace and packaging. Due to the small size, blocks can easily be overlooked. If pieces are genuinely missing, contact nanoblock customer support (see Section 9).
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly. Apply firm, even pressure. Avoid forcing blocks, as this can damage them.
- **Model Instability:** Re-examine previous steps to ensure all blocks are securely connected and placed according to the instructions. A single loose block can affect overall stability.
- **Incorrect Assembly:** If a section doesn't look right, carefully backtrack through the steps. It's easier to correct errors early on.

8. SPECIFICATIONS

Feature	Detail
Brand	nanoblock
Model Name	NBH-052
Product Dimensions (L x W x H)	8 x 8 x 9.53 cm; 113.4 grams

Manufacturer Recommended Age	12 years and up (144 months)
Educational Value(s)	Build, Design
Language	English
Number of Pieces	450
Main Material	Plastic
Theme	Building
Special Feature	Construction Set
Model Year	2016

9. WARRANTY AND SUPPORT

For any questions regarding your nanoblock NBH-052 Sydney Opera House construction set, including missing parts or assembly assistance, please contact nanoblock customer support.

Please refer to the official nanoblock website or product packaging for the most up-to-date contact information and warranty details specific to your region.
