## F&D F-5019-2

# F&D 5.1 Multimedia Home Theatre Speaker F-5019-2 User Manual

## INTRODUCTION

---

The F&D 5.1 Multimedia Home Theatre Speaker F-5019-2 is designed to deliver high-fidelity sound for an immersive audio experience. This manual provides essential information for the safe and efficient use of your speaker system, covering setup, operation, maintenance, and troubleshooting.

## PACKAGE CONTENTS

---

Please check the package for the following items:

- One Subwoofer
- One Centre Speaker
- Four Satellite Speakers
- Audio Cable Cords
- One Fully Functional Remote Control

## SAFETY INSTRUCTIONS

---

To ensure safe operation and prevent damage, please observe the following safety precautions:

- Do not expose the unit to rain, moisture, or extreme temperatures.
- Do not open the speaker enclosures. Refer all servicing to qualified personnel.
- Ensure proper ventilation around the speakers to prevent overheating.
- Keep the system away from strong magnetic fields.
- Use only the power adapter and cables supplied or recommended by the manufacturer.
- Unplug the system during lightning storms or when unused for long periods.

## SETUP

---

Follow these steps to set up your F&D 5.1 Home Theatre Speaker system:

### 1. Speaker Placement:

- Place the subwoofer on the floor, preferably in a corner or near a wall for optimal bass response.
  - Position the center speaker directly above or below your television/monitor.
  - Place the front left and right satellite speakers equidistant from your listening position, forming an equilateral triangle with the listener.
  - Position the rear left and right satellite speakers behind your listening position, slightly to the sides.
2. **Connecting Satellite Speakers:** Connect each satellite speaker to the corresponding output terminals on the subwoofer unit using the provided speaker cables. Ensure correct polarity (+ to + and - to -).
  3. **Connecting Audio Source:**
    - For 5.1 surround sound, connect your DVD player, Blu-ray player, or other compatible device to the 5.1 input jacks on the subwoofer.
    - For stereo audio, use the 2.0 channel stereo line input jacks to connect devices like VCD players, MP3 players, or computers.
    - For Bluetooth connectivity, ensure your device's Bluetooth is enabled and pair with the speaker system (refer to Operating Instructions).
  4. **Power Connection:** Connect the power cord to the subwoofer and then plug it into a standard wall outlet.

## OPERATING INSTRUCTIONS

---

This section details how to operate your speaker system.

1. **Power On/Off:** Press the Power button on the front panel of the subwoofer or on the remote control to turn the system on or off.
2. **Input Selection:** Use the "Input" or "Source" button on the remote control or subwoofer to cycle through available audio inputs (e.g., 5.1, Stereo Line In, Bluetooth).
3. **Volume Control:** Adjust the master volume using the "Volume +" and "Volume -" buttons on the remote or the main volume knob on the subwoofer.
4. **Bass and Treble Adjustment:** Use the dedicated Bass and Treble controls on the remote control to fine-tune the audio output to your preference.
5. **Bluetooth Pairing:**
  - Switch the speaker system to Bluetooth input mode.
  - On your mobile device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
  - Select "F&D F-5019-2" (or similar name) from the list to pair.
  - Once paired, you can stream audio wirelessly from your device.
6. **Remote Control:** The fully functional remote allows you to control power, input, volume, bass, treble, and other audio adjustments from a distance. Ensure the remote has working batteries and is pointed towards the subwoofer's IR receiver.

## MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your speaker system.

- **Cleaning:** Use a soft, dry cloth to wipe the surfaces of the speakers and subwoofer. Do not use liquid cleaners or abrasive materials, as they may damage the finish.
- **Ventilation:** Ensure that the ventilation openings on the subwoofer are not blocked to prevent overheating.
- **Storage:** If storing the system for an extended period, unplug it from the power outlet and store it in a cool, dry place, away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

If you encounter issues with your F&D 5.1 Home Theatre Speaker system, refer to the following common problems and solutions:

Problem	Possible Solution
<b>No Sound</b>	<ul style="list-style-type: none"> <li>◦ Ensure the system is powered on and the volume is not at minimum.</li> <li>◦ Check all audio cable connections between the source device and the subwoofer.</li> <li>◦ Verify that the correct input source is selected on the speaker system.</li> <li>◦ Confirm that the audio source device is playing and its volume is up.</li> </ul>
<b>Distorted Sound</b>	<ul style="list-style-type: none"> <li>◦ Reduce the volume level on both the speaker system and the audio source.</li> <li>◦ Check for loose or damaged speaker cables.</li> <li>◦ Ensure the audio source is not sending an overdriven signal.</li> </ul>
<b>Remote Control Not Working</b>	<ul style="list-style-type: none"> <li>◦ Check and replace the batteries in the remote control.</li> <li>◦ Ensure there are no obstructions between the remote and the subwoofer's IR receiver.</li> <li>◦ Point the remote directly at the IR receiver on the subwoofer.</li> </ul>
<b>Bluetooth Pairing Issues</b>	<ul style="list-style-type: none"> <li>◦ Ensure the speaker system is in Bluetooth input mode.</li> <li>◦ Make sure your device's Bluetooth is enabled and within range.</li> <li>◦ Try unpairing and re-pairing the device.</li> <li>◦ Restart both the speaker system and your Bluetooth device.</li> </ul>
