Hot Wheels Track Builder Crossroad Crash Stunt Pack Instruction Manual

Introduction

Welcome to the Hot Wheels Track Builder Crossroad Crash Stunt Pack. This instruction manual provides essential information for the assembly, operation, and maintenance of your new track component. Designed to integrate seamlessly with other Hot Wheels Track Builder sets, this stunt pack introduces an exciting crossroad crash element to your custom track layouts.

Safety Information

- **Age Recommendation:** This product is recommended for ages 36 months to 12 years. Not suitable for children under 3 years due to small parts.
- **Adult Supervision:** Adult supervision is recommended during assembly and play.
- **Choking Hazard:** Keep small parts away from young children.
- **Proper Use:** Use only with official Hot Wheels vehicles and track components. Do not modify the product.
- **Clear Play Area:** Ensure the play area is clear of obstacles to prevent accidents during car launches and stunts.

Package Contents

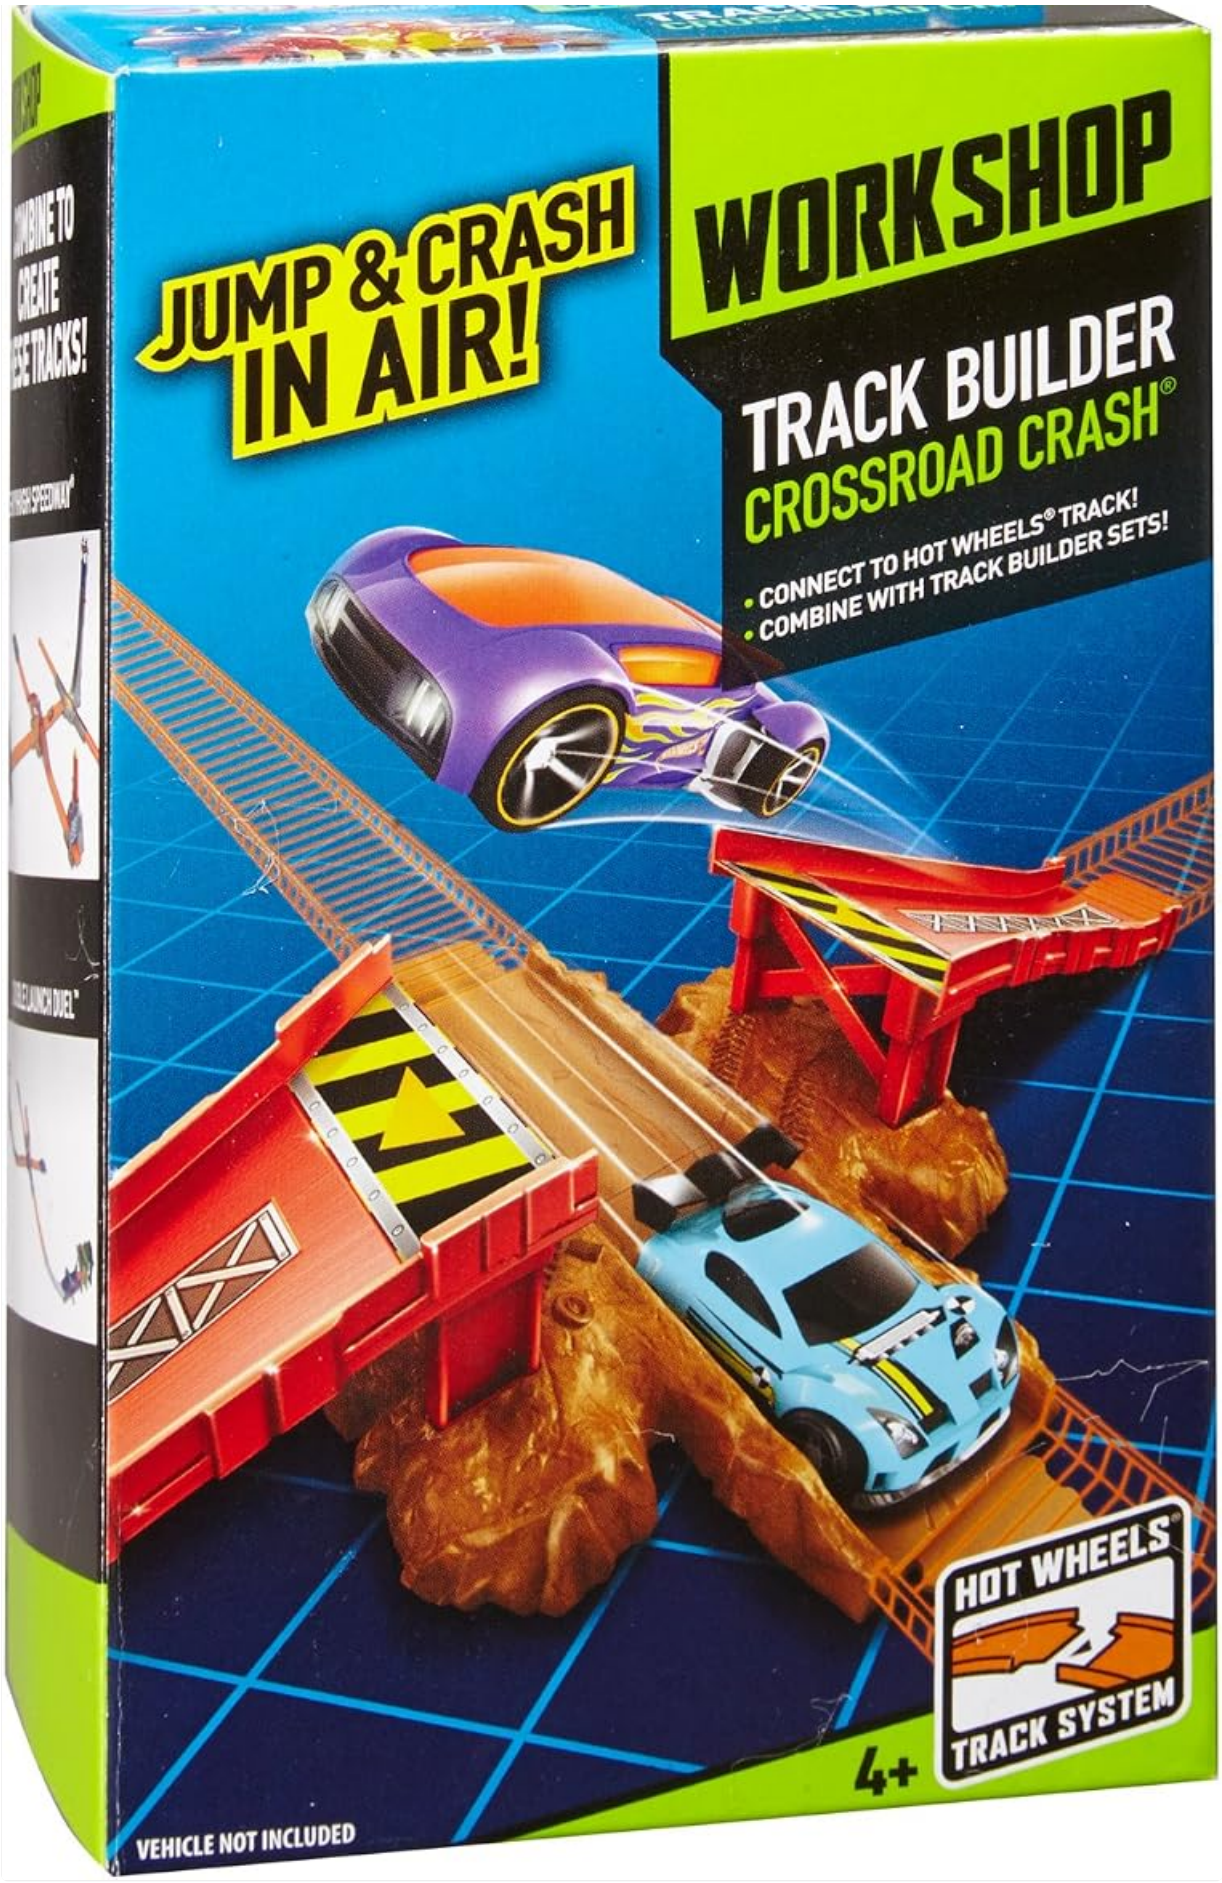

Image: Front view of the Hot Wheels Track Builder Crossroad Crash Stunt Pack packaging.

The package contains the Hot Wheels Track Builder Crossroad Crash Stunt Pack. Please check that all components are present and undamaged upon opening.

Product Overview

Image: Top-down view of the assembled Hot Wheels Track Builder Crossroad Crash Stunt Pack, showing the two ramps and central crash zone.

The Crossroad Crash Stunt Pack features an intersection with two ramps designed for cars to jump and potentially collide. It is a modular piece intended to be connected to existing Hot Wheels orange track sections.

Setup Instructions

Assembly of the Crossroad Crash Stunt

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Identify Parts:** The stunt pack consists of a central crash zone and two ramp sections.
3. **Connect Ramps:** Attach the two ramp sections to the designated connection points on the central crash zone. Ensure they click securely into place.
4. **Integrate with Track:** Connect standard Hot Wheels orange track pieces to the ends of the ramps. The stunt can be placed at any point in your track layout where a jump and potential collision are desired.

Building a Track Layout

The Crossroad Crash Stunt Pack is designed to be part of a larger Hot Wheels Track Builder system. Experiment with different track configurations to create unique challenges. Ensure sufficient track length before and after the stunt for optimal car speed and recovery.

Operating Instructions

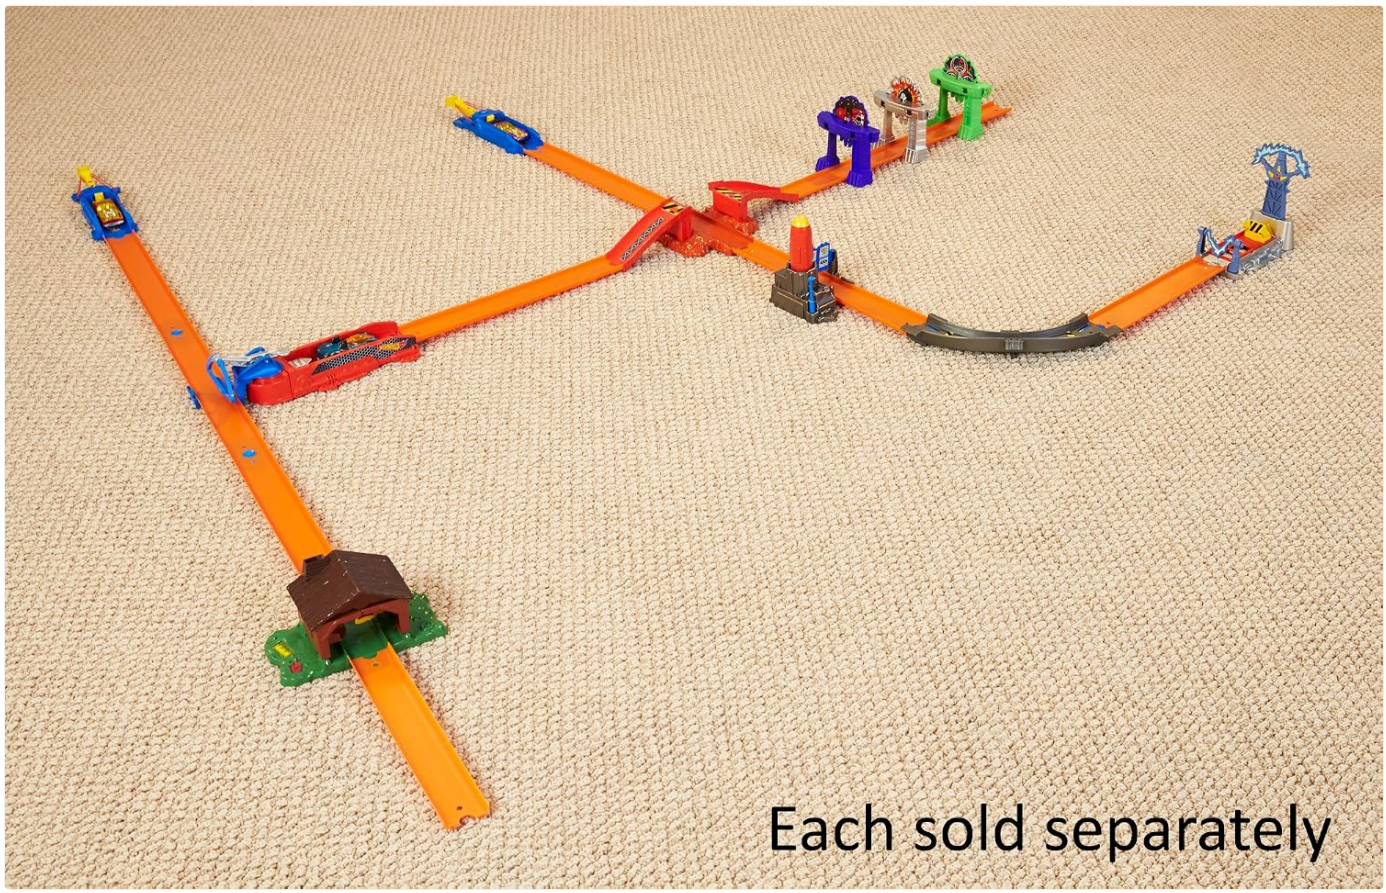

Image: A child interacting with a large Hot Wheels track setup that incorporates the Crossroad Crash stunt, demonstrating active play.

Performing the Crossroad Crash Stunt

1. **Place Car:** Position a Hot Wheels vehicle on the track leading up to one of the ramps.
2. **Launch Car:** Use a launcher (sold separately) or gravity to propel the car towards the ramp.
3. **Timing the Jump:** For a successful jump, the car needs adequate speed to clear the gap and land on the opposite ramp.
4. **Crossroad Collision:** For a crossroad crash, launch two cars simultaneously from opposing ramps. The goal is to time their jumps so they collide in the central crash zone.
5. **Experiment:** Adjust launcher power, track angles, and car types to achieve different stunt outcomes.

Visual Demonstration

Your browser does not support the video tag.

Video: This video demonstrates various Hot Wheels Track Builder stunts, including launchers, loops, and crash zones, showcasing how different components interact within a track system.

Compatibility

Image: A collection of different Hot Wheels Track Builder stunt components, illustrating the modular nature of the system.

The Hot Wheels Track Builder Crossroad Crash Stunt Pack is fully compatible with other components of the Hot Wheels Track Builder system. It connects to any standard orange Hot Wheels track, allowing for extensive customization and expansion of your track layouts. Combine with additional stunt packs, launchers, and track pieces to create complex and dynamic racing environments.

Maintenance

- **Cleaning:** Wipe the track components with a dry or slightly damp cloth to remove dust and dirt. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the stunt pack and other track components in a cool, dry place away from direct sunlight when not in use.
- **Inspection:** Periodically inspect all parts for wear, damage, or loose connections. Discontinue use if any part is broken or damaged.

Troubleshooting

Problem	Solution
Cars do not clear the jump.	Ensure the car has sufficient speed. Check the launcher (if used) for proper function. Adjust the angle or length of the track leading to the jump.
Cars frequently crash before the stunt.	Verify all track connections are secure and smooth. Check for any obstructions on the track. Ensure cars are launched straight.
Components do not connect securely.	Ensure parts are aligned correctly before pushing them together. Apply gentle, firm pressure until a click is heard or felt. Do not force connections.

Specifications

Feature	Detail

Feature	Detail
Product Dimensions	4 x 2.25 x 8.5 inches
Item Weight	4.8 ounces
Model Number	BGX68
Manufacturer Recommended Age	36 months - 12 years
Manufacturer	Mattel

Warranty and Support

For information regarding warranty, replacement parts, or customer support, please refer to the official Mattel website or contact their customer service directly. Keep your purchase receipt as proof of purchase.
