Wise 8WD159-R-S Replacement Seat Cushion User Manual

Model: 8WD159-R-S | Brand: Wise

PRODUCT OVERVIEW

The Wise 8WD159-R-S Replacement Seat Cushion is designed as an OEM replacement for the Wise 8WD159 Series 50 Quart Swingback Cooler Seat. This cushion is engineered for marine environments, featuring durable materials and construction to withstand outdoor conditions.

Key features include:

- OEM Replacement Seat Cushion specifically for Wise 8WD159-784 Swingback Seat Frame.
- High compression contoured foam padding for comfort and durability.
- Heavy Duty Offshore Marine Grade 28 oz. vinyl, resistant to sun, heat, rain, and soiling.
- Marine Grade vinyl covering with embossed detail and heavy-duty welting trim.

SETUP AND INSTALLATION

This replacement seat cushion is designed for straightforward installation on the Wise 8WD159-784 Swingback 50 Quart Cooler Seat. No complex tools are typically required beyond a screwdriver.

Installation Steps:

1. **Prepare the Cooler Seat:** Ensure the existing cooler seat frame (Wise 8WD159-784) is clean and free of debris.
2. **Remove Original Cushion:** Locate the screws or fasteners securing the original seat cushion to the swingback

cooler seat frame. Carefully un-screw and remove the old cushion. Keep the screws for re-installation if they are in good condition, or use new ones if provided or necessary.

3. **Position New Cushion:** Align the new Wise 8WD159-R-S Replacement Seat Cushion with the existing seat hinge and mounting points on the cooler seat frame.
4. **Secure New Cushion:** Re-mount the new seat cushion by fastening it into the existing seat hinge using the appropriate screws. Ensure the cushion is securely attached and does not wobble.

OPERATING AND USAGE

The Wise 8WD159-R-S Replacement Seat Cushion serves as a comfortable seating surface for your marine cooler seat. While there are no complex "operations" for a cushion, proper usage ensures its longevity and comfort.

- **Intended Use:** This cushion is designed for seating purposes on the specified Wise 50 Quart Swingback Cooler Seat.
- **Weight Distribution:** Distribute weight evenly when sitting to prevent undue stress on specific areas of the cushion or its mounting points.
- **Environmental Exposure:** The cushion is engineered for offshore use and can withstand normal marine environment conditions, including sun, heat, and rain. However, prolonged exposure to extreme conditions without proper care may affect its lifespan.

MAINTENANCE AND CARE

Regular maintenance will help preserve the appearance and extend the life of your Wise Replacement Seat Cushion.

Cleaning Instructions:

- **Routine Cleaning:** For general dirt and grime, wipe the vinyl surface with a soft cloth dampened with mild soap and

water. Rinse thoroughly with clean water and allow to air dry.

- **Stubborn Stains:** For more stubborn stains, a marine vinyl cleaner specifically designed for boat upholstery can be used. Always follow the cleaner manufacturer's instructions and test on an inconspicuous area first.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, bleach, or solvents, as these can damage the vinyl material and stitching.
- **Protection:** Consider using a marine vinyl protectant periodically to help guard against UV damage and maintain the suppleness of the vinyl.

Storage:

If the cooler seat is stored for extended periods, especially in harsh weather, covering it or storing it indoors can further protect the cushion from environmental wear.

TROUBLESHOOTING

This section addresses common concerns regarding the replacement seat cushion.

Cushion Does Not Fit:

- **Verify Model Number:** Ensure your cooler seat frame is the Wise 8WD159-784 Swingback 50 Quart Cooler Seat, for which this cushion (8WD159-R-S) is designed.
- **Check Dimensions:** Compare the dimensions of your existing cushion or cooler seat frame's seating area with the specified dimensions of the replacement cushion. The replacement seat cushion dimensions are approximately: Thickness: 3", Width: 29", Depth: 18".
- **Incorrect Alignment:** During installation, ensure the cushion is correctly aligned with the mounting points before attempting to secure it. Do not force the cushion into place.
