- **Canon FS Series:** FS10, FS11, FS100, FS21, FS22, FS200, FS31, FS300
- **Canon VIXIA HF Series:** HF10, HF11, HF100, HF20, HF200, HFS10, HFS11, HFS100, HFS20, HFS21, HFS200
- **Canon HG Series:** HG20, HG21, HG30
- **Canon HFS/HFG/M Series:** HFS30, HFG10, HFG20, M30, M31, M32, M300, HFM40, HFM41, HFM400
- **Canon iVIS HF Series:** HF10, HF11, HF100, HF20, HF200
- **Canon LEGRIA HFM/HFS/HF Series:** HFM306, HFM31, HFM32, HFM36, HFS10, HFS100, HFS11, HFS20, HFS200, HFS21, HF20, HF200, HF21
- **Canon XA Series:** XA10

- Canon CG Series: CG-800

SETUP

1. Battery Installation

To install the UltraPro BP-808 battery into your compatible Canon camera:

1. Ensure the camera is powered off.
2. Locate the battery compartment on your camera, typically on the bottom or side.
3. Open the battery compartment cover.
4. Align the battery with the compartment, ensuring the contacts match.
5. Gently slide the battery into the compartment until it clicks into place.
6. Close the battery compartment cover securely.

2. Charger Setup

The Rapid Travel Charger offers multiple power options:

- **AC Wall Outlet:** Fold out the integrated AC plug and insert it directly into a standard wall outlet.
- **DC Car Adapter:** Connect the included DC car adapter cable to the charger and then to your vehicle's 12V accessory socket.
- **Euro Travel Plug:** Attach the Euro travel plug adapter to the charger's AC plug for use in compatible international outlets.

OPERATING

Charging the Battery

Follow these steps to charge your UltraPro BP-808 battery:

1. Connect the Rapid Travel Charger to a power source (AC wall outlet, DC car adapter, or Euro plug adapter).
2. Insert the BP-808 battery into the charging slot of the Rapid Travel Charger, ensuring the contacts align correctly.
3. The charging indicator light on the charger will illuminate to show the charging status.
4. Once charging is complete, the indicator light will change (e.g., from red to green, or turn off, depending on the charger model).
5. Remove the fully charged battery from the charger.

The charger is designed for rapid charging, typically completing a full charge faster than in-camera charging.

MAINTENANCE

Battery Care

- Store batteries in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid fully discharging the battery frequently to prolong its lifespan.
- Clean battery contacts periodically with a dry, soft cloth to ensure good connection.
- If storing for extended periods, charge the battery to approximately 50% capacity.

Charger Care

- Keep the charger clean and free from dust and debris.
- Do not expose the charger to moisture or liquids.
- Avoid dropping or subjecting the charger to strong impacts.
- When not in use, unplug the charger from the power source.

TROUBLESHOOTING

- **Battery not charging:**
 - Ensure the charger is properly connected to a power source.
 - Verify the battery is correctly inserted into the charger with contacts aligned.
 - Check if the power outlet is functional.
 - Clean the battery and charger contacts.
- **Short battery life:**
 - Ensure the battery is fully charged before use.
 - Battery performance can degrade over time with repeated charge cycles.
 - Extreme temperatures can affect battery performance.
- **Charger indicator not working:**
 - Confirm the charger is receiving power.
 - If the charger is receiving power but the indicator remains off, the charger may be faulty.

SPECIFICATIONS

Feature	Specification
Brand	UltraPro
Model Number	UP-1xBP808-Bundle1
Battery Type	Lithium ION (No-Memory Design)
Battery Voltage	7.4 Volts (DC)
Battery Capacity	1500mAh (High-Capacity Cells)
Charger Type	Rapid Travel Charger
Charger Input	AC 100V-240V 50/60Hz, DC 12V (Car Adapter)
Charger Output	DC 4.2V/8.4V 600mA-1A

Feature	Specification
Certifications	CE, FCC
Item Weight	0.55 Pounds (approximate for bundle)
