KAWADA PN-122

KAWADA Paper Nano Empire State Building Kit PN-122 Instruction Manual

Model: PN-122 | Brand: KAWADA

1. Introduction

The KAWADA Paper Nano Empire State Building Kit PN-122 allows you to construct a precise 3D paper craft model of the iconic Empire State Building. This kit utilizes laser-cutting technology to provide sturdy card stock pieces that fit together to form a detailed replica. Please note that this product is a paper model and not a building block set.
The assembled model is designed to be displayed within its included box, which transforms into a display case.

2. Safety Information

- **Recommended Age:** This kit is suitable for individuals aged 12 years and up.
- **Sharp Tools:** Assembly requires the use of a utility knife. Exercise extreme caution when handling sharp tools to prevent injury. Adult supervision is recommended for younger users.
- **Small Parts:** The kit contains small parts which may pose a choking hazard. Keep out of reach of small children.

3. Package Contents

Upon opening the kit, verify that all components are present:

- Laser-cut paper sheets for the Empire State Building model.
- Instruction manual (this document provides general guidance; refer to the specific diagrams included in your kit for detailed assembly steps).
- Folded display case.

4. Tools Required (Not Included)

The following tools are essential for assembly and are not included in the kit:

- **Utility Knife:** For precise cutting and detaching paper pieces.
- **Tweezers:** For handling small parts and aiding in folding.
- **Adhesive Glue / Paper Cement:** Transparent glue is recommended for a clean finish.

Ensure you have a clean, well-lit workspace and a cutting mat to protect your surfaces.

5. Assembly Instructions

Assembly of the Paper Nano Empire State Building requires patience and precision. Follow the detailed diagrams and step-by-step instructions provided within your kit's specific manual. The general process involves:

1. **Preparation:** Carefully detach each laser-cut paper piece from its sheet using a utility knife. Organize pieces by number or section as indicated in your kit's instructions.
2. **Folding:** Using tweezers, precisely fold the paper along the designated lines. Sharp, clean folds are crucial for a well-formed model.
3. **Gluing:** Apply a small amount of transparent adhesive glue to the tabs or designated areas. Press pieces together firmly and hold until the glue sets. Work in small sections to ensure accuracy.
4. **Layering and Construction:** Build the model layer by layer, following the numerical sequence in your kit's instructions. Pay close attention to the orientation of each piece.
5. **Final Assembly:** Once all sections are complete, carefully join them to form the full Empire State Building model.

Take your time and enjoy the process. Rushing can lead to errors or damage to the delicate paper components.

6. Displaying Your Model

Once assembled, your Paper Nano Empire State Building can be proudly displayed. The kit includes a folded display case designed to protect and showcase your finished model.

Optional LED Lighting

For enhanced visual appeal, the model is designed to be illuminated with a separately sold nanoblock-LED plate. This accessory allows the building's windows to glow, creating a striking effect, especially in low light conditions.

7. Maintenance

- **Dusting:** Gently dust the model with a soft, dry brush or a can of compressed air to remove accumulated dust.
- **Avoid Moisture:** Keep the paper model away from water, high humidity, and direct sunlight to prevent warping, discoloration, or damage to the paper and glue.
- **Storage:** When not on display, store the model in a dry, cool place, preferably in its original display case or a protective box.

8. Troubleshooting

- **Pieces Not Fitting:** Double-check the piece numbers and orientation against the kit's instructions. Ensure all folds are sharp and accurate.
- **Glue Issues:** If glue is not holding, ensure you are using a suitable paper adhesive and applying enough pressure for the recommended drying time. Avoid excessive glue, which can warp paper.
- **Torn Pieces:** If a piece tears, carefully reattach it with a small amount of glue. For significant tears, consider reinforcing the back with a small, thin piece of paper.
- **Warping:** Warping can occur due to excessive moisture or improper drying of glue. Ensure a dry environment and allow glue to dry completely before moving to the next step.

9. Specifications

Model Number	PN-122
Product Name	Paper Nano Empire State Building Kit
Brand	KAWADA
Material	Paper
Finished Model Dimensions (approx.)	145 x 90 x 60 mm (Height x Width x Depth)
Package Dimensions (L x W x H)	5.25 x 4.12 x 1.12 inches
Item Weight	2.4 ounces
Recommended Age	12 Years and Up
UPC	793631658732

GTIN	4560454260628
