1. PRODUCT OVERVIEW

The LEGO Creator 31019 Forest Animals set offers a versatile building experience, allowing you to construct three different forest creatures from the same set of bricks. This set encourages creativity and imaginative play by enabling the transformation of one animal into another.

The primary model is a cheeky forest monkey with poseable arms, legs, and tail, and adjustable eyes, eyebrows, and an opening mouth for varied expressions. It comes with a colorful toucan companion. Beyond the monkey, the set can be rebuilt into a super-cute teddy bear or a very naughty squirrel.

2. ASSEMBLY INSTRUCTIONS

This LEGO Creator set provides instructions for building three distinct models: a Forest Monkey, a Teddy Bear, and a Squirrel. Follow the step-by-step instructions provided in the physical manual included with your set to construct each model.

2.1 Building the Forest Monkey

Begin by assembling the main body of the monkey, then attach the poseable limbs and tail. Pay close attention to the eye, eyebrow, and mouth assembly to ensure full adjustability for expressive play.

2.2 Building the Toucan

The toucan is a smaller companion build. Assemble its colorful beak, wings, and tail according to the instructions.

2.3 Rebuilding into a Teddy Bear or Squirrel

To build the alternative models, the Forest Monkey must first be disassembled. Sort the bricks by color and type to make the rebuilding process easier. Refer to the specific instructions for the Teddy Bear or Squirrel model.
