

Lighting EVER LE-395

Lighting EVER LE-395 Black Light UV Flashlight

INSTRUCTION MANUAL

Model: LE-395

Introduction

The Lighting EVER LE-395 Black Light UV Flashlight is a versatile and portable ultraviolet light detector designed for various applications. Its 395nm wavelength effectively helps detect animal urine and food stains on rugs, carpets, and clothes that are invisible to the naked eye. This pocket-sized UV flashlight is an essential tool for pet owners, allowing for easy detection of stains in your car or for illuminating minerals and body art. It is also useful for authenticating currency and official documents like driver's licenses and ID cards. Built with durable aluminum alloy, it features IPX4 waterproof and impact-resistant properties, along with a special non-slip rubber design for comfortable handling. The flashlight comes with 3 AAA batteries, providing long-lasting power.

Package Contents

- 1 x Lighting EVER LE-395 Black Light UV Flashlight
- 3 x AAA Batteries (included)

Key Features

- **395nm Wavelength:** Optimized for detecting animal urine, food stains, and other fluorescent materials.
- **Portable Design:** Compact and lightweight, easily fits in a pocket or bag for convenient carrying.
- **Durable Construction:** Made from aluminum alloy with IPX4 water resistance and impact-proof design.
- **Versatile Use:** Ideal for pet stain detection, currency and document authentication, mineral illumination, and invisible ink messages.
- **Non-Slip Grip:** Special rubber design ensures secure handling.
- **Batteries Included:** Comes with 3 AAA batteries for immediate use.

Setup: Battery Installation

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert the three AAA batteries into the battery holder, ensuring correct polarity (+/-) as indicated inside the holder.
3. Place the battery holder into the flashlight body.
4. Screw the tail cap back on clockwise until it is securely tightened.

Video 2: This video provides a detailed overview of the UV flashlight, including how to insert the AAA batteries and a demonstration of its functionality.

Operating Instructions

1. **Turning On/Off:** Press the button on the tail cap to turn the flashlight on. Press it again to turn it off.
2. **Pet Urine & Stain Detection:** In a darkened room, shine the UV flashlight over carpets, rugs, furniture, or other surfaces. Urine stains and certain food stains will fluoresce (glow) under the UV light, making them visible for cleaning.
3. **Currency & Document Authentication:** Shine the UV light on banknotes, driver's licenses, passports, or other official documents. Security features, such as fluorescent strips, fibers, or watermarks, will become visible, helping

to verify authenticity.

4. **Invisible Ink Messages:** For invisible ink pens that react to UV light, shine the flashlight over the written surface to reveal hidden messages.
5. **Mineral & Body Art Illumination:** Use the flashlight to observe fluorescent minerals or to enhance glow-in-the-dark body art.

Figure 3: The LE-395 UV Flashlight effectively reveals pet urine and food stains that are otherwise invisible, aiding in thorough cleaning.

Video 3: This video demonstrates how to effectively use the UV flashlight to locate and clean cat urine stains, showing before and after results.

Maintenance

- **Cleaning:** Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or immerse the flashlight in water.
- **Battery Replacement:** Replace all three AAA batteries simultaneously when the light becomes dim or stops working. Ensure correct polarity.
- **Storage:** If storing the flashlight for an extended period, remove the batteries to prevent leakage and damage. Store in a cool, dry place.

Troubleshooting

Problem	Possible Cause	Solution
Flashlight does not turn on.	Dead or incorrectly inserted batteries.	Check battery polarity. Replace with new AAA batteries.
Light is dim.	Low battery power.	Replace all three AAA batteries with new ones.
UV effect is weak.	Ambient light is too bright.	Use the flashlight in a darker environment for optimal results.

Specifications

Model Name: LE-395

Brand: Lighting EVER

Light Source Type: LED

Wavelength: 395nm

Power Source: Battery Powered (3 x AAA batteries)

Material: Aluminum

Color: Black

Product Dimensions: 1.1"D x 1.1"W x 3.7"H

Item Weight: 62 Grams

Water Resistance Level: IPX4 (Water Resistant)

Special Features: Impact Resistant, Lightweight, Non-Slip Grip, Portable, Stain Detector, Waterproof

Safety Information

- **UV Light Exposure:** Do not look directly into the UV light. Prolonged exposure can be harmful to eyes and skin.
- **Children:** Keep out of reach of children. Adult supervision is recommended when children use the flashlight.
- **Battery Safety:** Follow battery manufacturer's instructions for proper use and disposal. Do not mix old and new batteries, or different types of batteries. Remove batteries if the flashlight will not be used for an extended period.
- **Disposal:** Dispose of batteries and the flashlight according to local regulations.
