## Nuvita NU-PPFP0001

# Nuvita Pappasana Vapor Combo 2-in-1 User Manual

Model: NU-PPFP0001

## INTRODUCTION

---

This user manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Nuvita Pappasana Vapor Combo 2-in-1 Mini Food Processor, Steam Cooker, and Bottle Warmer. Please read this manual thoroughly before first use and keep it for future reference.

## IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and/or injury to persons.

- Read all instructions before use.
- Do not immerse the main unit in water or other liquids.
- Keep out of reach of children.
- Use only on a stable, flat surface.
- Unplug from outlet when not in use and before cleaning.
- Exercise extreme caution when handling sharp blades.
- Ensure all components are correctly assembled before operation.
- This appliance is designed for domestic use only.

## PRODUCT OVERVIEW AND COMPONENTS

---

Familiarize yourself with the various parts of your Nuvita Pappasana Vapor Combo.

1. **Main Unit:** Houses the motor and control panel.
2. **Control Panel:** Digital display and function buttons (Steam, Blend, Cook & Blend, Stop, Start).
3. **Steam Tank:** Water reservoir for steam cooking and bottle warming (180 ml capacity).
4. **Tank Lid:** Covers the steam tank.
5. **Bottle Holder:** Insert for warming baby bottles.
6. **Bowl:** Food processing bowl for chopping, blending, and homogenizing.
7. **Bowl Lid:** Covers the food processing bowl.
8. **Blade:** Detachable stainless steel blade for processing food.
9. **Motor Shaft Gasket:** Ensures a secure seal for the blade assembly.
10. **Drive Shaft:** Connects the blade to the motor.
11. **Measuring Cup:** For precise liquid measurements.
12. **Ring:** A component for sealing or support.

## SETUP

---

Before first use, clean all detachable parts as described in the "Cleaning and Maintenance" section.

1. Place the main unit on a stable, flat, heat-resistant surface.
2. Ensure the unit is unplugged from the power outlet.
3. Assemble the blade into the bowl, ensuring the motor shaft gasket and drive shaft are correctly positioned.
4. Place the bowl onto the main unit, twisting to lock it into place if necessary.
5. Fill the steam tank with the appropriate amount of water for your desired function (refer to operating instructions for specific quantities).
6. Secure the tank lid.
7. Plug the appliance into a suitable power outlet.

## OPERATING INSTRUCTIONS

---

The Nuvita Pappasana Vapor Combo offers multiple functions for preparing baby food.

### A. Steam Cooking

1. Prepare ingredients (fruit, vegetables, meat, fish) by washing and cutting them into small, uniform pieces.
2. Place the prepared ingredients into the food processing bowl.
3. Add the required amount of water to the steam tank (max 180ml).
4. Close the bowl lid securely.
5. Select the "Steam" function using the digital display.
6. Set the cooking time (5 to 30 minutes) using the controls.
7. Press "Start". The appliance will steam cook the food.
8. Once cooking is complete, the appliance will automatically stop. Carefully open the lid, avoiding hot steam.

Figure 3: The NuVita Pappasana Vapor Combo in use, demonstrating the food processing function with blended food inside the bowl.

## B. Blending/Homogenizing

1. After steam cooking, or with pre-cooked ingredients, ensure the blade is correctly installed in the bowl.
2. Place the cooked ingredients into the bowl. Add a small amount of cooking liquid or water if a smoother consistency is desired.
3. Close the bowl lid securely.
4. Select the "Blend" function.
5. Press "Start" and blend until the desired consistency is achieved. The unique blade design helps prevent air bubbles.
6. Do not operate continuously for more than 30 seconds to prevent overheating. Allow a short break between blending cycles.

Figure 4: Examples of homemade baby food prepared using the Nuvita Pappasana Vapor Combo, showcasing various textures and colors.

### **C. "Cook & Blend" Function**

This automatic function steam cooks and then blends the food without manual intervention.

1. Follow steps 1-4 from "A. Steam Cooking".
2. Select the "Cook & Blend" function.
3. Set the cooking time.
4. Press "Start". The appliance will first steam cook, then automatically switch to blending mode once cooking is complete.
5. Once the cycle is finished, the appliance will stop.

### **D. Bottle/Jar Warming and Defrosting**

1. Place the baby bottle or food jar into the bottle holder on the left side of the unit.
2. Add the appropriate amount of water to the steam tank for warming/defrosting (refer to specific guidelines in the full manual for water quantities based on volume and temperature).
3. Select the "Bottle Warming" or "Defrost" function.
4. Press "Start". The appliance will warm the contents using steam.
5. Once complete, carefully remove the bottle/jar, checking the temperature before feeding.

## **CLEANING AND MAINTENANCE**

---

Regular cleaning ensures optimal performance and hygiene.

## A. Daily Cleaning

- Always unplug the appliance before cleaning.
- All detachable components (bowl, lid, blade, bottle holder, measuring cup, ring) are dishwasher safe or can be hand washed with warm soapy water.
- Clean the blade carefully due to its sharpness.
- Wipe the main unit with a damp cloth. Do not immerse the main unit in water.
- Ensure all parts are completely dry before reassembling or storing.

## B. Descaling the Steam Tank

Mineral deposits (limescale) can build up in the steam tank over time, affecting performance. Descale regularly, especially in hard water areas.

1. Mix 50ml of white vinegar with 100ml of water.
2. Pour the solution into the steam tank.
3. Let it soak for at least 30 minutes, or longer for heavy buildup. Do not turn on the appliance.
4. Empty the solution and rinse the tank thoroughly with clean water several times.
5. Wipe the inside of the tank with a damp cloth.

## STORAGE

Store the appliance in a cool, dry place, away from direct sunlight and out of reach of children. Ensure all components are clean and dry before storage.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outlet fault; unit not assembled correctly.	Check power connection; try another outlet; ensure bowl/lid are securely locked.
No steam produced.	No water in tank; insufficient water; limescale buildup.	Add water to tank; ensure water level is adequate; descale the steam tank.
Food not blending properly.	Too little liquid; ingredients too large; blade not installed correctly.	Add more liquid; cut ingredients into smaller pieces; re-install blade securely.
Water/steam leaking from unit.	Lid not sealed properly; gasket/seal damaged or missing.	Ensure lid is securely closed; check gaskets for damage and proper placement.

If the problem persists after attempting these solutions, please contact Nuvita customer support.

## SPECIFICATIONS

**Model:** NU-PPFP0001

**Dimensions:** 31.4 x 27.4 x 24.4 cm (12.36 x 10.79 x 9.61 inches)

**Weight:** 2.5 kg (5.5 lbs)

**Material:** Plastic

**Power Type:** Corded Electric

**Steam Tank Capacity:** 180 ml

**Timer:** Up to 30 minutes

**Care Instructions:** Dishwasher safe or hand wash (detachable parts)

**Special Features:** Cook & Blend function, Programmable, BPA & Phthalate Free
