Pureit Classic GKK

Pureit Classic 1500L Germkill Kit User Manual

Brand: Pureit | Model: Classic GKK

1. PRODUCT OVERVIEW

The Pureit Classic 1500L Germkill Kit is designed for use with the Pureit Classic 23 Liter Water Purifier. This kit provides 1500 liters of purified water and consists of three essential components: an Activated Carbon filter, a Germkill Processor, and a Polisher. These components work together to remove impurities, harmful viruses, and bacteria, ensuring safe and great-tasting drinking water.

2. COMPONENTS OF THE GERMKILL KIT

The Germkill Kit (GKK) includes the following three parts:

- **Activated Carbon Filter:** This component is responsible for removing harmful parasites and pesticides from the water.
- **Germkill Processor:** Utilizes programmed Germkill Technology to eliminate invisible harmful viruses and bacteria, ensuring microbiological safety.
- **Polisher:** Removes chlorine, odor, and other impurities to purify water and enhance its taste and clarity.

3. INSTALLATION AND REPLACEMENT

The Germkill Kit is designed for easy replacement. For detailed, step-by-step instructions on how to replace the GKK components in your Pureit Classic 23 Liter Water Purifier, please refer to the user manual PDF provided with your water purifier or available in the product guides and documents section on the official Pureit website. Ensure proper alignment and secure fitting of each component during installation to maintain optimal purification performance.

4. OPERATION

The Pureit Classic 23 Liter Water Purifier, when equipped with the Germkill Kit, operates on a non-electric purification principle, typically based on gravity. Water flows through the Activated Carbon filter, then the Germkill Processor, and finally the Polisher. This multi-stage process ensures that water is thoroughly purified, removing contaminants and making it safe for consumption without the need for electricity.

5. MAINTENANCE

The Germkill Kit has a capacity of 1500 liters. It is crucial to replace the entire kit once this capacity is reached or after two years from the date of purchase, whichever comes first. Regular replacement ensures continuous effective purification and maintains the quality of your drinking water. The water purifier is designed with an indicator to signal when the Germkill Kit needs replacement.

6. TROUBLESHOOTING

If you experience issues such as reduced water flow, changes in water taste or odor, or if the Germkill Life Indicator signals replacement, it is likely time to replace your Germkill Kit. Ensure all components are correctly installed and sealed. If problems persist after replacing the kit, please contact customer support for further assistance.

7. SPECIFICATIONS

Brand	Pureit
Model Name	Classic GKK
Capacity	1500 Liters
Compatibility	Pureit Classic 23 Liter Water Purifier
Special Feature	Programmed Germkill Technology
Product Dimensions	21.3L x 12.5W x 12.1H Centimeters
Item Weight	250 g
Included Components	Activated Carbon, Germkill Processor, Polisher

8. WARRANTY AND SUPPORT

The warranty for the Germkill Kit begins from the date of purchase and remains valid until the usage period of 1500 liters is completed, or for a shelf life of 2 years, whichever occurs first. For any further information, assistance, or support, please contact Pureit customer service at **1860 210 1000**.
