

Technics EAH-AZ60-K

Technics EAH-AZ60-K True Wireless Earbuds Instruction Manual

Model: EAH-AZ60-K

INTRODUCTION

This manual provides detailed instructions for the use and maintenance of your Technics EAH-AZ60-K True Wireless Earbuds. These earbuds feature advanced noise cancelling technology, high-fidelity audio, and multipoint Bluetooth connectivity for seamless audio experiences.

Image: Technics EAH-AZ60-K True Wireless Earbuds and their charging case. The earbuds are black with a metallic finish on the outer surface, displaying the Technics logo. The charging case is also black with a matte finish.

PACKAGE CONTENTS

Verify that all items are present in the package:

- Technics EAH-AZ60-K Earbuds (Left and Right)
- Charging Case
- USB Charging Cable
- Multiple Sizes of Ear Cushions (7 pairs)

Image: A flat lay of the Technics EAH-AZ60-K earbuds, their charging case, a USB-C charging cable, and seven pairs of silicone ear tips in various sizes.

SETUP

1. Charging the Earbuds and Case

Before initial use, fully charge the earbuds and the charging case. Place the earbuds into the charging case and connect the USB charging cable to the case and a power source. The indicator light on the case will show charging status.

- **Charging Time:** Approximately 24 hours for a full charge of the case and earbuds.
- **Quick Charge:** A 15-minute charge provides approximately 70 minutes of playback.

LONG BATTERY LIFE

15MIN QUICK CHARGE = 70MIN PLAYBACK

7

**HOURS OF
LISTENING TIME
IN EACH EARBUD***

24

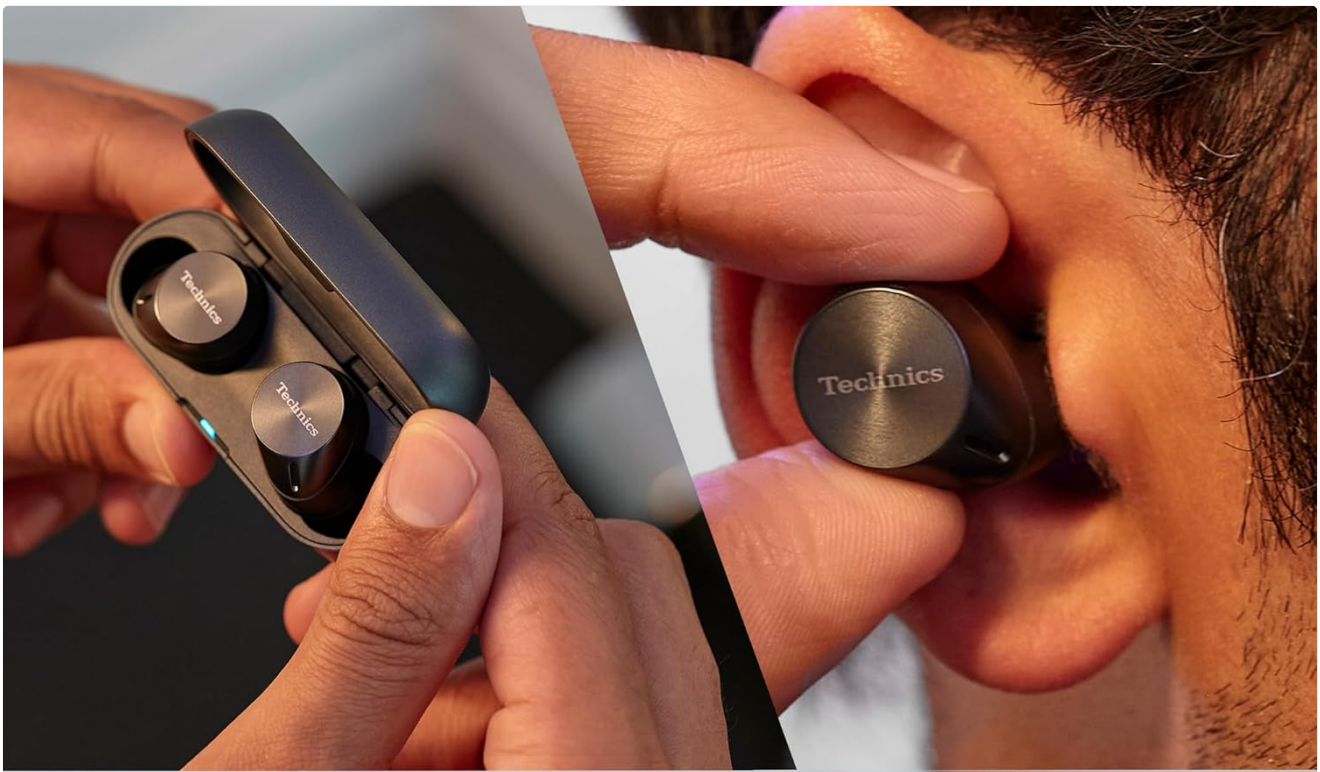

**HOURS WITH THE
CHARGING CASE***

*with noise-cancelling on.

Image: The Technics EAH-AZ60-K earbuds in their open charging case, illustrating battery life: 7 hours of listening time per earbud and 24 hours total with the charging case (with noise-cancelling on).

2. Selecting the Correct Ear Tips

Proper ear tip selection is crucial for optimal sound quality, noise cancellation, and comfort. Experiment with the seven included ear tip sizes to find the best fit for your ears. A snug fit ensures effective noise isolation and audio performance.

SLEEK + COMFORTABLE

IPX4 WATER RESISTANT WITH 7 EARPIECE SIZES
GENTLY TWIST TO FIND YOUR PERFECT FIT

Image: A close-up of a Technics EAH-AZ60-K earbud being inserted into an ear, alongside an array of seven different sized ear tips, emphasizing comfort and fit.

3. Pairing with a Bluetooth Device

1. Open the charging case with the earbuds inside.
2. The earbuds will automatically enter pairing mode (indicator lights will flash).
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
4. Select "Technics EAH-AZ60-K" from the list.
5. Once connected, the earbuds will confirm pairing.

4. Technics Audio Connect App

Download the "Technics Audio Connect" app from your device's app store. This app provides advanced control over sound settings, noise cancellation levels, touch controls, and firmware updates.

Technics Audio Connect

Easy, intuitive setup
Quick start through the Technics app

Image: Screenshots of the Technics Audio Connect app interface on a smartphone, showing options for sound enhancement, noise cancelling percentage, and ambient sound control. The app logo is also visible.

OPERATING INSTRUCTIONS

Touch Controls

The earbuds feature touch-sensitive surfaces for controlling playback, calls, and noise cancellation modes. Customize these controls via the Technics Audio Connect app.

- **Single Tap:** Play/Pause, Answer/End Call
- **Double Tap:** Skip Track Forward, Reject Call
- **Triple Tap:** Skip Track Backward
- **Long Press:** Activate Noise Cancelling/Ambient Sound Mode, Voice Assistant

Noise Cancelling and Ambient Sound Modes

The EAH-AZ60-K earbuds offer active noise cancellation to reduce ambient sounds and an ambient sound mode to allow external sounds to pass through. Switch between these modes using the touch controls or the Technics Audio Connect app.

Call Quality with JustMyVoice Technology

Equipped with JustMyVoice Technology, these earbuds utilize 8 individual microphones and advanced wind noise reduction to ensure clear voice transmission during calls, even in noisy environments.

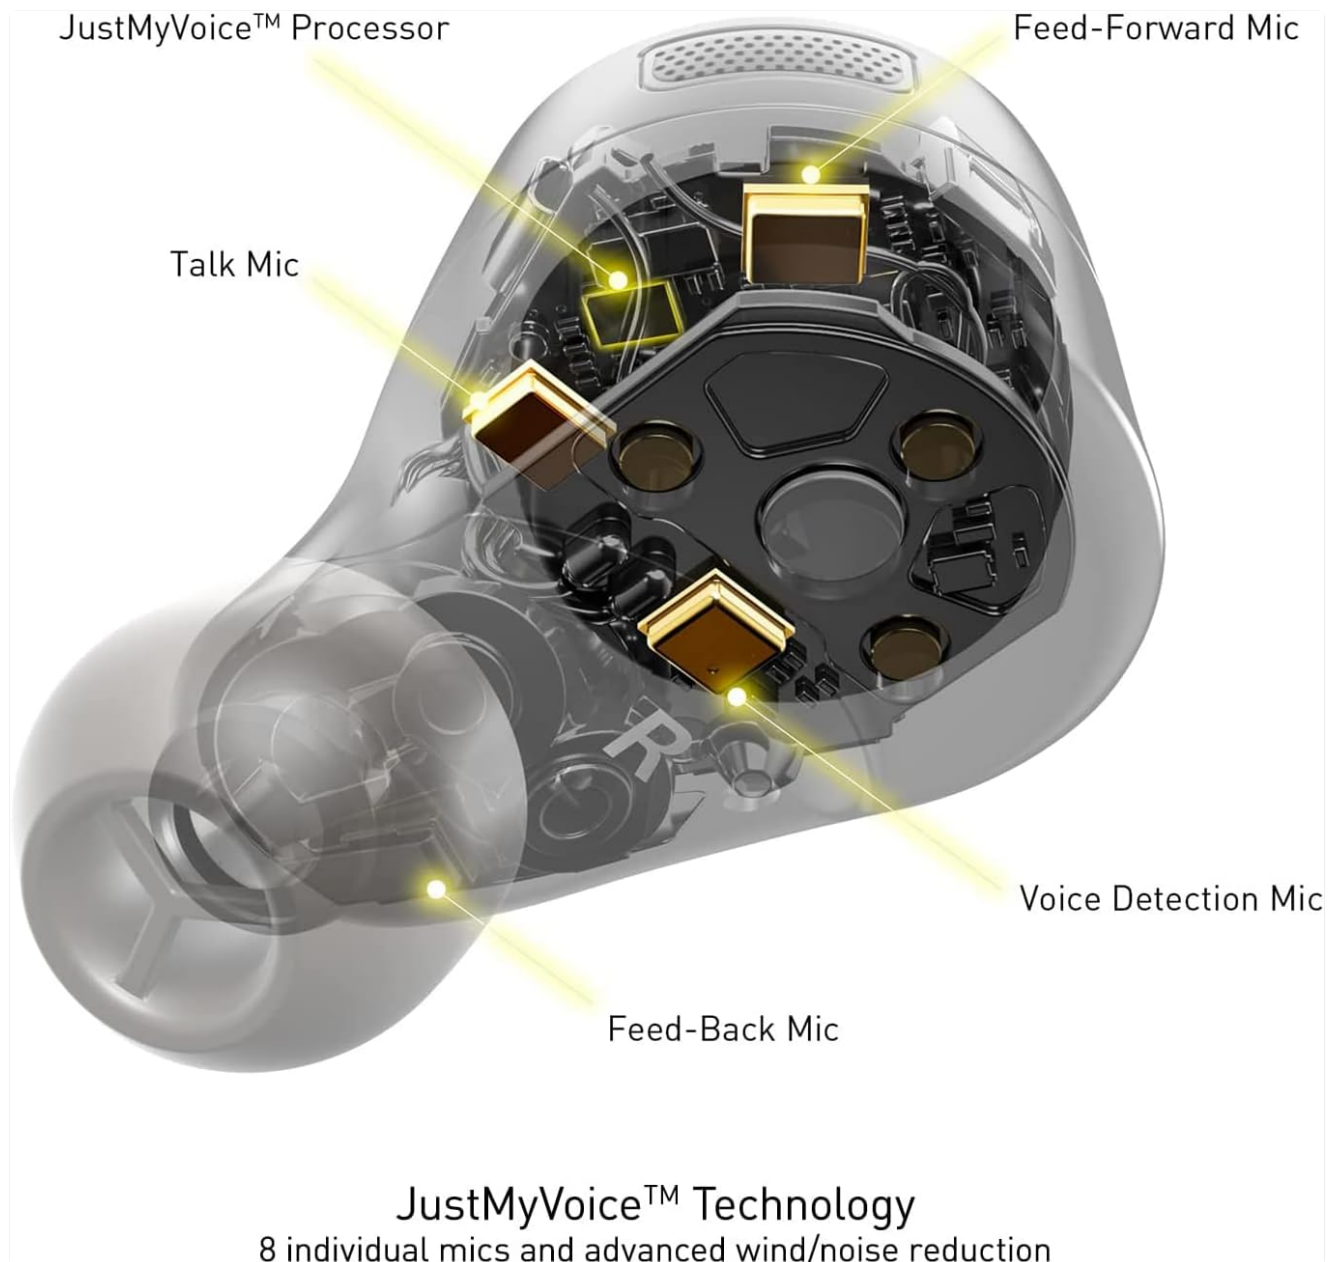

Image: An X-ray diagram of a Technics EAH-AZ60-K earbud highlighting the internal components, specifically the JustMyVoice™ Processor and the placement of the Feed-Forward Mic, Talk Mic, Voice Detection Mic, and Feed-Back Mic, illustrating the 8 individual mics and advanced wind/noise reduction technology.

Multipoint Connectivity

The earbuds support multipoint connectivity, allowing them to be simultaneously connected to two Bluetooth devices. This enables seamless switching between audio sources, such as a laptop for music and a smartphone for calls.

SMART DEVICE SWITCHING

PAIR 2 DEVICES AND EARBUDS AUTO-SWITCH
TO PICK UP PHONE OR VIDEO CALLS
(compatible with Apple and Android)

Image: The Technics EAH-AZ60-K earbuds and charging case positioned near a laptop and a smartphone, illustrating the "Smart Device Switching" feature where earbuds auto-switch to pick up phone or video calls from two paired devices.

MAINTENANCE

Cleaning

Regularly clean the earbuds and charging case to maintain optimal performance and hygiene. Use a soft, dry cloth to wipe the surfaces. For ear tips, remove them from the earbuds and clean with a mild soap solution, then rinse and dry thoroughly before reattaching.

Caution: Do not use abrasive cleaners or immerse the earbuds or case in liquid.

Water Resistance

The EAH-AZ60-K earbuds are IPX4 water resistant, meaning they are protected against splashing water from any direction. This makes them suitable for use during workouts or in light rain. The charging case is not water resistant.

Battery Care

To prolong battery life, avoid fully discharging the earbuds and case frequently. Store them in a cool, dry place when not in use.

TROUBLESHOOTING

No Sound or Poor Sound Quality

- Ensure the earbuds are properly seated in your ears.
- Verify that the correct ear tip size is used for a snug fit. An improper fit can significantly affect sound quality and noise cancellation.
- Check the volume level on both your connected device and the earbuds.
- Ensure the earbuds are charged.
- Confirm that the earbuds are correctly paired with your device.

Bluetooth Connectivity Issues

- Turn off the Bluetooth function on your device for a few minutes, then turn it back on and attempt to reconnect.
- Ensure the earbuds are within the Bluetooth range (up to 10 meters) of your device.
- Clear the pairing history on your device and re-pair the earbuds.
- Ensure there are no obstructions or strong interference sources between the earbuds and your device.

Poor Call Quality

- Ensure the microphones are not obstructed.
- Check for strong wind noise in your environment; JustMyVoice technology helps but extreme conditions can still affect clarity.
- Confirm a stable Bluetooth connection.

SPECIFICATIONS

Feature	Detail
Model Number	EAH-AZ60-K
Brand	Technics
Connectivity Technology	Bluetooth 5.2
Bluetooth Range	Up to 10 meters (33 feet)
Noise Control	Active Noise Cancellation
Microphones	8 individual mics with JustMyVoice Technology
Battery Life (Earbuds)	Up to 7 hours (with Noise Cancelling)
Total Battery Life (with Case)	Up to 24 hours
Water Resistance Level	IPX4 (Earbuds only)
Frequency Response	20 Hz - 40 kHz
Control Type	Touch, App, Voice (Alexa Built-in, Siri)
Included Components	Charging Case, USB Cable, Ear Cushions (7 sizes)
Material	Plastic

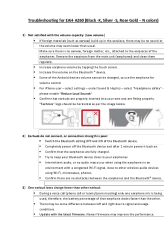

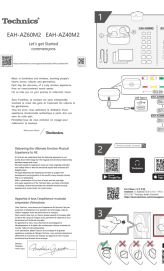

Feature	Detail
Item Weight	7.4 ounces (total package)
Product Dimensions	7.1 x 9.4 x 5.5 inches (package)

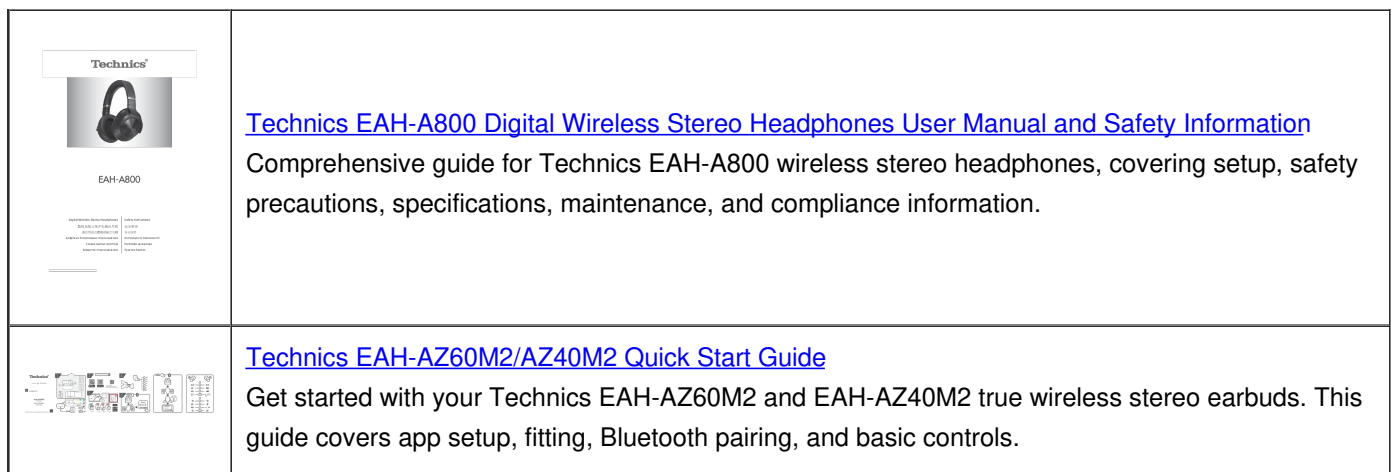

WARRANTY AND SUPPORT

Status of the charging cradle LED	
Charging cradle LED	Description
The charging cradle LED (cyan) does not flash even after putting the earphones into the charging cradle.	There is no charge remaining in the charging cradle battery. • First charge the charging cradle.
You are trying to charge and the charging cradle LED goes out soon after starting.	The charging cradle is fully charged. • If the charging cradle LED (cyan) does not blink with the earphones in the charging cradle when the lid of the charging cradle is opened, then the earphones are fully charged.
Does not light or blink even when you open the charging cradle lid.	There is no charge in the battery. • Use the USB charging cord (supplied) to charge. (p. 15) • Take the earphones out of the charging cradle, and after unplugging the USB charging cord, close the lid and leave it for 3 minutes. Then open the lid of the charging cradle and confirm that the power turns on.
Red blinks rapidly.	This unit is not charged correctly. • Plug the USB charging cord and plug it in again. If it still blinks red again, refer servicing to qualified service personnel.
Cyan blinks rapidly.	The earphones are not inserted correctly. • Please reinsert the earphones correctly. • There is dust or droplets of water on the terminals of the earphones and charging cradle. Remove dust and water droplets.
Maintenance	
Clean this unit with a dry and soft cloth. • When the unit is very dirty, wipe off the dirt with a cloth that has been dipped in water and well wrung, then wipe with a dry cloth. • Do not use solvents including benzene, thinner, alcohol, kitchen detergent, a chemical vapor, etc. This might cause the exterior case to be deformed or the coating to come off. Keep off also from the charging terminals and inside dry cloth. Do not use pointy object. Remove the earpieces from the earphones and get rid of earwax, foreign matter, etc. If you clean the earpieces while they are attached to the earphones, you may damage the protective mesh on the earphones. (Do not touch the protective mesh as this can have an effect on audio characteristics.) Keeping the battery performance • During the long period of storage, full charge this unit once every 6 months to keep the battery performance.
