

Logitech M560

Logitech M560 Wireless Mouse User Manual

Model: M560 (P/N: 910-003880)

INTRODUCTION

The Logitech M560 Wireless Mouse is designed for comfortable and efficient navigation. It features hyper-fast scrolling, a full-size ergonomic design suitable for both right and left-hand use, and a dedicated Microsoft Windows shortcut button. This manual provides instructions for setting up, operating, and maintaining your M560 mouse.

Image: Top view of the Logitech M560 Wireless Mouse, highlighting its overall design and button layout.

PACKAGE CONTENTS

- Logitech M560 Wireless Mouse
- Logitech Unifying Receiver
- 1 AA Battery (pre-installed)
- User Documentation (this manual)

SYSTEM REQUIREMENTS

- Operating System: Windows 8 or Windows 7 (Windows 7 may require software download for full feature functionality)
- Available USB Port
- Internet connection (for optional software download)

SETUP

1. Installing the Battery

The Logitech M560 mouse comes with one AA battery pre-installed. If you need to replace the battery:

1. Locate the battery compartment cover on the underside of the mouse.
2. Slide the cover open.
3. Insert a new AA battery, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

The mouse features a smart sleep mode and an On/Off switch to conserve battery life. The power indicator light will notify you when the battery is low.

2. Connecting the Unifying Receiver

The Logitech Unifying receiver provides a wireless connection between your mouse and computer.

1. Locate the small USB Unifying receiver. It may be stored inside the mouse's battery compartment for transport.
2. Plug the Unifying receiver into an available USB port on your computer.
3. Your computer should automatically detect and install the necessary drivers. This process may take a few moments.
4. Once installed, the mouse is ready for use.

Image: The Logitech M560 mouse alongside its compact Unifying USB receiver.

The Unifying receiver allows you to connect up to six compatible Logitech wireless devices to a single receiver, freeing up USB ports.

OPERATING INSTRUCTIONS

Ergonomic Design

The M560 features a full-size, sculpted design with soft rubber grips, providing comfort for extended use. Its ambidextrous shape allows for comfortable use by both right and left-handed individuals.

Image: Side profile of the M560 mouse, illustrating its ergonomic contours and textured side grips.

Hyper-fast Scroll Wheel

The scroll wheel offers two modes for navigation:

- **Free-spinning mode:** Ideal for quickly scrolling through long documents, web pages, and news feeds. To activate, press the scroll wheel button.
- **Click-to-click mode:** Provides precise, stepped scrolling for navigating spreadsheets, photo albums, or playlists. To activate, press the scroll wheel button again.

The scroll wheel can also be tilted left or right for horizontal scrolling or other customizable functions.

Windows Shortcut Button

Located directly behind the scroll wheel, this button provides one-touch access to key Windows 8 features:

- Pressing this button allows quick access to the App Switcher and Charms Bar in Windows 8.
- This button can also be customized using Logitech SetPoint software for other functions.

Thumb Buttons

Two programmable thumb buttons are located on the left side of the mouse. By default, these buttons facilitate quick switching between the traditional Windows desktop and the Windows 8 Start screen. Their functions can be customized via Logitech SetPoint software.

Image: Diagram of the M560 mouse with labels indicating the hyper-fast scroll wheel, Windows 8 shortcut button, thumb buttons, and the Unifying receiver.

MAINTENANCE

Battery Replacement

The M560 mouse operates on one AA battery, offering up to 18 months of battery life under typical usage conditions. When the power indicator light signals a low battery, replace it as described in the "Installing the Battery" section.

Cleaning

To clean your mouse, use a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials, as these can damage the mouse's surface.

TROUBLESHOOTING

Mouse Not Responding

- **Check Battery:** Ensure the AA battery is correctly installed and has sufficient charge. Replace if necessary.
- **Power Switch:** Verify that the mouse's On/Off switch (located on the underside) is in the "On" position.
- **Receiver Connection:** Ensure the Logitech Unifying receiver is securely plugged into a working USB port on your computer. Try a different USB port.
- **Distance:** Make sure the mouse is within range of the Unifying receiver (typically up to 10 meters or 33 feet).

- **Interference:** Move the mouse and receiver away from other electrical devices that might cause interference (e.g., cordless phones, Wi-Fi routers).
- **Re-pair Device:** If issues persist, you may need to re-pair the mouse with the Unifying receiver using the Logitech Unifying Software, available for download from the Logitech website.

Cursor Movement is Erratic or Inaccurate

- **Surface:** Ensure you are using the mouse on a suitable surface. Highly reflective or transparent surfaces (like glass) may affect tracking. Use a mouse pad if necessary.
- **Sensor Cleanliness:** Check the optical sensor on the underside of the mouse for any dust or debris and clean gently with a soft cloth.
- **Software Settings:** Adjust mouse pointer speed and acceleration settings in your computer's operating system control panel.

SPECIFICATIONS

Model	M560 (P/N: 910-003880)
Connectivity	2.4 GHz Wireless (Logitech Unifying Receiver)
Sensor Technology	Laser-grade Optical Tracking
Buttons	7 (Left/Right click, Scroll Wheel click/tilt, Windows Shortcut button, 2 Thumb buttons)
Scroll Wheel	Hyper-fast (Free-spinning and Click-to-click modes)
Battery Type	1 AA Battery
Battery Life	Up to 18 months (may vary based on usage)
Operating System Compatibility	Windows 7, Windows 8
Dimensions (LxWxH)	Approximately 5.91 x 3.58 x 8.46 inches
Weight	Approximately 0.48 ounces (without battery)

WARRANTY AND SUPPORT

Logitech products are manufactured to high quality standards and are backed by a limited hardware warranty. For detailed warranty information, please refer to the warranty documentation included with your product or visit the official Logitech website.

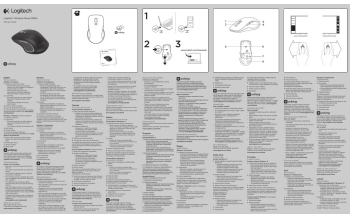

For technical support, driver downloads (such as Logitech SetPoint software for button customization), and frequently asked questions, please visit the Logitech support website:

support.logi.com

Please have your product model number (M560) and serial number ready when contacting support.
