3. Setup and Installation

3.1. Shield Installation

To install or replace your HJ-09 helmet shield, follow these steps. For visual guidance, please refer to the embedded video below.

1. Open the shield fully to its uppermost position.
2. Locate the base plate levers on both sides of the helmet.
3. Pull back on the base plate lever while gently pulling the shield outwards and away from the helmet to release it. Repeat for the other side.
4. To install the new shield, align the top tab of the shield with the top slot on the base plate.
5. Push inward on the shield until it clicks securely into place. Repeat for the other side.
6. Ensure both sides are properly secured before use.

3.2. Pinlock System (If Applicable)

The HJ-09 shield is Pinlock ready. A Pinlock lens (sold separately) creates an airtight chamber between the shield and the lens, preventing fogging. The eccentric pins allow for adjustment to ensure a proper seal.

4. Operating Considerations

The Dark Smoke tint of this shield is designed for use in bright daylight conditions. It significantly reduces light transmission and is **not recommended for night use or in low-light conditions**, as it may impair visibility and compromise safety.

4.1. Tint Options

Various tint options are available for the HJ-09 shield to suit different riding conditions and personal preferences. These include Deep Smoke, Mirrored/Silver, Smoke Revo Red, Blue, Rainbow, Light Smoke, and Gold.

5. Maintenance

Proper maintenance ensures the longevity and clarity of your helmet shield.

- **Cleaning:** Use only warm, soapy water and a soft microfiber cloth to clean the shield. Avoid abrasive cleaners

or harsh chemicals, as these can damage the anti-scratch coating and tint.

- **Baseplate Screws:** Periodically check and tighten the baseplate screws to ensure the shield remains securely attached to the helmet.
- **Storage:** Store your helmet and shield in a protective bag or case when not in use to prevent scratches and damage.
