ENHANCE GX-M1 High Precision PC Gaming Mouse User Manual

Model: ENGAXM1100BKEW

INTRODUCTION

Thank you for choosing the ENHANCE GX-M1 High Precision PC Gaming Mouse. This manual provides essential information for setting up, operating, and maintaining your new gaming mouse. Designed for precision and comfort, the GX-M1 features dynamic LED lighting, adjustable DPI settings, and an ergonomic design to enhance your gaming experience.

The ENHANCE GX-M1 Gaming Mouse showcasing its dynamic LED lighting and ergonomic design.

SETUP

The ENHANCE GX-M1 Gaming Mouse is designed for convenient plug-and-play functionality. Follow these simple steps to get started:

1. **Connect the USB Cable:** Locate an available USB port on your computer. Insert the USB connector of the GX-M1 mouse firmly into the USB port.
2. **Driver Installation:** Your operating system (Windows, macOS, etc.) will automatically detect the mouse and install the necessary drivers. This process usually takes a few seconds. No additional software installation is

required for basic functionality.

3. **Placement:** Place the mouse on a flat, clean surface or a mouse pad for optimal tracking performance.

OPERATING INSTRUCTIONS

DPI Adjustment

The GX-M1 mouse features three adjustable DPI (Dots Per Inch) settings, allowing you to change cursor sensitivity on the fly to suit different tasks or game genres. Use the dedicated DPI button located behind the scroll wheel to cycle through the settings:

- **1200 DPI:** Standard sensitivity for general use and precise movements.
- **2400 DPI:** Increased sensitivity for faster cursor movement.
- **3500 DPI:** High sensitivity for rapid movements, ideal for fast-paced gaming.

LED Lighting Control

The GX-M1 mouse features dynamic, color-changing LED lighting that cycles through 7 different colors, providing an immersive visual experience. To turn the LED lighting ON or OFF, use the dedicated switch located on the underside of the mouse.

The ENHANCE GX-M1 Gaming Mouse illuminated by its color-changing LEDs in a low-light environment.

Button Functions

The GX-M1 mouse is equipped with 6 buttons for enhanced functionality:

- **Left Click Button:** Standard primary click function.
- **Right Click Button:** Standard secondary click function.
- **Scroll Wheel:** Scrolls content up and down. Can also be pressed for middle-click functionality.
- **DPI Button:** Cycles through 1200, 2400, and 3500 DPI settings.
- **Side Thumb Buttons (Forward/Backward):** Located on the left side of the mouse, these buttons are typically used for navigating web pages (forward/backward) or can be programmed for in-game actions.

ERGONOMIC RUBBERIZED GRIP FOR COMFORT AND CONTROL

MAINTENANCE

Proper maintenance will ensure the longevity and optimal performance of your ENHANCE GX-M1 Gaming Mouse:

- **Cleaning:** Use a soft, dry cloth to wipe down the mouse surface regularly. For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid using harsh chemicals or abrasive materials.
- **Optical Sensor:** Keep the optical sensor on the underside of the mouse clean and free of dust or debris. Use a cotton swab or compressed air if necessary.
- **Cable Care:** The braided nylon cable is designed for durability, but avoid sharp bends, kinks, or excessive pulling, which can damage the internal wires. Store the cable neatly when not in use.
- **Storage:** When not in use for extended periods, store the mouse in a clean, dry environment away from extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your ENHANCE GX-M1 Gaming Mouse, refer to the following common troubleshooting steps:

- **Mouse Not Responding:**
 - Ensure the USB cable is securely plugged into a working USB port on your computer. Try a different USB port.
 - Restart your computer.
 - Test the mouse on another computer to determine if the issue is with the mouse or your system.

- **LED Lights Not Working:**
 - Check the LED ON/OFF switch on the underside of the mouse and ensure it is in the "ON" position.
 - Verify the mouse is properly connected to your computer.
- **Inaccurate or Jerky Tracking:**
 - Clean the optical sensor on the bottom of the mouse.
 - Ensure you are using the mouse on a clean, non-reflective, and uniform surface. A mouse pad is recommended.
 - Adjust the DPI setting to a lower value if the cursor is too sensitive.
- **Buttons Not Functioning:**
 - Ensure the mouse is properly connected.
 - If specific buttons are not working, try restarting your computer.
 - Check for any software conflicts if you are using third-party mouse customization software.

If these steps do not resolve your issue, please refer to the Support section for further assistance.

SPECIFICATIONS
