SETUP

Setting the Time

1. Pull the crown (the knob on the side of the watch) out to position 2.
2. Turn the crown to adjust the hour and minute hands to the correct time.
3. Once the time is set, push the crown back into position 0.

Setting the Date

1. Pull the crown out to position 1.
2. Turn the crown to adjust the date. Avoid setting the date between 9 PM and 3 AM, as this can interfere with the automatic date change mechanism.
3. Once the date is set, push the crown back into position 0.

Battery Information

This watch requires 1 Lithium Metal battery (included). For battery replacement, it is recommended to consult a professional watch technician to ensure proper sealing and water resistance.

OPERATING THE CHRONOGRAPH

The Fossil Coachman watch features a chronograph function with three sub-dials for enhanced timekeeping.

Image: Detailed view of the watch dial, highlighting the three chronograph sub-dials and date window.

Chronograph Functions:

- **Start/Stop:** Press the top pusher (button) to start and stop the chronograph.
- **Reset:** With the chronograph stopped, press the bottom pusher to reset all chronograph hands to zero.
- **Sub-dials:** The three sub-dials track minutes, seconds, and 24-hour time, providing full chronograph functionality.

MAINTENANCE

Leather Strap Care

The genuine leather cuff strap is designed for comfort and durability. To maintain its quality:

- Avoid prolonged exposure to water, direct sunlight, and harsh chemicals.
- Clean the strap with a soft, dry cloth. For deeper cleaning, use a specialized leather cleaner and conditioner.
- Allow the strap to air dry completely if it gets wet.

Water Resistance

This watch is water resistant up to 100 meters (330 feet), or 10 ATM. This makes it suitable for bathing, swimming, or snorkeling. However, it is **not** designed to withstand the pressure of scuba diving. Always ensure the crown is fully pushed in before exposing the watch to water.

TROUBLESHOOTING

- **Watch Not Running:** Check if the crown is fully pushed into position 0. If the watch still does not run, the battery may need replacement.
- **Incorrect Time/Date:** Refer to the "Setting the Time" and "Setting the Date" sections in this manual to re-adjust.
- **Chronograph Not Resetting:** Ensure the chronograph is stopped before pressing the reset pusher. If issues persist, professional servicing may be required.

SPECIFICATIONS

Feature	Detail
Model Number	CH2891
