Trust Tytan 2.1 Speaker Set User Manual

Model: 19367

[Introduction](#) [Safety Information](#) [Package Contents](#) [Setup](#) [Operating](#)
[Instructions](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Support](#)

1. INTRODUCTION

Thank you for purchasing the Trust Tytan 2.1 Speaker Set. This powerful 2.1 subwoofer speaker system is designed to deliver high-quality audio with deep bass, suitable for various devices including PCs, laptops, TVs, smartphones, and tablets. It offers both wired and wireless Bluetooth connectivity for versatile use. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure you get the best experience from your speaker system.

2. SAFETY INFORMATION

Please read all safety instructions carefully before using the product. Keep this manual for future reference.

- Do not expose the device to rain, moisture, or extreme temperatures.
- Avoid placing the speakers near heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

3. PACKAGE CONTENTS

Ensure all the following items are present in your package:

- Trust Tytan 2.1 Bluetooth Speaker System (1x Subwoofer, 2x Satellite Speakers)
- Audio Cables (RCA to 3.5mm jack)
- Wired Remote Control
- Instruction Manual

4. SETUP

Follow these steps to set up your Trust Tytan 2.1 Speaker System:

1. **Positioning:** Place the subwoofer on the floor, ideally in a corner for enhanced bass. Position the two satellite speakers on either side of your listening area, facing you.
2. **Connect Satellite Speakers:** Connect the cables from the two satellite speakers to the corresponding output ports on the back of the subwoofer. These are typically RCA connectors.
3. **Connect Wired Remote Control:** Plug the wired remote control cable into the dedicated port on the back of the subwoofer. This remote allows for easy volume adjustment and provides headphone and auxiliary input jacks.
4. **Connect to Audio Source:**
 - **Wired Connection:** Use the provided audio cable (RCA to 3.5mm jack) to connect the subwoofer's input to the audio output (headphone jack) of your PC, laptop, TV, or other audio device.
 - **Bluetooth Connection:** For wireless connection, refer to the "Operating Instructions" section for Bluetooth pairing.
5. **Power Connection:** Plug the power cable from the subwoofer into a wall socket.

Image: The Trust Tytan 2.1 Speaker Set, illustrating the subwoofer, two satellite speakers, and the wired remote control. The back of the subwoofer shows the various connection ports for satellite speakers, audio input, and power.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Once connected to power, the speaker system will automatically power on. The system features intelligent power

management and will switch to standby mode when not in use.

5.2 Volume Control

Adjust the master volume using the large rotary knob on the wired remote control. Turn clockwise to increase volume and counter-clockwise to decrease.

5.3 Bluetooth Pairing

To connect your device via Bluetooth:

1. Ensure the speaker system is powered on.
2. Activate Bluetooth on your smartphone, tablet, or other Bluetooth-enabled device.
3. Search for available Bluetooth devices. The speaker system will appear as "Trust Tytan 2.1" or similar.
4. Select the speaker system from the list to pair. Once paired, a confirmation sound may be heard, and the indicator light on the remote control may change.
5. You can now play audio wirelessly through the speakers.

Note: The speaker system will automatically try to reconnect to the last paired device when powered on.

5.4 Wired Audio Input (AUX)

For wired audio input, connect your device's 3.5mm audio output to the AUX input jack located on the wired remote control. This will override the Bluetooth connection if both are active.

5.5 Headphone Output

A 3.5mm headphone jack is available on the wired remote control. Plugging in headphones will mute the speakers, allowing for private listening.

6. MAINTENANCE

Proper care will ensure the longevity of your speaker system:

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the speakers and subwoofer. Do not use liquid cleaners or aerosol sprays directly on the units.
- **Dust:** Regularly dust the speaker grilles and vents to prevent accumulation, which can affect sound quality and ventilation.
- **Placement:** Avoid placing the speakers in direct sunlight or in areas with high humidity.
- **Cables:** Ensure cables are not kinked or pinched, as this can damage them over time.

7. TROUBLESHOOTING

If you encounter issues with your Trust Tytan 2.1 Speaker Set, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No sound from speakers.	Power cable not connected. Volume too low. Incorrect audio input selected/connected. Headphones plugged in. Device audio output muted or too low.	Ensure power cable is securely plugged into the wall socket and subwoofer. Increase volume using the wired remote control. Check all audio connections (RCA, 3.5mm jack) and ensure the correct source is playing. Unplug headphones from the remote control. Check the volume settings on your connected device (PC, smartphone, etc.).
Bluetooth not connecting.	Speakers not in pairing mode. Device Bluetooth is off. Too far from speakers. Interference.	Ensure speakers are powered on. Turn Bluetooth on your device. Move your device closer to the speakers (within 10 meters). Try turning off other Bluetooth devices nearby. Forget the device on your phone and try pairing again.
Distorted sound.	Volume too high (either on speakers or source). Poor audio source quality. Loose connections.	Reduce the volume on both the speakers and the audio source. Try a different audio source or file. Check all cable connections to ensure they are secure.

8. SPECIFICATIONS

Model Name	Tytan 2.1
Model Number	19367
Speaker Type	2.1 Subwoofer System
Connectivity Technology	Bluetooth, Wired (3.5mm AUX)
Audio Output Mode	Stereo
Speaker Maximum Output Power	120 Watts (Peak) / 60 Watts (RMS)
Frequency Response	20 - 20,000 Hz
Compatible Devices	Laptop, Smartphone, Tablet, PC, TV Device
Control Method	Wired Remote Control
Material	Wood, Metal
Colour	Black
Item Weight	4.8 Kilograms
Product Dimensions (Subwoofer)	29 x 43 x 35 cm (approximate, based on overall product dimensions)

Power Source	Wall Sockets
Special Features	Bluetooth Function, Smart Power Management, Headphone Output on Remote

9. WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the warranty card included with your product or visit the official Trust website. You can typically find support resources, FAQs, and contact information for customer service there.

Trust Official Website: www.trust.com

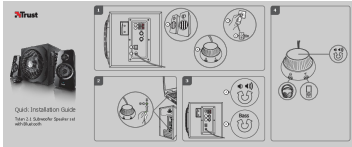

Please have your model number (19367) and purchase details ready when contacting support.

Tytan conjunto de altavoces de subgraves 2.1 con Bluetooth
Potente conjunto de altavoces de subgraves 2.1 con Bluetooth para escuchar música desde su ordenador, tableta y smartphone

#19367

Características

- Salida de potencia máxima de 120 W (RMS 60 W)
- Conexión a la red o disfrute de la tecnología Bluetooth inalámbrica
- Sonido de gran calidad con subgraves más profundos
- Mandos a distancia cableado
- Autoencendido y conexión para smartphone/NPFS
- Botones de control para ajustar el nivel del volumen y de los sonidos graves

Registros del sistema

- Para disfrutar de sonido inalámbrico: smartphone, tableta u ordenador portátil con Bluetooth 2.0 (o más nuevo)
- Ordenador de sobremesa o portátil con conexión de audio de 3,5 mm
- Conexión a red de suministro eléctrico

Qué hay en la caja

- Altavoz de subgraves con cable incorporado
- 2 altavoces satélite con cables incorporados
- Mandos a distancia cableado
- Manual del usuario

Requisitos del sistema

- Para disfrutar de sonido inalámbrico: smartphone, tableta u ordenador portátil con Bluetooth 2.0 (o más nuevo)
- Ordenador de sobremesa o portátil con conexión de audio de 3,5 mm
- Conexión a red de suministro eléctrico
