BLANCO CULINA MINI Semi-Pro Kitchen Faucet User Manual

Model: 441624 | Brand: BLANCO

INTRODUCTION

The BLANCO CULINA MINI Semi-Pro Kitchen Faucet is designed for functionality and style in smaller kitchen spaces, prep sinks, or bar areas. Inspired by professional kitchen faucets, it features a closed coil design, durable construction, and versatile spray functions. This manual provides essential information for the proper installation, operation, and maintenance of your faucet.

IMPORTANT SAFETY INFORMATION

- Installation should be performed by a qualified professional to ensure proper function and compliance with local codes.
- Always turn off the main water supply before attempting any installation, maintenance, or repair.
- Exercise caution when operating the faucet, especially with hot water, to prevent scalding.
- Do not use abrasive cleaners, harsh chemicals, or scouring pads on the faucet finish, as this may cause damage.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- BLANCO CULINA MINI Semi-Pro Kitchen Faucet
- Installation Hardware
- User Manual (this document)

SETUP & INSTALLATION

This faucet is designed for single-hole deck mounting. Professional installation is recommended to ensure correct setup and optimal performance. Ensure you have adequate space and access under the sink for installation.

General Installation Steps:

1. Turn off the main water supply.
2. Clear the installation area and ensure the sink hole is ready.
3. Mount the faucet body onto the sink deck, securing it with the provided hardware from underneath.
4. Connect the hot and cold water supply lines to the appropriate inlets on the faucet.
5. Test for leaks and proper operation before regular use.

OPERATING INSTRUCTIONS

Water Flow and Temperature Control:

The faucet features a single lever handle for controlling both water flow and temperature. Move the lever up to increase flow and down to decrease it. Move the lever left for hot water and right for cold water. The dual ceramic disc cartridges ensure precise control.

Pull-Down Sprayhead Function:

The semi-pro design includes a flexible coil hose and a pull-down sprayhead for extended reach and versatility.

The sprayhead is equipped with a magnetic docking arm for secure and easy return to its position.

- **Detaching the Sprayhead:** Gently pull the sprayhead downwards from its magnetic docking arm.
- **Dual Spray Function:** The sprayhead offers a powerful dual spray function. A button on the sprayhead allows you to switch between a steady stream and a wide spray pattern.
- **Re-docking:** Once finished, guide the sprayhead back towards the docking arm; the magnet will securely pull it into place.

MAINTENANCE

Cleaning the Faucet:

To maintain the finish of your BLANCO faucet, clean it regularly with a soft cloth and mild soap. Rinse thoroughly with water and dry with a soft cloth to prevent water spots. Avoid using abrasive cleaners, ammonia-based products, or harsh chemicals, as these can damage the finish and void the warranty.

Cartridge Maintenance:

The faucet is equipped with durable ceramic disc cartridges designed for long-lasting, drip-free performance. If you experience persistent dripping or difficulty controlling water flow/temperature, the cartridge may need inspection or replacement. Contact customer support or a qualified plumber for assistance.

TROUBLESHOOTING

Refer to the table below for common issues and their potential solutions:

Issue	Possible Cause	Solution
Low Water Pressure	Aerator clogged; Water supply valves partially closed; Debris in supply lines.	Clean or replace aerator; Fully open water supply valves; Flush supply lines.
Faucet Leaks from Handle	Worn O-rings or cartridge.	Replace O-rings or cartridge. Professional assistance may be required.
Water Sprays Excessively	High water pressure in home; Faucet turned on too high.	Adjust water flow using the lever handle; Consider installing a pressure regulator if home pressure is consistently high.
Sprayhead Does Not Dock Securely	Magnetic docking arm or sprayhead magnet is dirty or damaged.	Clean the magnetic surfaces; Inspect for damage.
Supply Lines Not Long Enough	Standard supply lines may not reach all connections.	Purchase supply line extenders if needed.

PRODUCT SPECIFICATIONS

- **Brand:** BLANCO
- **Model Name:** Blancoculina
- **Model Number:** 441624
- **Finish Type:** Chrome (Polished Chrome)
- **Material:** Brass
