4.2 Cleaning

To clean the remote control, gently wipe its surface with a soft, dry cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the remote.

5. Troubleshooting

- **Remote is not responding:**
  - Ensure there is a clear line of sight between the remote and the TV's IR receiver. Obstructions can block the signal.
  - Check the batteries. Replace them with fresh AAA batteries, ensuring correct polarity.
  - Verify that the remote is compatible with your specific Samsung TV model (UN40ES6500 or UN46ES6500).
- **Some buttons do not work:**
  - This remote is a standard replacement. If specific advanced functions of your original remote are not present, this replacement may not support them.
  - Ensure the batteries are not low, as this can sometimes cause intermittent button functionality.
