2. SAFETY INFORMATION

No specific safety warnings are applicable for this product. Please ensure all small pieces are kept away from young children to prevent choking hazards.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- 36 Puzzle Pieces
- Instruction Sheet (often included within the packaging)

4. ASSEMBLY INSTRUCTIONS

Assembling your 3D Crystal Puzzle requires patience and attention to detail. The pieces are designed to interlock precisely. Some pieces may have numbers to guide assembly, while others rely on shape recognition.

4.1 Preparation

1. **Unpack Components:** Carefully remove all puzzle pieces from the packaging.
2. **Clear Workspace:** Ensure you have a clean, flat, and well-lit surface to work on.
3. **Sort Pieces:** It is often helpful to sort pieces by shape, size, or any numerical markings they may have. This can simplify the assembly process.

4.2 Assembly Steps

1. **Identify Key Pieces:** Look for the base or central pieces that form the core structure. For the Cheshire Cat, this might be the body sections.
2. **Interlock Pieces:** Gently fit the translucent pieces together. They are designed to interlock securely. Do not force

pieces, as this may cause damage.

3. **Build Layer by Layer:** Many 3D puzzles are built in layers or sections. Refer to the included instruction sheet for specific guidance on the order of assembly.
4. **Attach Features:** Once the main body is formed, attach smaller features like the tail, ears, and facial details.
5. **Final Connections:** Ensure all pieces are firmly connected and the structure is stable.

5. DISPLAY AND CARE

Once assembled, your BePuzzled Disney Cheshire Cat 3D Crystal Puzzle becomes a decorative item. To maintain its appearance:

- **Placement:** Display your completed puzzle on a stable surface, such as a shelf, desk, or bookcase, away from direct sunlight to prevent potential discoloration over time.
- **Cleaning:** Dust gently with a soft, dry cloth. Avoid abrasive cleaners or harsh chemicals, which can scratch or damage the translucent plastic.
- **Handling:** Handle the puzzle carefully to prevent pieces from detaching. If a piece becomes loose, gently reattach it.

6. TROUBLESHOOTING

Problem	Solution
Pieces do not fit together.	Ensure you are using the correct pieces for that section. Refer to the instruction sheet or the online solutions for guidance. Do not force pieces.
Puzzle is unstable after assembly.	Double-check all connections to ensure pieces are fully interlocked. Some puzzles may benefit from a small amount of clear adhesive at critical joints for permanent display, though this is not typically required.
Missing a piece.	Carefully check your workspace and packaging. If a piece is genuinely missing, contact BePuzzled customer support.
Stuck on a step.	Visit the official BePuzzled website for step-by-step solutions for your specific puzzle model.
