- Exclusive Hydro Flush & 3-in-1 Stainless Steel Nozzle

The Bio Bidet BB2000 Bliss Electric Bidet Toilet Seat, showcasing its sleek design and accompanying wireless remote control.

Installation Guide

The Bio Bidet BB2000 is designed for easy DIY installation. Follow these steps carefully to ensure proper setup.

1. Turn off the water shut-off valve.
2. Remove your existing toilet seat.
3. Install the catch plate and slide the bidet seat on.
4. Connect the toilet and bidet hoses.
5. Plug the power cord into a GFCI outlet.

This diagram illustrates the simple five-step process for installing the bidet seat, including turning off water, removing the old seat, installing

the catch plate, connecting hoses, and plugging into a GFCI outlet.

Operating Your Bidet Seat

The BB2000 features a comprehensive wireless remote control for easy operation of all functions. Familiarize yourself with the remote and its capabilities.

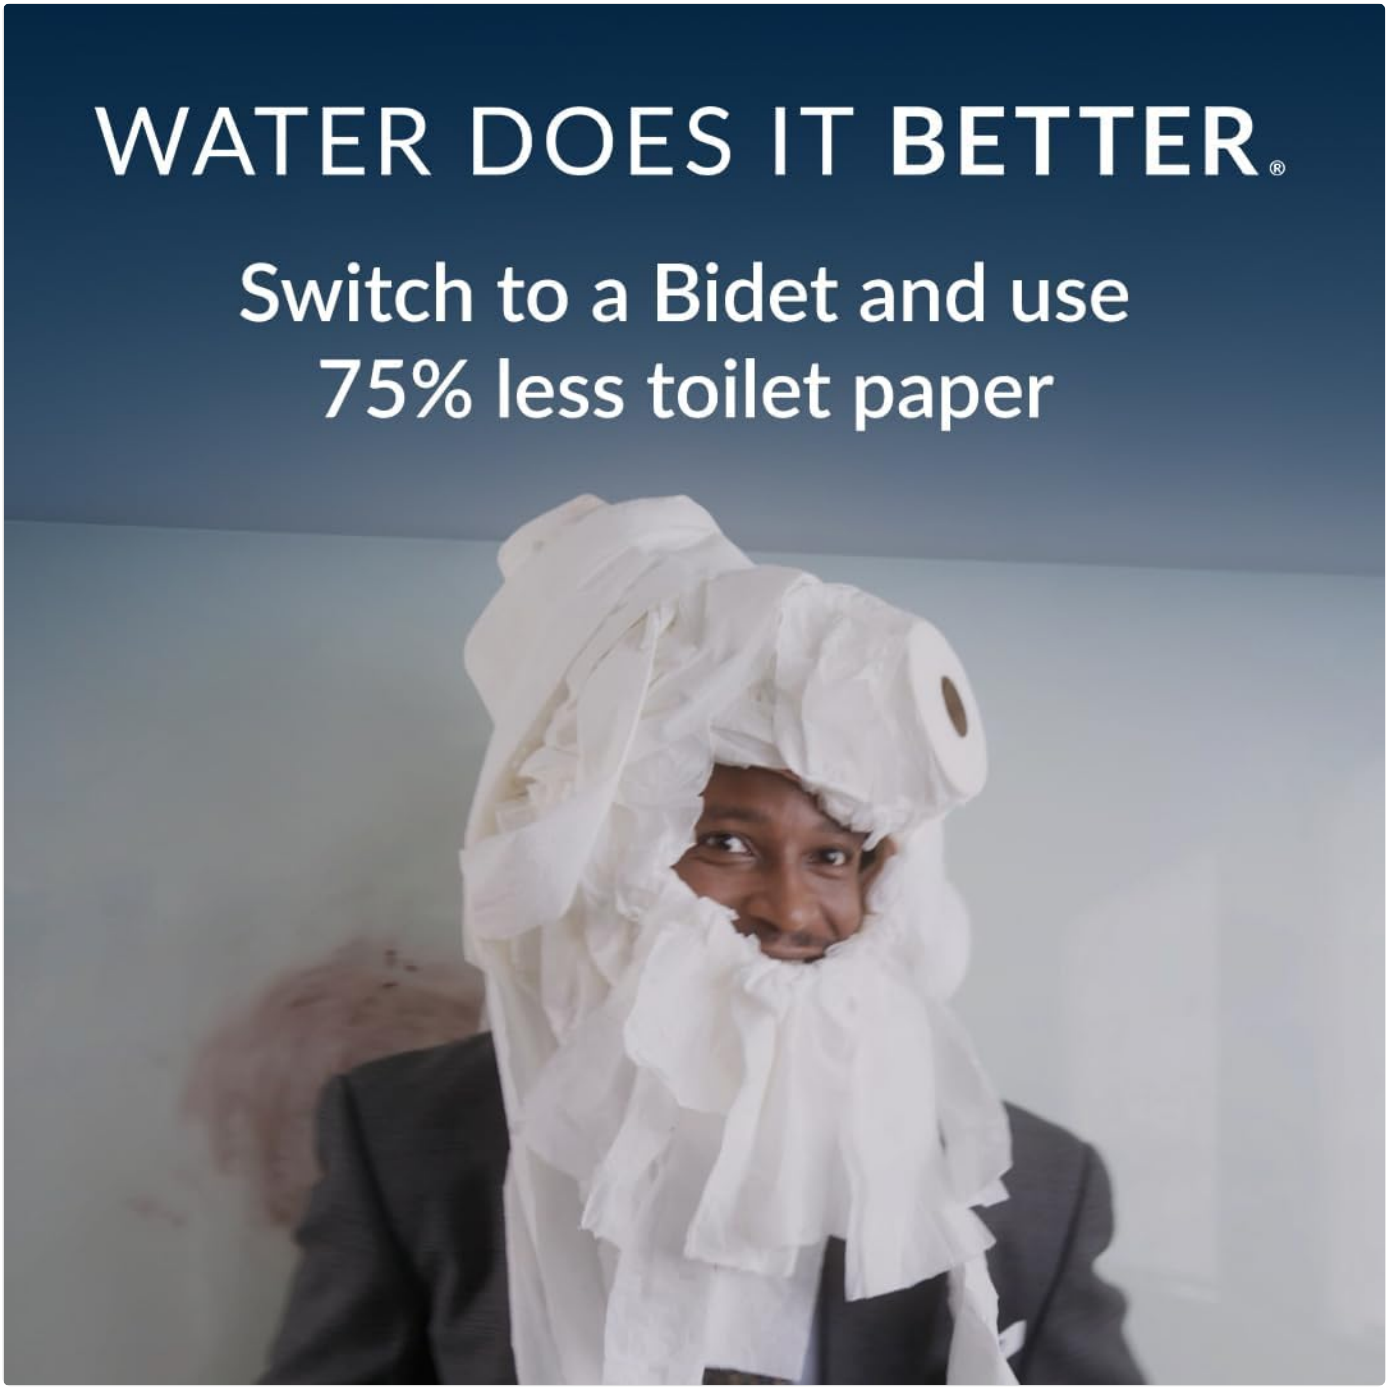

Remote Control Features:

- **Stop:** Halts all current operations.
- **Rear Wash:** Activates the posterior wash.
- **Front Wash:** Activates the feminine wash.
- **Warm Air Dryer:** Activates the warm air drying function.
- **Vortex Wash:** Provides a powerful, concentrated wash with higher water pressure.
- **Nozzle Oscillation:** Moves the nozzle back and forth for a wider cleaning experience.
- **Massage:** Pulsating spray for a soothing experience.
- **Deodorizer:** Automatically activates to reduce odors.
- **Adjustable Water Temp:** Adjusts water temperature (Low, Medium, High).
- **Adjustable Seat Temp:** Adjusts seat temperature (Low, Medium, High, Off).
- **Adjustable Water Pressure:** Adjusts the water spray intensity.
- **Adjustable Nozzle Position:** Adjusts the nozzle position forward or backward.
- **Clock:** Displays the current time.
- **Energy Saving Mode:** Reduces power consumption when not in use.

The wireless remote provides full control over all bidet functions, including various wash modes, temperature settings, and energy-saving options.

Wash Modes:

The 3-in-1 stainless steel nozzle offers specialized wash modes: Rear Wash for general cleansing, Front Wash for feminine hygiene, and Vortex Wash for a powerful, concentrated stream.

Comfort Features:

This image details the integrated features such as the slow-closing seat and lid, a soothing night light, a powerful deodorizer, and a comfortable heated seat with a smart sensor.

Care and Maintenance

To ensure longevity and optimal performance of your Bio Bidet BB2000, follow these cleaning guidelines:

- Use a soft, damp cloth and mild detergent for regular cleaning.
- Do not use harsh chemicals, abrasive cleaners, or brushes as they may damage the surface.
- Ensure the unit is unplugged before deep cleaning.
- Refer to the "Cleaning Instructions" on the product label for specific details.

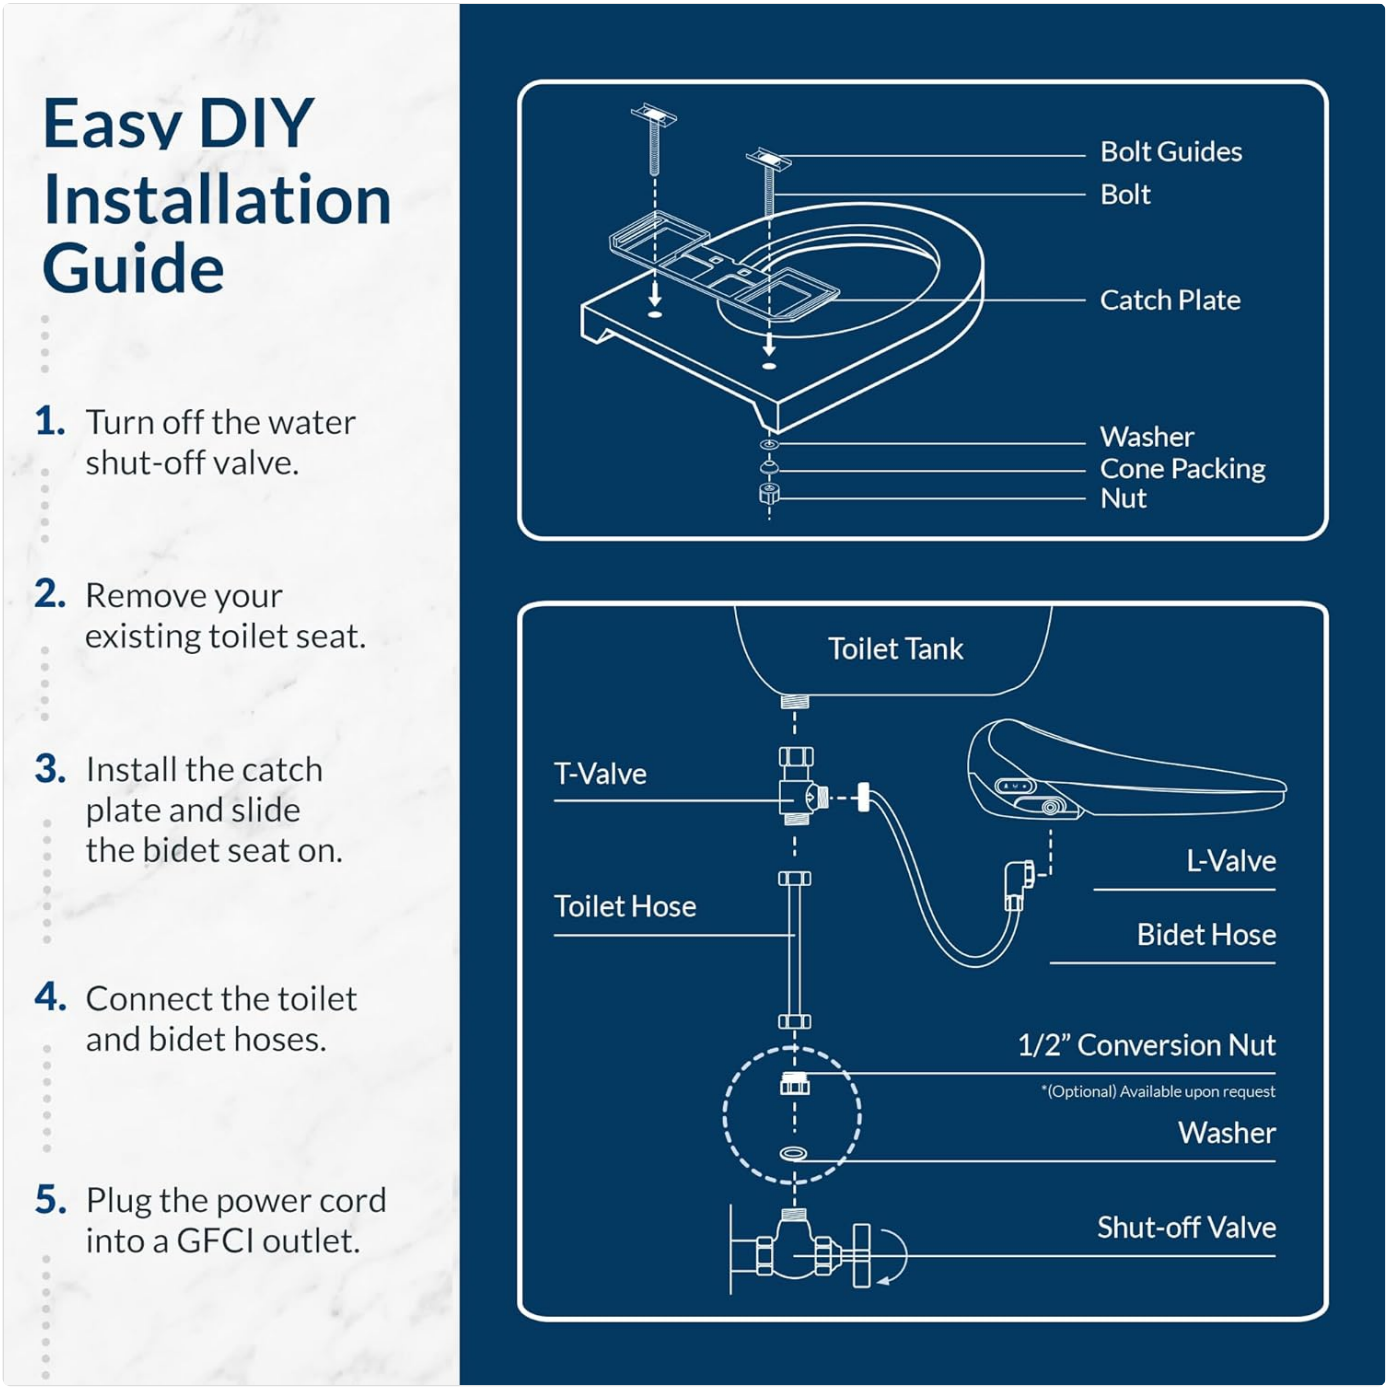

Troubleshooting

If you encounter issues with your Bio Bidet BB2000, refer to the following common solutions:

Problem	Possible Cause	Solution
No water spray	Skin sensor not activated	Ensure full contact with the seat sensor.
No warm water	Water temperature setting is too low or unit is in energy-saving mode.	Adjust water temperature settings on the remote. Check energy-saving mode.
No heated seat	Seat temperature setting is too low or unit is in energy-saving mode.	Adjust seat temperature settings on the remote. Check energy-saving mode.
Weak water pressure	Water pressure setting is too low or water supply valve is not fully open.	Increase water pressure setting on the remote. Ensure the water supply valve is fully open.
Deodorizer not working	Deodorizer may be clogged or unit is off.	Check if the deodorizer vent is clear. Ensure the unit is powered on.
Unit not powering on	Power cord unplugged or GFCI tripped.	Ensure the power cord is securely plugged into a GFCI outlet. Reset the GFCI if tripped.

Product Specifications
