ANKARSRUM N25-N30

ANKARSRUM Original Aluminium Dough Hook Accessory User Manual

For ANKARSRUM Mixer Models N25-N30

1. INTRODUCTION

This manual provides essential instructions for the proper use, maintenance, and care of your ANKARSRUM Original Aluminium Dough Hook Accessory. Designed for use with ANKARSRUM mixer models N25-N30, this accessory is crafted to efficiently knead various types of dough. Please read this manual thoroughly before first use to ensure optimal performance and longevity of your accessory.

2. PRODUCT OVERVIEW

The ANKARSRUM Original Aluminium Dough Hook is a robust attachment specifically designed for heavy-duty dough kneading. Its unique shape and durable aluminum construction ensure effective mixing and development of gluten in bread doughs, pizza doughs, and other similar preparations.

Figure 1: The ANKARSRUM Original Aluminium Dough Hook. This image displays the curved metallic design of the dough hook, highlighting its robust construction and the attachment point for the mixer.

3. SETUP

1. **Ensure Mixer is Off:** Before attaching or detaching any accessories, always ensure your ANKARSRUM mixer is turned off and unplugged from the power outlet for safety.
2. **Prepare the Bowl:** Place the mixing bowl onto the mixer base.
3. **Attach the Dough Hook:** Carefully align the dough hook with the attachment point on the mixer's drive shaft. Push the hook firmly onto the shaft until it is securely seated. Ensure it clicks into place or is otherwise firmly attached according to your mixer's specific design.
4. **Verify Attachment:** Gently tug on the dough hook to confirm it is securely fastened and will not detach during operation.

4. OPERATING INSTRUCTIONS

1. **Add Ingredients:** Place all your dough ingredients into the mixing bowl.

2. **Position the Arm:** Lower the mixer arm into the bowl, ensuring the dough hook is positioned correctly to engage with the dough.
3. **Start Mixing:** Plug in the mixer and turn it on to the lowest speed setting. Gradually increase the speed as the ingredients combine and the dough begins to form.
4. **Kneading Process:** Allow the dough hook to knead the dough for the time specified in your recipe. Monitor the dough's consistency; it should become smooth and elastic.
5. **Stop and Remove:** Once kneading is complete, turn off the mixer and unplug it. Raise the mixer arm and carefully remove the dough hook from the drive shaft.

Important: Do not overload the mixer. Refer to your ANKARSRUM mixer's main instruction manual for maximum capacity guidelines for dough. Always supervise the mixer during operation.

5. MAINTENANCE AND CARE

- **Cleaning:** After each use, immediately remove any dough residue from the hook. The aluminium dough hook should be hand-washed with warm, soapy water. Rinse thoroughly and dry completely to prevent water spots or corrosion.
- **Dishwasher Use:** This aluminium accessory is **not** dishwasher safe. High temperatures and harsh detergents in dishwashers can cause discoloration and damage to the aluminium finish.
- **Storage:** Store the dough hook in a clean, dry place, away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the dough hook for any signs of wear, damage, or bending. If any damage is observed, discontinue use and consider replacement.

6. TROUBLESHOOTING

Dough Hook Not Attaching Securely:

Ensure the mixer is unplugged. Check for any obstructions on the drive shaft or inside the dough hook's attachment point. Verify that the hook is correctly aligned and pushed firmly into place.

Dough Not Kneading Effectively:

Ensure the dough hook is clean and free from dried dough. Check that the mixer speed is appropriate for the type of dough being kneaded. Verify that the quantity of ingredients is within the mixer's capacity limits.

Discoloration of Dough Hook:

This is often caused by dishwasher use or exposure to harsh chemicals. Hand wash only with mild soap and warm water. Discoloration typically does not affect performance but indicates improper care.

7. SPECIFICATIONS

- **Product Type:** Dough Hook Accessory
- **Brand:** ANKARSRUM
- **Model Compatibility:** ANKARSRUM Mixer Models N25-N30
- **Material:** Aluminium
- **Dimensions:** Approximately 24L x 24W Centimetres (as per product data, note: this might refer to packaging or overall footprint rather than the hook itself)
- **ASIN:** B00GP2UWB4
