Melitta 600

Melitta Basket Coffee Filters (600 Count) - Instruction Manual

INTRODUCTION

Thank you for choosing Melitta Basket Coffee Filters. These filters are designed to provide a clean and flavorful coffee brewing experience. This manual provides essential information on the proper use, maintenance, and specifications of your Melitta coffee filters.

PRODUCT OVERVIEW

Melitta Basket Coffee Filters are crafted from high-quality paper, ensuring durability and effective filtration. This pack contains 600 filters, suitable for most 8-12 cup basket-type household coffeemakers.

SETUP

- 1. Prepare your coffeemaker:** Ensure your coffeemaker's filter basket is clean and free from previous coffee grounds.
- 2. Insert the filter:** Take one Melitta basket coffee filter and place it into the coffeemaker's filter basket.

Ensure the filter sits snugly against the sides of the basket.

3. **Add coffee grounds:** Measure your desired amount of coffee grounds and pour them evenly into the filter.

OPERATING INSTRUCTIONS

After setting up the filter and adding coffee grounds, proceed with your coffeemaker's standard brewing process. These filters are designed to prevent grounds from entering your brewed coffee, ensuring a

smooth cup.

Maintenance

After brewing, carefully remove the filter basket from your coffeemaker. Dispose of the used coffee filter and grounds in your compost or trash. The paper filters are biodegradable, making disposal environmentally friendly.

Troubleshooting

- Filter collapse:** Ensure the filter is fully opened and seated correctly in the basket before adding grounds and water. Overfilling the filter basket can also cause collapse.
- Sediment in coffee:** If you notice coffee grounds in your brewed coffee, check that the filter is not torn or improperly placed. Ensure the coffee grind size is appropriate for your coffeemaker.

Specifications

Brand	Melitta
Model Number	600
Material	Paper
Shape	Basket
Number of Pieces	600
