EGLO 20131A

EGLO Troy 1-Light Wall Sconce Instruction Manual

Model: 20131A

Brand: EGLO

INTRODUCTION

The EGLO Troy 1-Light Wall Sconce is a versatile lighting fixture designed to enhance the aesthetic of any interior space. Its clean and simple design features smooth, frosted glass complemented by matte nickel finishing screws, offering a modern and minimalist touch. This fixture is suitable for various locations, including hallways, bedrooms, foyers, and is approved for use in damp locations such as bathrooms.

This manual provides essential information for the safe and proper installation, operation, and maintenance of your EGLO Troy wall sconce.

SAFETY INFORMATION

Please read all instructions carefully before beginning installation. Failure to follow these instructions may result in electric shock, fire, or other hazards that could cause injury or property damage.

- Always disconnect power at the main circuit breaker before installation or servicing.
- Consult a qualified electrician if you are unsure about the installation process or local electrical codes.
- Ensure all electrical connections are made in accordance with local codes, ordinances, and the National Electric Code (NEC).
- This fixture is designed for indoor use and is approved for damp locations. Do not install in areas with direct water exposure.
- Do not exceed the maximum wattage specified for the bulb.

- Handle glass components with care to prevent breakage.
- Please check your local laws before purchasing and installing this product.

PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- 1 x EGLO Troy 1-Light Wall Sconce (Fixture with Shade)
- Mounting Hardware (screws, wire nuts, mounting plate)
- Instruction Manual (this document)

Note: Bulb is sold separately. This fixture requires one 60-Watt, T-10 bulb with an E26 Medium base.

SETUP AND INSTALLATION

For detailed installation instructions, please refer to the official Installation Manual (PDF) available for download. A general overview is provided below.

Tools Required (Not Included): Screwdriver, wire strippers, electrical tape, voltage tester, safety glasses.

1. **Turn Off Power:** Locate the circuit breaker controlling the light fixture's location and turn off the power. Verify power is off using a voltage tester.
2. **Prepare Mounting Surface:** Ensure the electrical box is securely mounted and ready for the fixture.
3. **Attach Mounting Plate:** Secure the fixture's mounting plate to the electrical box using the provided screws. Ensure it is level.
4. **Make Electrical Connections:** Connect the fixture's wires to the house wires according to standard electrical codes (usually black to black, white to white, and ground to ground). Use wire nuts to secure connections.
5. **Mount Fixture:** Carefully align the fixture with the mounting plate and secure it using the provided screws or nuts.
6. **Install Bulb:** Insert one 60-Watt max, T-10 bulb with an E26 Medium base into the socket.
7. **Secure Glass Shade:** Attach the frosted glass shade to the fixture using the matte nickel finishing screws. Ensure it is snug but do not overtighten.
8. **Restore Power:** Turn the power back on at the main circuit breaker.

OPERATING INSTRUCTIONS

The EGLO Troy wall sconce is designed for simple operation once installed.

- **Power On/Off:** Operate the light fixture using your standard wall switch.

- **Dimming Functionality:** This fixture is dimmable when used with a compatible dimmable bulb and a compatible dimmer switch. Adjust the dimmer switch to achieve your desired light intensity. The control method is typically touch-based on the dimmer switch itself.

MAINTENANCE

Regular cleaning and proper care will help maintain the appearance and functionality of your EGLO Troy wall sconce.

- **Cleaning:** Disconnect power before cleaning. Wipe the fixture with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by drying. Avoid abrasive cleaners, solvents, or polishes as they may damage the finish or glass.
- **Bulb Replacement:** Ensure power is off before replacing the bulb. Carefully remove the glass shade by unscrewing the matte nickel finishing screws. Replace the old bulb with a new 60-Watt max, T-10 bulb with an E26 Medium base. Reattach the glass shade securely.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture; Loose wiring; Faulty bulb; Faulty switch.	Check circuit breaker. Ensure all wire connections are secure. Replace bulb. Test or replace switch.
Light flickers or dims unexpectedly.	Loose bulb; Incompatible dimmer/bulb; Loose wiring.	Tighten bulb. Ensure dimmer and bulb are compatible. Check wiring connections.
Fixture is hot to the touch.	Bulb wattage too high.	Replace bulb with one that meets the specified wattage (max 60W).

If you encounter issues not listed here or if troubleshooting steps do not resolve the problem, it is recommended to consult a qualified electrician for assistance.
