# Cabstone DailyTunes in-Ear Earphones User Manual

Model: 96013

## INTRODUCTION

Welcome to the user manual for your Cabstone DailyTunes in-Ear Earphones. These earphones are designed to provide a clear and immersive audio experience for your daily listening needs. Please read this manual carefully to ensure proper use and maintenance of your device.

## PRODUCT OVERVIEW

The Cabstone DailyTunes in-Ear Earphones come with a standard 3.5mm connection, a 1.1m cable, and an in-line remote for media control. The package also includes three sets of replacement earpieces and a convenient carrying bag.

and comfortable fit.

## SETUP

To begin using your Cabstone DailyTunes earphones, simply plug the 3.5mm jack into the headphone port of your audio device. Ensure the jack is fully inserted for optimal sound quality.

## OPERATING

The Cabstone DailyTunes earphones feature an in-line remote for convenient media control. This remote allows you to manage playback without needing to access your device directly.

Image: A close-up view of the in-line remote control, showing the single button for media playback and call management.

Specific functions of the media control button may vary slightly depending on your connected device (e.g., iPhone models listed in specifications). Typically, a single press will play/pause music or answer/end calls. Double-press or triple-press functions might control track skipping.

---

## MAINTENANCE

Proper maintenance will extend the life of your earphones.

- **Cleaning:** Gently wipe the earpieces and cable with a soft, dry cloth. For the silicone earpieces, you may carefully remove them and wash with mild soap and water, ensuring they are completely dry before reattaching.
- **Storage:** When not in use, store your earphones in the provided carrying bag to protect them from dust, dirt, and tangling. Avoid wrapping the cable too tightly.
- **Earpiece Replacement:** The earphones come with three sets of replacement earpieces (small, medium, large) to ensure a comfortable and secure fit. To replace, gently pull off the existing earpiece and push on the new one until it is securely seated.

## TROUBLESHOOTING

If you encounter issues with your Cabstone DailyTunes earphones, please refer to the following common solutions:

- **No Sound or Low Volume:**

- Ensure the 3.5mm jack is fully inserted into your device's audio port.
- Check the volume level on your audio device.
- Test the earphones with another audio device to rule out a device-specific issue.

- Inspect the cable for any visible damage or kinks.

- **Distorted Sound:**

- Ensure the 3.5mm jack is clean and free of debris.
- Try adjusting the volume on your device.
- Test with another audio source.

- **In-line Remote Not Responding:**

- Ensure the earphones are fully connected.
- Some remote functions may not be compatible with all devices. Refer to your device's manual for external accessory compatibility.
