ARIEL BT-150150

ARIEL Platinum BT-150150 Whirlpool Bathtub Instruction Manual

Model: BT-150150

PRODUCT OVERVIEW

The ARIEL Platinum BT-150150 is a sophisticated two-person whirlpool bathtub designed for hydro massage and relaxation. It features a durable acrylic sheet reinforced by fiberglass, ensuring high brightness, strong durability, and easy cleaning. This model includes a built-in microcomputer with an LCD control panel, multiple massage jets, and integrated audio capabilities for an enhanced bathing experience.

Key features include 7 whirlpool massage jets, a hand-held shower head, and a waterproof remote control. The hydro massage system is designed to provide powerful yet comfortable acupuncture massage by evenly mixing water and air streams. The intensity of the whirlpool jets is adjustable to suit individual preferences.

SETUP AND INSTALLATION

Proper installation is crucial for the safe and efficient operation of your ARIEL Platinum BT-150150 Whirlpool Bathtub. It is recommended that installation be performed by a qualified professional.

Electrical Requirements

- The bathtub operates on a **220V** electrical supply. Ensure your electrical system can support this voltage.
- A dedicated circuit with appropriate grounding and a Ground Fault Circuit Interrupter (GFCI) is required for safety. Consult local electrical codes.

Plumbing Connections

- Connect hot and cold water supply lines to the designated inlets on the bathtub.
- Ensure all plumbing connections are secure and leak-free.
- Install the drain assembly according to manufacturer instructions and local plumbing codes.

Placement and Leveling

- The bathtub is designed for alcove installation. Ensure adequate space for maintenance access.
- Place the bathtub on a level, structurally sound surface capable of supporting its weight when filled (approximately 293 pounds dry weight + 119 gallons of water).
- Adjust leveling feet if necessary to ensure the tub is perfectly level.

Image: The ARIEL Platinum Bathtub integrated into a modern bathroom environment, illustrating typical placement.

OPERATING INSTRUCTIONS

Familiarize yourself with the control panel and features before operating the bathtub.

Filling the Bathtub

- Ensure the drain is closed.
- Turn on the hot and cold water faucets to fill the tub to the desired level. Ensure the water level is above the jets before activating the whirlpool system. The tub has a capacity of approximately 119 gallons.

Using the Control Panel and Features

Image: A detailed view of the bathtub's control panel, showing buttons and knobs for various functions.

- **Power On/Off:** Use the main power button on the LCD control panel to turn the system on or off.
- **Whirlpool Jets:** Activate the 7 whirlpool massage jets via the control panel. Adjust the intensity of the hydro massage as desired.
- **Hand-Held Shower Head:** Utilize the integrated hand-held shower head for rinsing or targeted washing.
- **FM Radio/CD Connector:** The built-in microcomputer includes an FM radio. Connect an external CD player or other audio device via the CD connector to enjoy music through the integrated speakers.
- **Waterproof Remote Control:** Use the provided remote control for convenient operation of various functions from within the tub.
- **Lighting:** The tub may feature integrated lighting. Control this feature via the control panel.

MAINTENANCE AND CARE

Regular maintenance will ensure the longevity and optimal performance of your ARIEL Whirlpool Bathtub.

Cleaning the Bathtub Surface

- Clean the acrylic surface with a soft cloth and mild, non-abrasive cleaner.
- Avoid using harsh chemicals, abrasive pads, or solvents, as these can damage the finish.
- For minor scratches, the acrylic surface can often be polished to restore its shine.

Jet and Plumbing System Cleaning

- Periodically fill the tub with warm water and add a small amount of non-foaming, non-abrasive jet cleaner or white vinegar.
- Run the whirlpool system for 10-15 minutes to circulate the cleaning solution through the jets and plumbing.
- Drain the tub and rinse thoroughly with clean water.

General Care

- Wipe down the control panel and fixtures with a soft, damp cloth.
- Ensure the area around the tub is well-ventilated to prevent mold and mildew.
- Do not place heavy or sharp objects on the tub surface to avoid damage.

TROUBLESHOOTING

This section provides solutions to common issues you might encounter.

Problem	Possible Cause	Solution
Whirlpool jets not working.	Not enough water in the tub. Power supply issue. Motor overload protection activated.	Ensure water level is above all jets. Check electrical connections and GFCI. Turn off the system, wait 15 minutes, then restart.
No power to the control panel.	Power cord unplugged. Circuit breaker tripped. GFCI tripped.	Check power connection. Reset the circuit breaker. Reset the GFCI. If it trips repeatedly, consult an electrician.

Problem	Possible Cause	Solution
Water leaking from connections.	Loose plumbing connections. Damaged seals.	Tighten all visible plumbing connections. If leaks persist, contact a qualified plumber or customer support.
Radio/audio not working.	Incorrect source selected. Poor signal reception. External device not connected properly.	Ensure FM radio or CD input is selected. Adjust antenna if possible, or try different stations. Verify external device is correctly plugged into the CD connector.

SPECIFICATIONS

Detailed technical specifications for the ARIEL Platinum BT-150150 Whirlpool Bathtub.

Model Number: BT-150150

Dimensions (L x W x H): 61" x 61" x 26.9"

Material: Acrylic, Fiberglass

Color: White

Installation Type: Alcove

Capacity: 119 Gallons

Item Weight (Dry): 293 Pounds

Voltage: 220 Volts

Number of Jets: 7 Whirlpool Massage Jets

Control System: Built-In Micro Computer w/ LCD Control Panel

Additional Features: FM Radio/CD Connector, Hand Held Shower Head, Waterproof Remote Control, Speakers and Microphone, 5mm Tempered Glass.

UPC: 816606013272
