Bush Furniture MY16197-03

Bush Furniture Aero Tall Storage Cabinet User Manual

Model: MY16197-03

1. Introduction

Thank you for choosing the Bush Furniture Aero Tall Storage Cabinet with Doors. This manual provides essential information for the safe assembly, operation, and maintenance of your new furniture. Designed with simple styling and an elegant aesthetic, this cabinet offers ample storage with a contemporary 2-door design and chrome-plated metal hardware. Its durable surface and edges resist dings, nicks, scratches, and stains, ensuring long-lasting quality.

2. Safety Information

- **Weight:** The packaged cabinet weighs approximately 134 pounds. Always use proper lifting techniques and seek assistance when moving the box or assembled unit to prevent injury.
- **Assembly:** Assembly requires multiple steps and handling of large components. It is highly recommended that two adults perform the assembly.
- **Stability:** Ensure the cabinet is placed on a level surface. For added safety, especially in homes with children, consider securing the cabinet to a wall using appropriate anti-tip hardware (not included unless specified in the assembly guide).
- **Rounded Corners:** The cabinet features family-friendly rounded corners, but caution should still be exercised around the unit.
- **Overloading:** Do not overload shelves. Refer to the detailed assembly instructions for specific weight limits per shelf.

3. Package Contents

Before beginning assembly, verify that all parts and hardware are present. Carefully unpack all components and compare them against the parts list provided in the manufacturer's assembly guide. The main components typically include:

- Cabinet side panels, top, and bottom panels

- Two doors with pre-drilled holes for hardware
- Two adjustable shelves and one fixed shelf
- Chrome-plated metal door hardware (handles, hinges)
- Assembly hardware (screws, dowels, cam locks, shelf pins, etc.)
- Back panels (made of engineered wood)

Note: Assembly is required for this product.

4. Setup and Assembly Instructions

Assembly of the Bush Furniture Aero Tall Storage Cabinet requires careful attention to detail. It is strongly recommended to have two people for assembly due to the size and weight of the components. Please follow the step-by-step instructions provided in the separate manufacturer's assembly guide included with your product.

Required Tools:

- Phillips Head Screwdriver
- Hammer
- Drill (optional, for pre-drilling pilot holes if needed, but use with caution)

General Assembly Steps:

1. **Prepare Workspace:** Clear a large, flat, and clean area for assembly. Lay down a blanket or cardboard to protect the furniture pieces and your floor.
2. **Identify Parts:** Carefully identify all panels and hardware using the provided parts list.
3. **Assemble Frame:** Follow the guide to connect the side panels, top, and bottom using the specified hardware.
4. **Install Back Panels:** Secure the engineered wood back panels to the frame.
5. **Insert Shelves:** Place the fixed shelf and then insert the adjustable shelf pins into the desired holes for the adjustable shelves.
6. **Attach Doors:** Mount the hinges to the doors and then attach the doors to the cabinet frame.
7. **Install Door Hardware:** Attach the chrome-plated handles to the doors.
8. **Adjust Doors:** Adjust the hinges as necessary to ensure the doors align properly and close smoothly.

For detailed visual instructions, refer to the assembly manual provided by Bush Furniture.

Figure 2: Front view of the assembled Bush Furniture Aero Tall Storage Cabinet, showcasing its two doors and chrome handles.

5. Operating Instructions

Adjusting Shelves:

The cabinet includes two adjustable shelves, allowing you to customize storage space. To adjust a shelf:

1. Empty the shelf completely.
2. Remove the shelf by lifting it slightly and pulling it out.
3. Relocate the four shelf pins to the desired holes on the cabinet sides. Ensure all four pins are at the same height for a level shelf.

4. Carefully place the shelf back onto the pins, ensuring it is securely seated.

Using the Doors:

The two doors conceal stored items, maintaining a tidy appearance. Gently open and close the doors using the chrome-plated handles. Avoid forcing the doors, and ensure no items obstruct their movement.

6. Maintenance

Proper care will extend the life and appearance of your Bush Furniture Aero Tall Storage Cabinet.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Spills:** Clean spills immediately to prevent staining.
- **Protection:** While the surface resists dings, nicks, scratches, and stains, it is advisable to use coasters or protective pads under items that could potentially scratch or mark the surface.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary, but do not overtighten.
- **Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration over time.

7. Troubleshooting

If you encounter issues with your cabinet, refer to the following common solutions:

- **Doors Not Aligning:** If the doors do not close evenly or are misaligned, adjust the hinges. Most hinges have adjustment screws that allow for vertical, horizontal, and depth adjustments. Refer to your assembly guide for specific hinge adjustment instructions.
- **Wobbly Cabinet:** Ensure the cabinet is on a level surface. Check that all assembly hardware (screws, cam locks) are fully tightened. If the floor is uneven, use furniture levelers or shims under the legs.
- **Shelf Sagging:** Ensure the shelf pins are fully inserted into the cabinet sides and that the shelf is not overloaded. Distribute weight evenly on shelves.
- **Missing Parts:** If any parts were missing upon unpacking, contact Bush Furniture customer support immediately.

8. Specifications

Feature	Detail
Brand	Bush Furniture
Model Number	MY16197-03
Color	Pure White
Material	Engineered Wood (Laminate finish)
Product Dimensions (D x W x H)	22.1"D x 9"W x 64"H
Item Weight	134 Pounds
