Laurastar Go Plus Ironing System User Manual

Model: 000.0303.785

Brand: Laurastar

1. INTRODUCTION

This manual provides essential information for the safe and effective use of your Laurastar Go Plus ironing system. Please read all instructions carefully before first use and retain for future reference. This system combines a professional iron and steam generator with an active ironing board featuring blower and vacuum functions to optimize your ironing experience.

2. SAFETY INSTRUCTIONS

WARNING: Read all safety warnings and instructions. Failure to follow the warnings and instructions may result in electric shock, fire, and/or serious injury. Keep this manual for future reference.

- Always unplug the appliance from the electrical outlet immediately after use and before cleaning.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Do not touch hot surfaces. Use handles or knobs.
- Close supervision is necessary when any appliance is used by or near children.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Use the appliance only for its intended household use as described in this manual.
- Never direct steam towards people or animals.
- Ensure the appliance is placed on a stable, heat-resistant surface during use.

3. PRODUCT OVERVIEW

The Laurastar Go Plus ironing system consists of an active ironing board and a professional steam iron. Familiarize yourself with the main components:

- **Ironing Board:** Features an active surface with integrated blower and vacuum systems.
- **Professional Iron:** Delivers powerful, continuous steam.

- **Steam Generator:** Heats water to produce steam.
- **Water Tank:** Removable tank for filling with water.
- **Iron Rest:** Heat-resistant area to safely place the hot iron.

Figure 2: Close-up of the Laurastar iron handle, highlighting its ergonomic design and steam button.

4. SETUP

Follow these steps to set up your Laurastar Go Plus for first use:

1. **Unpack the System:** Carefully remove all components from the packaging.
2. **Unfold the Ironing Board:** Place the system on a flat, stable surface. Release the locking mechanism and unfold the ironing board until it is fully extended and stable. Adjust the height to your preference.

Figure 3: Side view of the Laurastar Go Plus ironing system, illustrating the board's height adjustment mechanism.

3. **Fill the Water Tank:** Remove the water tank from the steam generator. Fill it with tap water up to the maximum fill line. Ensure the cap is securely fastened before reinserting the tank into the generator.
4. **Connect Power:** Plug the power cord into a grounded electrical outlet.

5. OPERATING INSTRUCTIONS

Operating your Laurastar Go Plus system for optimal ironing results:

1. **Power On:** Press the power button. The indicator light will illuminate, and the system will begin to heat up. Wait for the light to indicate readiness (typically stops flashing or turns solid).
2. **Steam Ironing:** Once ready, place the garment on the ironing board. Press the steam button located on the iron handle to release powerful, continuous steam. Move the iron smoothly over the fabric.

3. Using the Active Board:

- **Blower System:** Activate the blower to inflate the ironing board cover, creating an air cushion. This is ideal for delicate fabrics or to prevent creases when ironing over buttons or seams.
- **Vacuum System:** Activate the vacuum to hold the fabric firmly against the board. This allows steam to penetrate deeply and helps to set creases precisely, removing excess moisture.

4. **After Use:** Turn off the system and unplug it from the outlet. Allow the iron to cool completely before storing.

6. MAINTENANCE

Proper maintenance ensures the longevity and performance of your Laurastar Go Plus system.

- **Cleaning the Iron Soleplate:** After the iron has cooled, wipe the soleplate with a damp cloth to remove any residue. Do not use abrasive cleaners.
- **Cleaning the Ironing Board Cover:** The cover can be removed and cleaned according to its care label. Ensure it is dry before reattaching.
- **Descaling the Steam Generator:** Regular descaling is crucial to prevent mineral buildup and maintain steam performance. Refer to the specific descaling instructions provided with Laurastar descaling products.
- **Storage:** Once cooled, fold the ironing system for compact storage.

7. TROUBLESHOOTING

If you encounter issues with your Laurastar Go Plus, refer to the following common problems and solutions:

- **No Steam Production:**
 - Check if the water tank is filled.
 - Ensure the system has reached its operating temperature (indicator light is ready).
 - Verify the steam button on the iron is being pressed.
 - Check for mineral buildup in the steam generator; descaling may be required.
- **Water Leaking from Iron:**
 - Ensure the water tank cap is securely fastened.
 - Avoid overfilling the water tank.
 - Allow the iron to heat up completely before using steam.
- **Active Board (Blower/Vacuum) Not Functioning:**
 - Check if the system is powered on and properly connected.
 - Ensure the board is fully unfolded and locked into position.
 - Verify that the blower/vacuum switch is correctly engaged.

If problems persist, contact Laurastar customer support.

8. SPECIFICATIONS

Feature	Specification
Brand	Laurastar
Model Name	GO
Model Number	000.0303.785
Product Dimensions (L x W x H)	15.35 x 7.09 x 51.18 inches
Item Weight	27.9 pounds (12.7 Kilograms)
Voltage	220 Volts
Wattage	1800 watts
Base Material	Stainless Steel
UPC	790776006770

9. WARRANTY AND SUPPORT

For detailed warranty information, product registration, and customer support, please refer to the documentation included with your Laurastar Go Plus purchase or visit the official Laurastar website. Keep your proof of purchase for warranty claims.
