SETUP

Setting the Time and Date

- Pull out the crown:** Gently pull the crown (the knob on the side of the watch) out to the first or second click position, depending on whether you are setting the date or time.
- Adjust the time:** Rotate the crown to move the hour and minute hands to the correct time. Ensure the 12/24 hour format is correctly set if applicable.
- Adjust the date:** If setting the date, rotate the crown in the opposite direction or to the first click position to adjust the date window.
- Push in the crown:** Once the time and date are set, push the crown back into its normal position to start the watch movement.

Initial Inspection

Upon receiving your watch, inspect it for any visible damage. Ensure all buttons and the crown operate smoothly. The watch comes with a battery included.

OPERATING THE WATCH

Basic Timekeeping

The Casio EFM-502-1AVCF features a quartz movement with an analog display, providing accurate timekeeping.

Chronograph Function

This watch includes chronograph subdials for measuring elapsed time. Refer to the specific button functions for starting, stopping, and resetting the chronograph. Typically, one button starts/stops and another resets.

Bi-directional Numbered Bezel

The watch is equipped with a bi-directional rotating bezel. This bezel can be used for various timing purposes, such as measuring elapsed time. Rotate the bezel to align the desired mark with the minute hand to track time intervals.

Date Window and 12/24 Hour Formats

The watch displays the current date in a dedicated window. It also supports 12/24 hour formats, which can be adjusted

during the time setting process.

MAINTENANCE

Water Resistance

This watch is water resistant to 200 meters (20 ATM). This makes it suitable for swimming and snorkeling. **It is not suitable for scuba diving.** Always ensure the crown is fully pushed in before exposing the watch to water.

Cleaning and Care

- Wipe the watch case and band with a soft, dry cloth regularly to remove dirt and moisture.
- For the resin band, a mild soap solution and a soft brush can be used, followed by rinsing with clean water and thorough drying.
- Avoid exposing the watch to extreme temperatures, direct sunlight for prolonged periods, or strong magnetic fields.
- Do not use chemical cleaners or solvents on the watch.

Battery Replacement

The watch is powered by a product-specific battery. When the battery runs low, it is recommended to have it replaced by a qualified watch technician to ensure proper sealing and water resistance.

TROUBLESHOOTING

Hands Misalignment

If the hour and minute hands become misaligned, this may require adjustment. Consult a professional watch repair service for recalibration to ensure accurate time display.

Watch Not Functioning

- Check if the crown is fully pushed in.
- The battery may need replacement.
- If the issue persists, seek professional assistance.

SPECIFICATIONS

Feature	Detail
Model Number	EFM-502-1AVCF
Brand	Casio
Movement Type	Quartz
Case Diameter	47 Millimetres
