# Samsonite Winfield 2 Hardside Expandable Luggage Instruction Manual

Brand: Samsonite | Model: 56846-1174

## INTRODUCTION

---

This manual provides essential information for the proper setup, operation, and maintenance of your Samsonite Winfield 2 Hardside Expandable Luggage. Designed for durability and ease of travel, this suitcase features a robust polycarbonate construction and multi-directional spinner wheels.

### Key Features:

- 100% Polycarbonate construction for impact absorption and durability.
- Brushed pattern finish to reduce the appearance of scratches.
- Four multi-directional spinner wheels for effortless mobility.
- Integrated side-mounted TSA combination lock for security.
- 1.5-inch expansion capability for increased packing volume.
- Fully-lined interior with cross-straps and zippered organizational pockets.

## SETUP

---

### Setting the TSA Combination Lock

Your luggage comes with an integrated TSA combination lock. To set your personal combination:

1. Ensure the lock is set to the factory default code (usually 0-0-0).

2. Locate the small reset button (often recessed) next to the dials. Use a pen or pointed object to press and hold this button until you hear a click.
3. While holding the reset button, set your desired 3-digit combination by turning the dials.
4. Release the reset button. Your new combination is now set. Remember your combination as there is no master key.

### **Extending the Telescopic Handle**

To extend the telescopic handle, press the button located on the top of the handle and pull upwards. The handle can be adjusted to multiple heights for comfortable maneuvering. To retract, press the button again and push the handle down until it locks into place.

## OPERATING INSTRUCTIONS

---

### Using Spinner Wheels

Your Samsonite Winfield 2 luggage is equipped with four multi-directional spinner wheels. These wheels allow for 360-degree rotation, enabling you to effortlessly glide the suitcase in any direction, whether pushing it upright or pulling it behind you.

### **Expanding the Luggage**

For additional packing space, locate the expansion zipper running along the perimeter of the suitcase. Unzip this zipper to expand the luggage by 1.5 inches, providing extra room for souvenirs or last-minute items.

### **Interior Organization**

The fully-lined interior features cross-straps in one compartment to secure your clothes and prevent shifting during transit. The other compartment includes a privacy curtain with its own zippered organizational pockets, ideal for smaller items or separating laundry.

## MAINTENANCE

---

- **Cleaning the Hardshell:** Wipe the exterior with a soft cloth dampened with mild soap and water. Avoid abrasive cleaners that could damage the finish.
- **Zippers:** Periodically check zippers for any debris and ensure they operate smoothly. Lubricate with a silicone-based spray if needed.
- **Wheels:** Inspect wheels regularly for hair or debris that may hinder smooth rolling. Clean as necessary.
- **Handles:** Ensure the telescopic handle extends and retracts without obstruction.

## TROUBLESHOOTING

---

- **Stuck Telescopic Handle:** Ensure no items inside the luggage are obstructing the handle mechanism. Apply gentle, even pressure when extending or retracting.
- **Sticky Wheels:** Check for debris (hair, lint) wrapped around the wheel axles. Clean thoroughly.
- **TSA Lock Issues:** If your combination is not working, ensure the dials are perfectly aligned with your set code. If you forget your code, contact Samsonite customer support for assistance.
- **Zipper Malfunction:** If a zipper is stuck, try applying a small amount of lubricant (like graphite from a pencil) to the teeth and gently work the slider back and forth.
