### USAGE AND OPERATION

The DHP Kayden Twin Daybed is designed for use as both a seating area and a sleeping surface. Place a standard twin-size mattress (sold separately) directly onto the wooden slats. For additional sleeping capacity, a compatible twin-size trundle (sold separately) can be placed underneath the daybed.

Ensure the daybed is placed on a flat, stable surface. Avoid dragging the daybed when moving it; lift it to prevent damage to the frame or flooring.

### MAINTENANCE

- **Cleaning:** Wipe the wooden frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Tightening:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain stability and safety.
- **Protection:** Avoid placing hot items directly on the frame. Use coasters or protective pads if necessary.

## TROUBLESHOOTING

---

**Issue: Daybed feels wobbly or unstable.**

**Solution:** Check all assembly bolts and screws. Ensure they are fully tightened. If the issue persists, disassemble and reassemble, carefully following the instructions to ensure all parts are correctly aligned.

**Issue: Parts are missing or damaged upon arrival.**

**Solution:** Do not attempt to assemble the product. Contact DHP Customer Support immediately for replacement parts. Refer to the "Warranty and Support" section for contact information.

**Issue: Mattress does not fit correctly.**

**Solution:** Ensure you are using a standard twin-size mattress. The daybed is designed for a twin mattress and does not require a box spring.
