Maclean IR9000 B

Maclean IR9000 B Dummy Camera with IR and LED - Instruction Manual

1. INTRODUCTION

The Maclean IR9000 B is a realistic dummy security camera designed to deter potential intruders. It features an imitation IR illuminator and a flashing red LED, mimicking the appearance of an active surveillance system. This device is suitable for both indoor and outdoor applications, providing a cost-effective visual deterrent without the complexities of a real CCTV setup.

2. SETUP AND INSTALLATION

2.1 Package Contents

- Maclean IR9000 B Dummy Camera
- Mounting accessories (screws and wall plugs)

2.2 Battery Installation

1. Locate the battery compartment on the underside or rear of the dummy camera.
2. Gently slide or unclip the battery cover to open the compartment.
3. Insert two (2) 1.5V AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely. The red LED should begin to flash, indicating proper installation.

2.3 Mounting the Camera

The Maclean IR9000 B dummy camera is designed for wall mounting and can be used both indoors and outdoors. Choose a location that provides maximum visibility and acts as a strong deterrent.

1. Select a suitable mounting surface. Ensure it is sturdy enough to hold the camera securely.
2. Position the mounting bracket against the wall at the desired location.
3. Mark the drill holes through the bracket.
4. Drill pilot holes into the marked spots. For masonry, insert the provided wall plugs.
5. Attach the mounting bracket to the wall using the supplied screws.
6. Secure the dummy camera to the mounted bracket. Adjust the camera angle as needed to achieve the desired coverage area.

Image 2.2: The dummy camera installed on an exterior wall, demonstrating a typical mounting scenario.

3. OPERATING INSTRUCTIONS

Once batteries are correctly installed, the Maclean IR9000 B dummy camera will automatically activate its flashing red LED. This LED simulates the operation of a real security camera, enhancing its deterrent effect. There are no additional controls or settings for this device.

4. MAINTENANCE

- **Cleaning:** Wipe the camera's exterior periodically with a soft, damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners.
- **Battery Replacement:** Replace the AAA batteries when the red LED stops flashing or becomes dim.
- **Inspection:** Periodically check the mounting for stability, especially if installed outdoors, to ensure the camera remains securely in place.

5. TROUBLESHOOTING

5.1 LED Not Flashing

- **Check Batteries:** Ensure that two (2) 1.5V AAA batteries are installed correctly with the proper polarity.
- **Replace Batteries:** If the batteries are old or depleted, replace them with new ones.
- **Battery Compartment:** Verify that the battery compartment cover is securely closed.
