GermGuardian H1510

PureGuardian H1510 Ultrasonic Warm and Cool Mist Humidifier Instruction Manual

Model: H1510

INTRODUCTION

The PureGuardian H1510 Ultrasonic Warm and Cool Mist Humidifier is designed to help alleviate issues caused by dry air in the home. This unit features a large 1.5-gallon tank, providing up to 100 hours of run time on a low setting, making it suitable for medium-sized rooms. It incorporates Silver Clean Protection within the tank to inhibit the growth of mold and mildew on the tank's surface. Utilizing ultrasonic technology, the humidifier disperses a fine mist quietly, offering both warm and cool mist options, a night light, and variable mist control. A low water indicator light signals when the tank requires refilling.

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before using the appliance.
2. Always place the humidifier on a firm, flat, level surface.
3. Keep the power cord away from heated surfaces.
4. Never operate the humidifier without water in the tank.
5. Do not use attachments not recommended by the manufacturer.
6. Never drop or insert any object into any opening.
7. Do not operate in the presence of explosive and/or flammable fumes.
8. Unplug the humidifier from the power outlet when not in use and before cleaning.
9. Do not allow children to operate the humidifier without adult supervision.
10. Do not use outdoors. This humidifier is for indoor use only.

PRODUCT OVERVIEW AND COMPONENTS

Familiarize yourself with the various parts of your PureGuardian H1510 Humidifier.

SETUP

1. **Unpack:** Carefully remove the humidifier from its packaging.
2. **Placement:** Place the humidifier on a firm, flat, water-resistant surface at least 12 inches away from walls and appliances.
3. **Fill Water Tank:**
 - Remove the water tank from the base.
 - Unscrew the fill cap at the bottom of the tank.
 - Fill the tank with clean, cool tap water. Distilled water is recommended to prevent mineral buildup.
 - Securely screw the fill cap back onto the tank.
 - Place the filled water tank back onto the humidifier base, ensuring it is seated correctly.
4. **Connect Power:** Plug the power cord into a standard electrical outlet.

OPERATING INSTRUCTIONS

Follow these steps to operate your humidifier:

1. **Power On:** Press the power button on the control panel. The power indicator light will illuminate.
2. **Select Mist Type:** Use the warm/cool mist selector to choose your desired mist type.
3. **Adjust Mist Output:** Rotate the mist output dial to adjust the intensity of the mist from low to high.
4. **Night Light (Optional):** Press the night light button to turn the soft blue night light on or off.
5. **Timer (Optional):** If available on your model, use the timer button to set the operating duration (e.g., 4, 8, or 12 hours).
6. **Low Water Indication:** When the water level in the tank is low, the low water indicator light will turn on, and the unit will automatically shut off. Refill the tank to resume operation.

MAINTENANCE

Regular cleaning is essential to maintain optimal performance and hygiene of your humidifier.

1. Daily Maintenance:

- Empty any remaining water from the tank and base.
- Rinse the water tank and base with clean water.
- Allow all parts to air dry before reassembling or storing.

2. Weekly Maintenance:

- **Descaling:** To remove mineral buildup, fill the water tank with a mixture of equal parts white vinegar and water. Let it sit for 20-30 minutes, then rinse thoroughly.
- **Cleaning the Base:** Use a soft cloth or the provided cleaning brush to gently clean the ultrasonic transducer and heating element (if applicable) in the base. Do not use abrasive cleaners.
- **Silver Clean Protection:** The Silver Clean Protection embedded in the tank helps prevent mold and mildew growth. However, regular cleaning is still recommended.

3. Storage:

When storing the humidifier, ensure all parts are clean and dry. Store in a cool, dry place.

TROUBLESHOOTING

If your humidifier is not operating as expected, refer to the following common issues and solutions:

Problem	Possible Cause	Solution
No mist or low mist output	Water tank empty; unit not plugged in; mist output dial set too low; mineral buildup on transducer.	Refill water tank; ensure unit is plugged in; increase mist output; clean transducer as per maintenance instructions.
Unusual odor	Dirty water or tank; new unit odor.	Clean tank and base thoroughly; initial odor should dissipate after a few uses.
Water leakage	Water tank cap not tightened; tank not seated correctly; unit on an uneven surface.	Ensure tank cap is tight; re-seat tank firmly on base; place unit on a flat, level surface.
White dust around humidifier	Hard water used.	Use distilled or demineralized water. Clean the area around the humidifier.

SPECIFICATIONS

- **Model Number:** H1510
- **Product Dimensions:** 7.16 x 13.66 x 10.82 inches
- **Weight:** 4.8 Pounds
- **Capacity:** 1.5 Gallons
- **Floor Area Coverage:** Up to 630 Square Feet
- **Run Time:** Up to 100 hours on low speed
- **Special Features:** Warm and Cool Mist, Filter-Free, Silver Clean Protection, Night Light, Variable Mist Control, Auto Shut-off.
