CubicFun T4001H

CubicFun 3D Puzzle "The Era of Navigation" (Model T4001H) Instruction Manual

Model: T4001H

Introduction Safety Information Package Contents Assembly Instructions Maintenance Troubleshooting Specifications Support

1. Introduction

Thank you for choosing the CubicFun 3D Puzzle "The Era of Navigation" (Model T4001H). This manual provides detailed instructions for assembling your 3D puzzle, ensuring a smooth and enjoyable building experience. This kit allows you to construct four historical ship models: Santa Maria, Roman Warship, Panoksun, and Junk Boat.

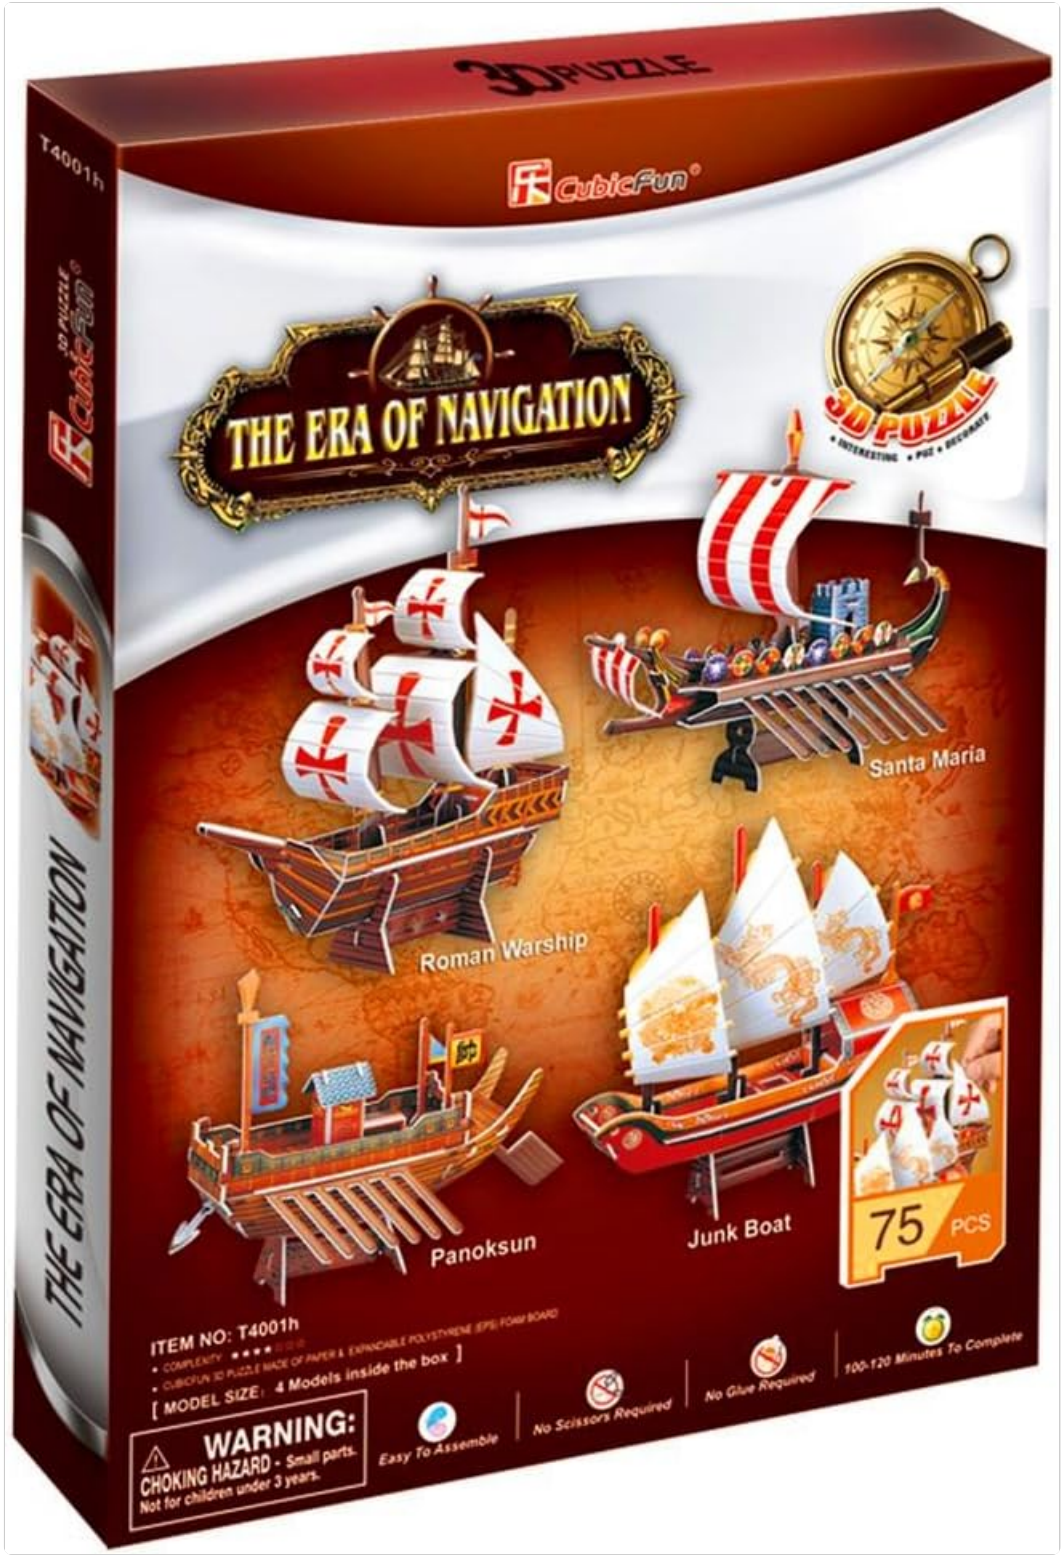

Figure 1: The CubicFun 3D Puzzle "The Era of Navigation" packaging, displaying the four ship models included in the kit.

2. Safety Information

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

- Keep all packaging materials away from children.
- Ensure all small parts are kept out of reach of young children to prevent accidental ingestion.
- Adult supervision is recommended during assembly, especially for younger users.
- Do not attempt to force pieces together, as this may cause damage.
- Dispose of any broken or damaged parts safely.

3. Package Contents

The CubicFun 3D Puzzle "The Era of Navigation" kit contains the following items:

- Multiple sheets of pre-cut EPS foam board puzzle pieces (totaling 75 pieces).
- Illustrated assembly instructions (often printed on the back of the box or as a separate sheet).
- Four distinct 3D ship models to assemble: Santa Maria, Roman Warship, Panoksun, and Junk Boat.

Figure 2: Example of the pre-cut sheets containing the puzzle pieces.

4. Assembly Instructions

Assembly of the CubicFun 3D Puzzle is designed to be straightforward and does not require scissors or glue. The estimated assembly time for all four models is approximately 100-120 minutes.

4.1 Preparation

1. **Unpack:** Carefully remove all contents from the box.
2. **Review Instructions:** Familiarize yourself with the included pictorial instructions. Each ship model will have its own set of steps.
3. **Identify Pieces:** Locate the sheets containing the puzzle pieces. Each piece is numbered or coded to correspond with the assembly steps.

4.2 General Assembly Steps

1. **Detach Pieces:** Gently push out the required pieces from their foam boards. Be careful not to tear or bend the pieces. If a piece is difficult to remove, use a blunt tool (like the back of a spoon) to assist, but avoid sharp objects.
2. **Match Numbers/Codes:** Follow the numerical or alphabetical sequence indicated in the instructions. Each piece has corresponding slots or tabs.
3. **Connect Pieces:** Insert tabs into matching slots. The pieces are designed to interlock securely. Apply gentle, even pressure. Do not force connections.
4. **Build Layer by Layer:** Most 3D puzzles are built in layers or sections. Complete one section before moving to the next, as guided by the instructions.
5. **Assemble Each Ship:** Repeat the process for each of the four ship models.

Figure 3: Assembled models of the Roman Warship and Panoksun.

Figure 4: Assembled models of the Santa Maria and Junk Boat.

5. Maintenance

To ensure the longevity and appearance of your assembled CubicFun 3D Puzzles:

- **Cleaning:** Dust the models regularly with a soft, dry cloth or a soft brush. Avoid using water or cleaning solutions, as they may damage the material or printed designs.
- **Storage/Display:** Display the models in a dry environment, away from direct sunlight and extreme temperatures, which can cause fading or warping.
- **Handling:** Handle the assembled models gently to prevent pieces from detaching or bending.

6. Troubleshooting

Problem	Solution

Problem	Solution
Pieces do not fit together.	Ensure you are using the correct pieces for the current step. Refer to the instruction diagrams carefully. Do not force pieces; gently align and push.
A piece is missing.	Double-check all foam sheets and the packaging. If a piece is genuinely missing, contact CubicFun customer support.
A piece is damaged during removal.	If the damage is minor, you might be able to carefully repair it with a small amount of craft glue (not included). For significant damage, contact customer support.
Assembled model is unstable.	Review the assembly steps to ensure all connections are secure and pieces are correctly oriented. Some models may have a base for added stability.

7. Specifications

- **Brand:** CubicFun
- **Model Number:** T4001H
- **Product Name:** The Era of Navigation 3D Puzzle
- **Number of Pieces:** 75
- **Models Included:** Santa Maria, Roman Warship, Panoksun, Junk Boat
- **Recommended Minimum Age:** 3 years
- **Approximate Assembly Time:** 100-120 minutes
- **Assembled Dimensions (Example, combined display):** 76.2 x 5.1 x 55.9 cm (This dimension is likely for the packaging or a combined display, as individual ships would be smaller. Please refer to individual model instructions for specific dimensions if available.)
- **Material:** EPS Foam Board
- **Assembly Requirements:** No scissors, no glue required.

8. Warranty and Support

CubicFun products are manufactured with quality in mind. While specific warranty details are not provided in this manual, for any questions, missing parts, or support needs, please contact CubicFun customer service through their official website or the retailer where the product was purchased.
Please retain your proof of purchase for any warranty claims or support inquiries.
