5. CARE AND MAINTENANCE

Proper care and maintenance will help preserve the beauty and longevity of your Scarlette Classic Four Poster Bed.

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the glossy dark pine finish.
- **Dusting:** Regularly dust the frame with a dry, soft cloth to prevent buildup.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration of the wood finish.
- **Humidity:** Maintain a consistent humidity level in the room to prevent wood from warping or cracking.
- **Hardware Check:** Periodically inspect all bolts and screws and tighten them if necessary to maintain structural integrity.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your bed frame.

- **Squeaking Noises:**

Possible Cause: Loose hardware or friction between components.

Solution: Tighten all bolts and screws. If squeaking persists, disassemble and reassemble the affected section, ensuring all parts are correctly aligned and tightened. Applying a small amount of furniture wax or paraffin to contact points can also help reduce friction.

- **Instability/Wobbling:**

Possible Cause: Uneven floor or loose connections.

Solution: Ensure the bed is placed on a level surface. Check and tighten all assembly hardware. If the floor is uneven, use furniture glides or shims under the bed feet to stabilize it.

- **Damaged Finish:**

Possible Cause: Scratches, dents, or exposure to harsh elements.

Solution: For minor scratches, a wood repair marker or furniture polish matching the dark pine finish may be used. For significant damage, contact the manufacturer for advice on professional repair.
