3. SETUP AND INSTALLATION

Follow these steps to install your new v4ink C7115X toner cartridge:

1. **Unpack the Cartridge:** Carefully remove the new toner cartridge from its packaging.
2. **Remove Sealing Tape:** Locate and firmly pull the sealing tape entirely from the cartridge. This tape protects the toner during shipping and must be removed for proper function.
3. **Shake Gently:** Gently rock the cartridge from side to side a few times to distribute the toner evenly inside.
4. **Open Printer Access:** Open the toner cartridge access door on your HP LaserJet printer. Refer to your printer's specific manual for exact location if unsure.
5. **Remove Old Cartridge:** Carefully remove the old toner cartridge from the printer.
6. **Insert New Cartridge:** Align the new v4ink cartridge with the guides inside the printer and push it firmly until it clicks into place.
7. **Close Printer Access:** Close the toner cartridge access door.

8. **Printer Recognition:** If your printer displays a message regarding a non-HP or compatible cartridge, press "OK" or confirm to bypass the message and continue printing. This is a standard notification for compatible cartridges and does not indicate a fault.

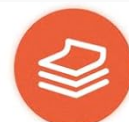

4. OPERATING INSTRUCTIONS

Once installed, your v4ink C7115X toner cartridge is ready for use. These cartridges are designed to deliver reliable printing results with sharp text, bold blacks, and crisp graphics.

Page Yield

Each v4ink C7115X toner cartridge is rated for approximately **4,000 pages** based on 5% coverage on letter/A4 sized paper. Actual page yield may vary significantly depending on content printed, print settings, and other factors.

5. MAINTENANCE

To ensure consistent performance and extend the life of your toner cartridge and printer:

- **Storage:** Store unused toner cartridges in their original, sealed packaging in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid touching the drum or electrical contacts on the cartridge, as oils from your skin can affect print quality.
- **Printer Cleaning:** Periodically clean the inside of your printer according to the manufacturer's instructions to remove any toner dust buildup.

6. TROUBLESHOOTING

If you encounter issues with your v4ink C7115X toner cartridge, consider the following:

- **"Non-HP Cartridge" Message:** As mentioned in the setup section, this is normal for compatible cartridges.

Simply press "OK" or confirm on your printer's display to proceed.

• **Poor Print Quality (Streaks, Fading):**

- Gently remove the cartridge and rock it side to side to redistribute toner. Reinstall and test.
- Ensure the sealing tape was completely removed during installation.
- Check printer settings for print quality and toner density.
- If the cartridge is nearing its estimated page yield, it may be running low on toner.

• **Cartridge Not Recognized:**

- Remove the cartridge and inspect the electrical contacts on both the cartridge and inside the printer for any debris or damage. Gently wipe contacts with a lint-free cloth.
- Ensure the cartridge is seated firmly and correctly in its slot.
- Restart your printer and computer.

If problems persist, please refer to the Warranty and Support section for contact information.

7. SPECIFICATIONS

Feature	Detail
Product Name	v4ink C7115X Compatible Toner Cartridge
Compatibility Options	C7115X, 13X, 15X, Q2613X, C7115A
Color	Black
Page Yield	Up to 4,000 pages (at 5% coverage, Letter/A4)
