Manfrotto MB MA-BP-TS

Manfrotto MB MA-BP-TS Advanced Tri Backpack Small Instruction Manual

Model: MB MA-BP-TS

Introduction Key Features Setup Operation Maintenance Troubleshooting Specifications Warranty & Support

1. Introduction

The Manfrotto MB MA-BP-TS Advanced Tri Backpack Small is designed for photographers requiring versatile carrying options and secure storage for their camera gear. This manual provides instructions for the proper setup, operation, and maintenance of your backpack to ensure optimal performance and longevity.

2. Key Features

- Three carrying options: Backpack, Sling bag (left or right-handed), and "X" position.
- Padded inner dividers for customizable gear organization.
- Designed to hold a Pro DSLR with attached lens, 1-2 additional lenses, and an LED light.
- Top compartment for personal items.
- Includes a rain cover for weather protection.

3. Setup

3.1 Internal Configuration

The main camera compartment features modular padded dividers. These dividers can be rearranged to securely fit your specific camera body, lenses, and accessories. Ensure all gear is snugly fitted to prevent movement during transport.

3.2 Carrying Options

The backpack offers three primary carrying configurations:

1. **Backpack Mode:** Use both shoulder straps for balanced weight distribution. Adjust straps for comfort.
2. **Sling Bag Mode:** Convert one shoulder strap into a cross-body sling for quick access to gear.
3. **"X" Position:** A variation of the backpack mode where straps cross for enhanced stability.

4. Operation

4.1 Accessing Gear

The unique design allows for quick access to your camera gear. When worn as a sling bag, simply swing the pack to your front and open the main compartment zipper. This allows you to retrieve your camera without fully removing the bag.

4.2 Attaching a Tripod

The front of the backpack includes straps designed to secure a small-sized tripod. Ensure the tripod is firmly attached to prevent it from shifting during movement.

4.3 Using the Rain Cover

In adverse weather conditions, deploy the integrated rain cover to protect your equipment from moisture. The rain cover is typically stored in a dedicated pocket.

5. Maintenance

- **Cleaning:** Spot clean with a damp cloth and mild soap. Do not machine wash or tumble dry.
- **Drying:** Allow the backpack to air dry completely before storing, especially after using the rain cover or if it gets wet.
- **Storage:** Store in a cool, dry place away from direct sunlight when not in use.
- **Zippers:** Periodically check zippers for smooth operation. Lubricate with a zipper lubricant if they become stiff.

6. Troubleshooting

- **Difficulty adjusting straps:** Ensure buckles are fully disengaged before attempting to adjust. Check for any twists in the webbing.
- **Gear not fitting:** Reconfigure the internal padded dividers to optimize space for your specific equipment. Remove unnecessary dividers if more space is needed.
- **Bag feels unbalanced:** Distribute weight evenly within the compartments. Adjust shoulder straps to ensure the bag sits comfortably on your back or across your body.

7. Specifications

Product Dimensions	8.7 x 8.3 x 16.1 inches
Item Weight	1.8 pounds
Model Number	MB MA-BP-TS
Manufacturer	Manfrotto
