# Babytekto Origami Mini Portable Folding Crib User Manual

MODEL: ORIGAMI MINI

## 1. Introduction

This manual provides essential information for the safe and proper assembly, operation, and maintenance of your Babyletto Origami Mini Portable Folding Crib. The Origami Mini is designed for modern families, offering a portable and space-saving sleeping solution for infants from newborn to beyond 18 months. Its compact footprint and rolling feet allow for easy movement, and the folding mechanism provides convenient storage. The crib features all-wood slat construction, ensuring durability and lightweight design.

## 2. Safety Information

**WARNING: Failure to follow these warnings and the assembly instructions could result in serious injury or death.**

- Ensure all parts are correctly assembled and tightened before use. Regularly check for loose hardware.
- The crib is safe for use until the child is 35 inches (89 cm) tall or begins to climb out, whichever comes first.
- This product is Greenguard Gold Certified, meaning it has undergone rigorous scientific testing for over 10,000 chemical emissions and VOCs, contributing to cleaner indoor air and a healthier environment for your baby.
- The crib is finished with a non-toxic multi-step painting and staining process that is lead and phthalate safe, exceeding ASTM International and U.S. CPSC safety standards.
- Always use a mattress that fits snugly without gaps to prevent entrapment. The crib includes a 1-inch mattress pad. For additional support, the Pure by babyletto mini crib mattress (37" x 23.5") is recommended.

## 3. Included Components

The Babyletto Origami Mini Portable Folding Crib package includes the following items:

- Mini Portable Crib frame
- 1-inch mattress pad
- Four locking casters

## 4. Setup

The Babyletto Origami Mini Portable Folding Crib is designed for straightforward assembly. Follow the detailed instructions provided in the manufacturer's manual included with your product for step-by-step guidance.

**Initial Assembly:** The crib arrives in a compact, folded state. Unfold the main frame carefully, ensuring all hinges and locking mechanisms engage securely. Attach the four locking casters to the bottom of the crib legs. These casters can be locked to keep the crib stationary or unlocked for easy movement.

**Mattress Support Installation:** The crib features two adjustable mattress positions. For newborns, install the mattress support at the higher level to allow for easier access to your baby. As your child grows and becomes more mobile (e.g., begins to push up on hands and knees or sit unassisted), lower the mattress support to the bottom position to prevent climbing out.

## 5. Operating Instructions

**Adjustable Mattress Positions:** The crib offers two mattress height settings. The higher setting is ideal for newborns and younger infants, providing easier access for parents. The lower setting is for older infants and toddlers who can sit up or pull themselves to a standing position, ensuring their safety by preventing them from climbing out.

**Portability:** The crib is equipped with four removable, locking caster wheels. To move the crib, unlock the casters and gently push it to the desired location. Once in place, lock the casters to secure the crib and prevent accidental movement.

**Folding Mechanism:** For storage or transport, the crib features a convenient folding mechanism. Follow the specific instructions in your product manual to safely fold the crib flat. This feature makes it an excellent choice for small living spaces or for travel.

## 6. Maintenance

---

To maintain the longevity and safety of your Babyletto Origami Mini Portable Folding Crib, regular care is recommended. Refer to the specific product care instructions provided in your original manual for detailed guidance on cleaning and upkeep. Generally, wipe surfaces with a damp cloth and mild soap, avoiding harsh chemicals or abrasive cleaners.

## 7. Troubleshooting

---

If you encounter any issues with your Babyletto Origami Mini Portable Folding Crib, please consult the troubleshooting section of your original product manual. Common issues may include:

- **Difficulty folding/unfolding:** Ensure all locking mechanisms are disengaged before attempting to fold or unfold. Check for any obstructions.
- **Casters not locking/rolling smoothly:** Inspect casters for debris or damage. Ensure the locking levers are fully engaged or disengaged.
- **Loose parts:** Periodically check all screws and bolts and tighten them as necessary. Do not overtighten.

For persistent problems, contact Babyletto customer support.
