

Edifier M1370BT

Edifier M1370BT 2.1 Bluetooth Speaker User Manual

Model: M1370BT

INTRODUCTION

Thank you for purchasing the Edifier M1370BT 2.1 Bluetooth Speaker system. This manual provides important information regarding the setup, operation, and maintenance of your speaker system. Please read it thoroughly before use to ensure optimal performance and safety.

The Edifier M1370BT is a versatile 2.1 multimedia speaker system designed for enhanced audio experience. It features both Bluetooth and auxiliary input options, allowing seamless connectivity with various devices such as smartphones, tablets, and televisions. The system includes a powerful subwoofer for deep bass and two satellite speakers for clear mid-range and treble frequencies.

PACKAGE CONTENTS

Please ensure all items are present in the package:

- Subwoofer unit
- Satellite speakers (2 units)
- Audio input cable (3.5mm to 3.5mm)
- User Manual

PRODUCT OVERVIEW

The Edifier M1370BT system consists of a subwoofer and two satellite speakers. Key features include:

- **Bluetooth Connectivity:** Easily pair with Bluetooth-enabled devices for wireless audio streaming.
- **Auxiliary Input:** Standard 3.5mm and stereo RCA line-in options for wired connections.
- **Upward-Angled Satellites:** Designed to project sound directly towards the listener for an optimized audio experience.
- **Integrated Controls:** Master volume and bass adjustment dials conveniently located on the subwoofer.
- **Magnetically Shielded Subwoofer:** Features a 5-inch (131mm) bass unit for rich, deep audio.

SETUP GUIDE

1. Placement:

Position the subwoofer on a flat, stable surface, preferably on the floor for optimal bass response. Place the satellite speakers on either side of your listening area, ensuring they are facing towards you. The translucent stands are designed to reduce interference from surfaces.

2. Connect Satellite Speakers:

Connect the cables from the satellite speakers to the corresponding output ports on the rear panel of the subwoofer. Ensure a secure connection for both left and right channels.

3. Connect Audio Source:

You have two primary options for connecting an audio source:

- **Bluetooth:** Turn on the speaker system. The system will automatically enter Bluetooth pairing mode or you can switch to Bluetooth mode. On your device (smartphone, tablet, etc.), enable Bluetooth and select "Edifier M1370BT" from the list of available devices to pair.
- **Auxiliary (3.5mm or RCA):** Use the provided 3.5mm audio cable to connect your audio source (e.g., computer, TV, MP3 player) to the 3.5mm line-in jack on the side of the subwoofer. Alternatively, use an RCA cable (not included) for stereo line-in.

4. Power Connection:

Connect the power cable from the subwoofer to a standard AC power outlet (220 Volts). Turn on the power switch

located on the rear panel of the subwoofer.

5. Initial Volume Adjustment:

Before playing audio, set the master volume control on the subwoofer to a low level to avoid sudden loud sounds. Adjust the bass control to your preference.

OPERATING INSTRUCTIONS

Power On/Off

To power on the system, flip the power switch on the rear panel of the subwoofer to the 'ON' position. To power off, flip the switch to the 'OFF' position.

Volume Control

The master volume control dial is located on the side panel of the subwoofer. Rotate clockwise to increase volume and counter-clockwise to decrease volume.

Bass Adjustment

The bass adjustment dial is also located on the side panel of the subwoofer, next to the master volume control. Rotate this dial to increase or decrease the bass output to suit your listening preference.

Input Mode Selection

The system automatically prioritizes Bluetooth connection. If a Bluetooth device is paired and connected, the system will play audio from that source. If no Bluetooth device is connected or paired, the system will default to the auxiliary input. To switch between inputs, ensure the desired source is active and connected.

- Bluetooth Mode:** Ensure Bluetooth is enabled on your device and paired with "Edifier M1370BT".
- Auxiliary Mode:** Connect your audio source via the 3.5mm or RCA input. If a Bluetooth device is connected, disconnect it to switch to auxiliary input.

MAINTENANCE AND CARE

• Cleaning:

Wipe the speaker surfaces with a soft, dry cloth. Do not use abrasive cleaners, waxes, or solvents as they may damage the finish. Avoid spraying liquids directly onto the speakers.

• Placement:

Keep the speakers away from direct sunlight, heat sources, and excessive moisture. Ensure adequate ventilation around the subwoofer to prevent overheating.

• Handling:

Handle the speakers with care. Avoid dropping or subjecting them to strong impacts, which can damage internal components.

• Power Off When Not In Use:

For extended periods of non-use, it is recommended to power off the speaker system and unplug it from the power outlet.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem | Possible Cause | Solution |
|-----------------------------|--|---|
| No sound | Power cable not connected. Power switch is off. Volume is too low. Incorrect input source selected. Audio cable not connected properly. Bluetooth device not paired or connected. | Ensure power cable is securely plugged in. Turn the power switch to 'ON'. Increase the master volume on the subwoofer and your audio source. Verify the correct input mode (Bluetooth/Aux) is active. Check all audio cable connections. Re-pair or reconnect your Bluetooth device. |
| Distorted sound | Volume too high. Audio source output is distorted. Poor cable connection. | Reduce the volume on both the speaker system and the audio source. Test with a different audio source. Ensure all cables are securely connected. |
| Bluetooth connection issues | Device too far from speakers. Interference from other devices. Speaker not in pairing mode. | Move your Bluetooth device closer to the speakers. Turn off other Bluetooth devices nearby. Ensure the speaker is discoverable or re-enter pairing mode. |

If the problem persists after trying these solutions, please contact Edifier customer support.

SPECIFICATIONS
