Hoover AC25

Hoover AC25 Textile Pad Instruction Manual

Original Accessory and Spare Part for Hoover Steam Jet Express Steam Cleaners

INTRODUCTION

This manual provides essential instructions for the proper use and maintenance of your Hoover AC25 Textile Pads. These pads are designed as genuine replacement accessories for the Hoover SSS1500 SteamJet Express Steam Mop, ensuring effective cleaning of hard floors.

Please read this manual thoroughly before first use and retain it for future reference.

SETUP AND INSTALLATION

The Hoover AC25 Textile Pads are designed for easy attachment to your compatible Hoover SteamJet Express Steam Mop (model SSS1500).

1. **Ensure Safety:** Before attaching or detaching the textile pad, ensure your Hoover Steam Mop is unplugged from the power outlet and has cooled down completely.
2. **Prepare the Mop Head:** Turn the steam mop head upside down to expose the fastening system.
3. **Attach the Pad:** Align the textile pad with the mop head. The pad features a secure fastening system designed to fit snugly. Press the pad firmly onto the mop head, ensuring it is evenly distributed and securely attached across the entire surface.
4. **Verify Attachment:** Once attached, gently pull on the edges of the pad to confirm it is securely fastened and will not detach during use.

OPERATING INSTRUCTIONS

These textile pads are an integral part of your Hoover SteamJet Express Steam Mop's cleaning system. Follow the operating instructions of your steam mop for general use.

- **Pre-Cleaning:** For best results, sweep or vacuum the floor surface before using the steam mop to remove loose dirt and debris.
- **Steam Mop Operation:** Once the pad is securely attached and the steam mop is filled with water and heated, operate the mop as per its specific instructions. The textile pad will absorb dirt and grime as the steam cleans the floor.
- **Pad Saturation:** If the pad becomes heavily soiled or saturated during cleaning, replace it with a fresh, clean pad to maintain cleaning effectiveness.

CARE AND MAINTENANCE

Proper care of your Hoover AC25 Textile Pads will extend their lifespan and ensure optimal cleaning performance.

1. **Removal:** After use, ensure the steam mop has cooled down. Carefully detach the soiled textile pad from the mop head. Avoid touching hot surfaces.
2. **Washing:** The textile pads are machine washable. Wash them with similar colors in warm water. Do not use bleach or fabric softeners, as these can degrade the pad's microfibre material and reduce its cleaning efficacy.
3. **Drying:** Air dry the pads or tumble dry on a low heat setting. Avoid high heat, which can damage the fibers.
4. **Storage:** Store clean, dry pads in a clean, dry place until their next use.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|-------------------------------|---|---|
| Pad not cleaning effectively. | Pad is too soiled or worn out. | Replace with a clean pad. If pads are old, consider replacing them with new ones. |
| Pad detaches during use. | Pad not securely fastened or fastening system is worn. | Ensure pad is firmly pressed onto the mop head. If the fastening system is worn, replace the pad. |
| Streaks left on floor. | Pad is too dirty or detergent residue from previous washes. | Wash pad thoroughly without fabric softener. Replace with a clean pad. Ensure floor is pre-swept. |

SPECIFICATIONS

- **Product Name:** Hoover AC25 Textile Pad
- **Model Number:** 35601390
- **Compatibility:** Hoover SSS1500 SteamJet Express Steam Mop
- **Material:** Microfibre Textile
- **Quantity:** 2 pads per pack
- **Special Features:** Secure Fastening, Machine Washable
- **Dimensions (Packaging):** Approximately 8.74 x 7.01 x 2.44 inches
- **Item Weight (Packaging):** Approximately 5.4 ounces
