Crane EE-7272

Crane Cool Mist Ultrasonic Baby Humidifier Instruction Manual

Model: EE-7272 (Train Design)
Brand: Crane

Introduction

The Crane Adorables Ultrasonic Cool Mist Humidifier is designed to enhance air quality and provide soothing moisture. This unit helps relieve the effects of dryness and congestion, promoting easier breathing and peaceful sleep. It also helps alleviate common issues caused by dry air, such as static electricity and chapped skin. This compact, BPA-Free humidifier utilizes ultrasonic technology for efficient humidification and includes an automatic shut-off feature for safety.

Safety Instructions

- Always place the humidifier on a firm, flat, waterproof surface at least 6 inches (15 cm) away from walls and appliances.
- Do not place the humidifier directly on carpet, towels, or other absorbent surfaces.
- Ensure the mist outlet is directed away from walls, furniture, and electronics.
- Use clean, cool tap water. Distilled or demineralized water is recommended to reduce white dust.
- Never add essential oils or medication directly into the water tank or base, as this can damage the unit and void the warranty.
- Unplug the humidifier from the power outlet before filling, cleaning, or moving it.
- Do not operate the humidifier with a damaged cord or plug.
- Keep out of reach of children and pets. Adult supervision is required when the humidifier is in use near children.

Package Contents

Your Crane Cool Mist Ultrasonic Baby Humidifier package includes the following components:

- Humidifier Base
- Water Tank (Train-shaped)
- Character Top (Train Engine)
- Power Cord

Setup

1. **Unpack:** Carefully remove all packaging materials and place the humidifier on a flat, stable surface.
2. **Remove Water Tank:** Lift the train engine top off the water tank, then lift the water tank from the base.
3. **Fill Water Tank:** Turn the water tank upside down. Unscrew the tank cap. Fill the water tank with cool, clean water. Distilled or demineralized water is recommended. Do not fill past the 'MAX' line.
4. **Replace Cap:** Screw the tank cap back on tightly.
5. **Place Tank on Base:** Flip the water tank right side up and place it securely onto the humidifier base. Ensure it sits flush.
6. **Replace Character Top:** Place the train engine top back onto the water tank.
7. **Connect Power:** Plug the power cord into a standard 120V AC electrical outlet.

Video: A user demonstrates filling the Crane Train Humidifier by unscrewing the cap at the bottom of the tank, filling it with water, and then reassembling the unit.

Operating Instructions

1. **Turn On:** Rotate the control dial located on the front of the base clockwise from the 'O' (Off) position. The green indicator light will illuminate, signifying the unit is on.
2. **Adjust Mist Output:** Continue rotating the dial clockwise to increase the mist output. Rotate counter-clockwise to decrease the mist output.
3. **Mist Direction:** The mist will emit from the top of the train engine. Position the humidifier to direct the mist as desired.
4. **Automatic Shut-Off:** The humidifier will automatically turn off when the water tank is empty. The red indicator light will illuminate to signal that the tank needs refilling.
5. **Turn Off:** Rotate the control dial counter-clockwise until it clicks into the 'O' (Off) position. The green indicator light will turn off.

Maintenance

Regular cleaning is essential to prevent mold and mildew growth and ensure optimal performance.

Daily Maintenance

- Unplug the unit.
- Remove the water tank and empty any remaining water from the tank and base.
- Wipe the base and tank with a clean, dry cloth.
- Allow all parts to air dry before reassembling.

Weekly Disinfection

- Unplug the unit.
- Remove the water tank and empty any remaining water.
- Fill the water tank with 1/2 gallon (1.9 L) of water and 2 tablespoons of white vinegar. Shake vigorously.
- Let the solution sit for 30 minutes.

- Empty the tank and rinse thoroughly with clean water.
- Fill the base with 1/2 cup (120 ml) of white vinegar and let it sit for 30 minutes.
- Empty the base and rinse thoroughly with clean water.
- Allow all parts to air dry completely before storage or next use.

Troubleshooting

Problem	Possible Cause	Solution
No Mist	No water in tank; Unit not plugged in; Power dial off.	Refill water tank; Plug in unit; Turn power dial clockwise.
Red Light On	Water tank is empty.	Refill water tank.
White Dust Around Humidifier	Hard water minerals.	Use distilled or demineralized water. Clean unit regularly.
Unusual Noise	Unit not on a flat surface; Water level too low; Mineral buildup.	Place on flat surface; Refill tank; Clean unit.
Leaking	Tank cap not tightened; Tank not seated correctly.	Ensure tank cap is tight; Reseat tank firmly on base.
