ZOKU ZK113-BL

ZOKU Original Slush and Shake Maker Instruction Manual

Model: ZK113-BL

INTRODUCTION

The ZOKU Original Slush and Shake Maker allows you to create refreshing slushies, milkshakes, frozen alcoholic drinks, and healthy fruit smoothies quickly and easily. This compact device prepares single-serving frozen treats in minutes, right on your countertop, without requiring bulky equipment or an electrical outlet.

SO MANY DRINKS

- Healthy Slushies
- Milkshakes
- Frozen Alcoholic Drinks
- Fruit Smoothies
- And More

**Not for Use with Artificial Sweeteners*

PRODUCT COMPONENTS

- 1 x 8-ounce Inner Freezer Core
- 1 x Protective Outer Cup
- 1 x Specially Designed Slush Spoon

SETUP

Before first use, and between uses, ensure the inner freezer core is completely frozen. For optimal performance, freeze the inner core for at least 8 hours. Store the inner core in your freezer so it's always ready when you want a frozen treat.

OPERATING INSTRUCTIONS

Follow these steps to create your favorite frozen drinks:

1. **Prepare the Inner Core:** Ensure the inner freezer core has been frozen for 8 or more hours.
2. **Assemble:** Remove the frozen inner core from the freezer and place it into the protective outer cup.
3. **Add Ingredients:** Pour your desired chilled beverage into the inner core up to the fill line. Compatible beverages include blended fruit, homemade juice, chocolate milk, sweetened coffee, and soda. **Note:** The ZOKU Slush and Shake Maker will not freeze sugar-free or diet beverages effectively due to their chemical composition.
4. **Mix and Scrape:** Use the included specially designed slush spoon to mix and scrape the frozen beverage from the walls of the inner core. Continue to mix and scrape until the desired slushy consistency is achieved. This process typically takes as little as 7 minutes.
5. **Enjoy:** Serve and enjoy your freshly made slushy or shake directly from the cup.

CARE AND MAINTENANCE

To ensure the longevity of your ZOKU Slush and Shake Maker, please follow these cleaning instructions:

- **Hand Wash Only:** All components of the ZOKU Slush and Shake Maker should be hand washed with warm water and mild soap.
- Do not place any parts in a dishwasher.
- Ensure all parts are thoroughly dry before reassembling or storing.

TROUBLESHOOTING TIPS

- **Drink Not Freezing:**
 - Ensure the inner freezer core has been frozen for a minimum of 8 hours. For best results, keep it in the freezer at all times when not in use.
 - Verify that the beverage contains sugar. Sugar-free or diet drinks will not freeze properly in this device.
- **Difficulty Scraping:**
 - If the frozen layer is too hard to scrape, allow the drink to sit for an additional minute or two before attempting to scrape again.
 - Use the provided slush spoon, which is designed for effective scraping without damaging the inner core.

SPECIFICATIONS

Brand	ZOKU
