Silikomart SFT306

Silikomart Professional SFT306 Square Silicone Bakeware Pan User Manual

Model: SFT306

1. PRODUCT OVERVIEW

The Silikomart Professional Square Silicone Bakeware Pan (Model SFT306) is a high-quality, flexible silicone mold designed for baking various items such as cakes and brownies. This pan features a unique "Safe Ring Line" with a special removable support ring to maintain the shape of your preparation during baking and handling until unmolding.

Key features include:

- 9 by 9-inch square silicone cake pan.
- Dishwasher and microwave safe for convenience.
- Freezer safe down to -80°F (-60°C) and oven safe up to 450°F (230°C).
- Ultra-flexible material for easy extraction of baked goods.
- Guaranteed for 3000 uses, ensuring long-term durability.

2. SETUP AND FIRST USE

1. **Initial Cleaning:** Before first use, wash the silicone pan thoroughly with warm soapy water. Rinse well and dry completely.
2. **Positioning the Support Ring:** The pan includes a removable "Safe Ring Line" support ring. Insert this rigid ring around the top edge of the silicone mold before filling it with batter. This ring provides stability and helps maintain the pan's square shape, especially when transferring it to and from the oven.
3. **Placement:** Place the pan, with the support ring and batter, on a baking sheet for easier handling and stability during baking.

3. OPERATING INSTRUCTIONS

The Silikomart silicone bakeware is designed for versatile use across various cooking appliances.

- **Oven Use:** The pan is oven safe up to 450°F (230°C). Always place the silicone pan on a baking sheet for support, especially when using the removable ring. Do not place the pan directly on oven racks without support.
- **Freezer Use:** The pan is freezer safe down to -80°F (-60°C), making it suitable for freezing desserts or other preparations.
- **Microwave Use:** The pan can be safely used in a microwave oven.
- **Unmolding:** Once your baked item has cooled sufficiently, the ultra-flexible nature of the silicone allows for easy unmolding. Gently peel the sides of the pan away from the baked good, then invert to release. The support ring should be removed before unmolding.

Image 2: Example of a baked item, such as a savory tart or cake, successfully prepared and unmolded from the square silicone pan.

4. MAINTENANCE AND CARE

- **Cleaning:** The silicone pan is dishwasher safe. For hand washing, use warm soapy water and a soft sponge. Avoid abrasive cleaners or scouring pads that could damage the silicone surface.
- **Drying:** Ensure the pan is completely dry before storing to prevent water spots or residue buildup.
- **Storage:** Store the pan in a clean, dry place. Its flexibility allows for easy storage, even in compact spaces.
- **Durability:** This bakeware is guaranteed for 3000 uses, indicating its robust and long-lasting design when properly cared for.

5. TROUBLESHOOTING

The Silikomart Professional Square Silicone Bakeware Pan is designed for reliable performance. Most common issues are related to usage rather than product defect.

- **Baked Goods Sticking:** Ensure the pan is clean and dry before use. While silicone is naturally non-stick, a light greasing or flouring can be used for certain recipes if sticking occurs. Allow baked goods to cool sufficiently before attempting to unmold.
- **Pan Losing Shape:** Always use the provided "Safe Ring Line" support ring when baking to maintain the pan's structural integrity, especially when handling a full pan of batter. Place the pan on a flat baking sheet for additional support.
- **Rings on Bottom of Baked Goods:** The design of the pan includes subtle rings on the bottom for structural integrity and heat distribution. These may be visible on the bottom surface of some baked items. This is a characteristic of the pan's design and does not affect the quality or taste of the food.

6. SPECIFICATIONS

Model Number	SFT306
Material	Silicone
Shape	Square
Dimensions	9 x 9 inches (internal baking area), Product Dimensions: 16 x 4.2 x 10.4 inches (overall with handles)
Color	Red
Oven Safe Temperature	Up to 450°F (230°C)
Freezer Safe Temperature	Down to -80°F (-60°C)
Dishwasher Safe	Yes
Microwave Safe	Yes
Guaranteed Uses	3000
Item Weight	9.9 ounces (280 grams)
Manufacturer	Silikomart Professional

7. WARRANTY AND SUPPORT

For specific warranty information regarding your Silikomart Professional Square Silicone Bakeware Pan, please refer to the official Silikomart website or contact the retailer from whom you purchased the product. Warranty terms and conditions may vary. For further assistance, product inquiries, or support, please visit the official Silikomart website or contact their customer service department directly. Contact details are typically available on the manufacturer's website.
