Bona WM710013573

Bona Premium Sweep & Clean Mop User Manual

Model: WM710013573

INTRODUCTION

The Bona Premium Microfiber Mop for Multi-Surface Floors is designed to simplify your floor cleaning routine. This versatile tool allows for sweeping, cleaning, and polishing, ensuring a thorough clean for various floor types. Its durable construction and thoughtful design, including a telescoping pole and protective corners, make floor care efficient and safe for your home.

Image: The Bona Premium Sweep & Clean Mop, showcasing the mop head, telescoping handle, and both the microfiber cleaning and dusting pads.

SETUP

- 1. Unpack Components:** Carefully remove all components from the packaging. You should have the mop handle, mop head, one microfiber cleaning pad, and one microfiber dusting pad.
- 2. Assemble Mop Handle:** The mop handle is telescoping. Extend it to your desired comfortable length by twisting the sections to loosen, pulling to extend, and twisting to tighten.

3. Attach Microfiber Pad:

- Lay the desired microfiber pad (cleaning or dusting) flat on the floor with the textured side facing up.
- Align the mop head directly over the pad. The hook-and-loop fasteners on the bottom of the mop head will attach to the pad.
- Press the mop head firmly onto the pad to ensure a secure attachment.

MICROFIBER SWEEPING PAD INCLUDED

ELECTROSTATIC ACTION ATTRACTS DUST & PET HAIR

PAD MADE WITH 90% PCR MATERIAL

WASHABLE UP TO 500 TIMES

Image: The microfiber sweeping pad, designed with electrostatic action to attract dust and pet hair. It is made from 90% PCR material and is washable up to 500 times.

MICROFIBER CLEANING PAD INCLUDED

Image: The microfiber cleaning pad, featuring a patented dual-zone design for lifting and removing stubborn dirt and grime. Also made from 90% PCR material and washable up to 500 times.

OPERATING INSTRUCTIONS

Sweeping (Dry Mopping)

For dry sweeping, attach the microfiber dusting pad. The electrostatic action of the pad effectively attracts and traps dust, dirt, and pet hair. Use long, even strokes across the floor surface. The extra-large mop head allows for quicker and easier cleaning of large areas. The rubberized, flexible corners protect your baseboards and furniture from accidental dings and scratches during use.

Cleaning (Wet Mopping)

For wet cleaning, attach the microfiber cleaning pad. For optimal results, use the mop in conjunction with any Bona floor cleaner (sold separately). Spray the cleaner directly onto the floor or the pad, then mop the area using overlapping strokes. The dual-zone design of the cleaning pad is engineered to break up and absorb messes efficiently.

Image: The Bona mop is safe for use on various multi-surface floors, including tile, hardwood, laminate, and engineered wood.

COMPLETE — YOUR — CLEANING EXPERIENCE

Image: Complete your cleaning experience by pairing the Bona Premium Microfiber Mop with other Bona cleaning solutions and accessories.

MAINTENANCE

- **Cleaning Microfiber Pads:** The microfiber pads are designed for repeated use. They can be washed and reused up to 500 times. Machine wash the pads with warm water and a mild detergent. Do not use bleach or fabric softener, as these can damage the microfiber. Tumble dry on low heat or air dry.
- **Mop Head and Handle Care:** Wipe down the mop head and handle with a damp cloth as needed to remove any residue. Ensure the mop head is dry before storing.
- **Storage:** The mop features a vertical locking mop head for easy and compact storage. After use, ensure the pad is removed and cleaned, then store the mop in an upright position in a dry area.

TROUBLESHOOTING

The Bona Premium Sweep & Clean Mop is designed for simplicity and durability, minimizing common issues. If you encounter any difficulties, please consider the following:

- **Pad Not Sticking:** Ensure the hook-and-loop fasteners on the mop head and pad are clean and free of debris. Press the mop head firmly onto the pad for a secure attachment.
- **Mop Handle Slipping:** When adjusting the telescoping handle, ensure you twist the sections firmly to lock them in place after extending to your desired length.
- **Ineffective Cleaning:** For wet mopping, ensure you are using an appropriate Bona floor cleaner for your floor type. For dry sweeping, ensure the dusting pad is clean and free of excessive debris.

SPECIFICATIONS

Model Number	WM710013573
Handle Material	Metal
Head Material	Microfiber
Number of Items	1
