## 3. SETUP

The Amazon Basics hangers require minimal setup. Upon receiving your pack:

1. Carefully remove the hangers from their packaging.
2. If hangers are stuck together due to the velvet flocking, gently wiggle them apart. This is normal and does not indicate a defect.
3. Inspect each hanger for any visible damage.
4. Hang them on your closet rod, ready for use.

## 4. OPERATING INSTRUCTIONS

---

Using your velvet hangers effectively will help maintain your clothes and organize your closet:

- **Hanging Garments:** Place shirts, blouses, dresses, and jackets over the main body of the hanger. The velvet surface will grip the fabric, preventing slippage.
- **Strappy Items:** Utilize the notched shoulders for garments with straps, such as camisoles or dresses, to keep them from falling.
- **Pants and Skirts:** Pants can be folded over the bottom bar of the hanger. For skirts, consider using skirt clips (not included) that attach to the hanger.
- **Weight Capacity:** While sturdy, avoid overloading hangers. Each hanger is designed to hold up to 10 pounds. Distribute weight evenly.
- **Maximizing Space:** Due to their slim design, these hangers allow for more clothes to be stored in the same closet space compared to bulkier hangers.

## 5. MAINTENANCE

To keep your hangers in optimal condition and prevent transfer of velvet fibers to clothing:

- **Initial Cleaning:** Before first use, especially with light-colored garments, gently wipe the hangers with a damp cloth to remove any loose velvet fibers. Allow them to air dry completely.
- **Regular Cleaning:** If dust or lint accumulates, use a lint roller or a soft, damp cloth to clean the velvet surface.
- **Avoid Wet Clothes:** Do not hang wet or damp clothes on velvet hangers, as this can cause the velvet to transfer color or shed excessively.
- **Storage:** Store hangers in a dry environment when not in use.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Velvet fibers transferring to clothes.	New hangers may have loose fibers; hanging wet clothes.	Wipe hangers with a damp cloth before first use. Ensure clothes are dry before hanging.
Clothes slipping off.	Hanger overloaded; extremely slippery fabric.	Ensure garment weight is within 10 lbs limit. For very slippery items, ensure they are properly positioned on the velvet surface or use the notches.
Hanger bending or breaking.	Exceeding weight capacity.	Do not exceed the 10-pound weight limit per hanger. Use multiple hangers for heavier items if necessary.
